Track insight:
Integration

Official SAP TechEd on Tour content included

Connect everything. Integrate smarter. Power your landscape.

Whether you're planning a migration or just want your integration to be more reliable, this track shares what's working in real-world environments - plus what's on the roadmap and how you can get hands-on in the official SAP TechEd sessions.

Integration continues to be a central challenge for SAP landscapes - especially when managing a mix of cloud and on-premise systems. This track focuses on practical approaches to designing and operating integration architectures, including the use of SAP Integration Suite, APIs, event-based messaging, and other technologies. Attendees will hear from teams who are balancing performance, governance, and cost in real-world environments, and who are building integration strategies that support both current operations and future change.

What You'll Learn:

- Integration strategies for hybrid SAP environments (ECC, S/4, BTP)
- Where and how SAP Integration Suite (CPI) is being used
- Managing APIs, event-based messaging, and data synchronisation
- Governance and monitoring in complex integration landscapes
- Tools and approaches for connecting SAP with non-SAP platforms
- Handling integration across multi-vendor ecosystems
- The relationship between integration and overall ERP architecture
- Lessons learned from implementation, scaling, and support

Topics to be covered:

- Hybrid integration strategy (cloud + on-premise)
- Use of SAP Integration Suite (CPI)
- API and event-driven architecture
- Governance, monitoring, and alerting
- Legacy and third-party system integration
- Multi-vendor landscape connection
- Change control and lifecycle management
- S/4HANA transition and interface design
- Integration testing approaches
- Tools and middleware alternatives

Including: SAP Integration Suite | API Management | Cloud Integration | Event Mesh | Edge Integration Cell | Hybrid Integration | SAP BTP | Developer Productivity | Intelligent Connectivity

EXHIBITION CENTRE, ICC SYDNEY 12 - 14 NOVEMBER 2025
