

## Track insight: **S/4HANA Core**

### **Real-World Perspectives. Faster migration. Deliver value in the cloud.**

Whether you're justifying a business case, in the middle of a rollout, or stabilising life after go-live, this track brings together real-world insights from those living the S/4HANA experience.

**Come to hear what's realistic, what's changing, and how to make it all add up - both technically and commercially.**

S/4HANA is no longer a future goal - it's a pressing project for many, and a lived experience for others. This track looks beyond the glossy brochures to examine the decisions, trade-offs, and lessons that shape how organisations are running or migrating to S/4. From deployment models (RISE, GROW, private cloud, on-prem) to system architecture, operational costs, and skills challenges, we'll explore what's working, what's proving hard, and how teams are keeping the business onboard. If you're working through the why, when or how of S/4HANA, this track offers practical insight from those doing it for real.

#### **What You'll Learn:**

- Different approaches to S/4HANA migrations and upgrades
- What organisations are learning from going greenfield or brownfield
- The role of RISE and GROW in shaping deployment decisions
- Ongoing operational costs and how to manage them
- Governance and architecture considerations in S/4HANA environments
- User experience evolution - where Fiori fits and where it doesn't
- Skill shifts, team structure and upskilling for long-term success
- How to align transformation with business expectations and constraints

#### **Topics to be covered:**

- Migration planning and execution
- Greenfield vs brownfield choices
- RISE and GROW adoption
- System landscape and architecture
- Total cost of ownership and cost management
- Change management and stakeholder engagement
- Fiori, UX and front-end transformation
- Data quality, archiving, and readiness
- Licensing, roles and access control
- Operational and infrastructure monitoring
- Cloud vs on-prem decisions
- Upskilling and organisational capability development

Including: SAP S/4HANA | Clean Core | ABAP Cloud | SAP Cloud ALM | CBC | RISE with SAP | GROW with SAP | Lifecycle Management | Extensibility | ERP Migration

**EXHIBITION CENTRE, ICC SYDNEY 12 - 14 NOVEMBER 2025**
