FELCO 250 Hedge Shears

Versatile and precise shears for easily and efficiently maintaining hedges and shrubs.

- Large blades with serrated section for clean and efficient cutting of wires and thicker branches
- High quality, precision ground, hardened steel blades with 15mm cutting diameter and chrome coating for long-lasting sharpness and corrosion prevention
- Grease bolt for easy maintenance and tool lubrication without disassembling
- I-Beam extruded aluminium handles for high resistance to physical force while being extremely lightweight and durable
- FELCO's precision micro-metric adjustment system allows for precise blade setting
- Ergonomic, phthalate-free, non-slip grips for optimal comfort and soft cushioned shock absorbers to reduce fatigue
- All spare parts are available and can be replaced to extend tool life indefinitely
- Made in Switzerland using 100% green energy

Heiniger Australia is the exclusive FELCO distributor and authorised service centre.
