

Improve your ability to diagnose and treat
patients of all sizes

Single-Use High-Definition Flexible Scopes from KARL STORZ

You see a complex mix of patients and cases every day. With our portfolio of single-use flexible scopes you've got the flexibility to choose the right scope to meet the needs of each patient. Whether you need to evaluate the respiratory or urinary tract in a small or exotic animal, the gastrointestinal tract of a small reptile or the sinuses of a horse, you'll always have the right scope on hand with KARL STORZ.

STORZ
KARL STORZ — ENDOSKOPE

Improve your ability to diagnose and treat patients of all sizes

Giving you new ways to diagnose and treat common ailments seen in veterinary practice, single-use scopes by KARL STORZ make it easy to get started with flexible endoscopy. With a low initial investment, you'll quickly create a new revenue source, while improving patient treatment and increasing client satisfaction.

Single-use flexible scopes by KARL STORZ make no compromise in image quality. The HD CMOS image sensor and powerful integrated LED light source deliver bright, crystal-clear images; ensuring you see even the finest anatomical and tissue details.

Whether you use single-use scopes as your primary scope, or as a back-up in case of damage to your primary scope, having single-use scopes on hand ensure that you'll always have the scope at the ready, when you need it.
