Thread

Cat in the Hat 🐱 🎩 🇬🇧
@CC14_CC14

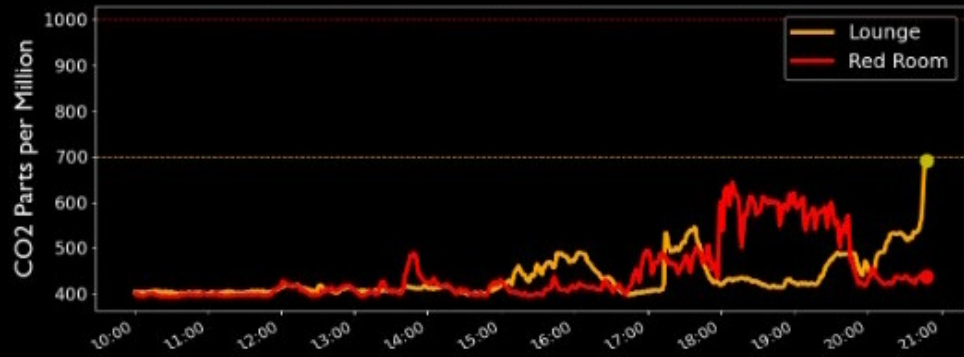

I want to tell you a little story about the fiasco of CO2 monitors & air purifiers for school classrooms.

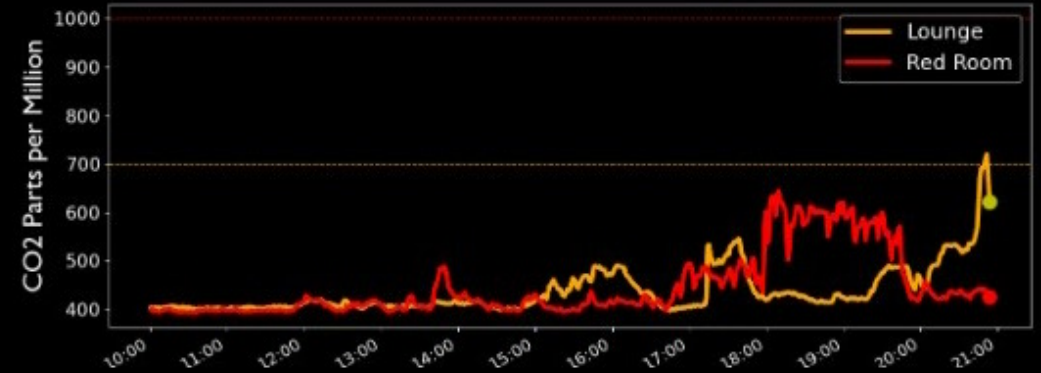

It's a rather depressing tale about a massive wasted opportunity, so please bear with me as I've tried to pull everything together into one thread...

Twitter and Mastodon Bots

The image shows two social media profiles side-by-side. On the left is a Twitter profile for 'HZ_CO2' (@hz_co2), which is a bot. The profile bio states 'Hashigo Zake's CO2 readings' and 'Joined July 2022'. It has 0 following and 45 followers. Below the profile are three tweets, each reporting an average CO2 reading over 60 minutes. The tweets are: 1) 499.4 ppm at 56m, 2) 587.2 ppm at 1h, and 3) 669.6 ppm at 2h. On the right is a Mastodon profile for 'The Hashigo Zake CO2 Bot' (@hz_co2@botsin.space), also a bot. It has 2.1K posts, 0 following, and 8 followers. It was joined on Nov 20, 2022. Below the profile are three posts, each reporting an average CO2 reading over 60 minutes: 1) 496.9 ppm at 23:03 on 21/02/2023, 2) 574.5 ppm at 22:03 on 21/02/2023, and 3) 669.6 ppm at 21:03 on 21/02/2023.

We enjoyed the lounge comedy show here. The cheese platter was good value. Hard to hear staff through their masks.

Kind of weird to see all the covid stuff around still? Anti covid air purifiers? Bit much at this point ... move on guys.
