

TIPS FOR GROUP REGISTRATION

To ensure the registration process for the group is as smooth as possible, please read the following tips:

Tip 1 Collate all the details you need before you start the registration form.

(See page 2 of this document for the questions in the group registration process. You could circulate this to your group and have them complete the information so it is handy for you in the online registration process)

Tip 2 Once you start filling in the registration form, don't stop or exit the form. Like most systems containing personal information, it will time out if you leave it idle for too long.

Tip 3 Complete the details for the group coordinator first. This will be the person who will be sent the invoice and is responsible for coordinating payment. If the group coordinator is not attending the conference, you will be able to indicate this and enter their details separately.

Tip 4 Be sure to check all the details of each registration, in particular their name and unique email address.

Tip 5 Make sure you know which way your organisation prefers to pay before you start the registration form. You can select either credit card or invoice for EFT payment. Payment must be made in one (1) single transaction. The tax invoice will be sent to the group coordinator only.

This is a list of the questions asked during the group registration process. To assist the group coordinator in completing the group registration, this document could be provided to each delegate in the group to complete their own details and return to the group coordinator.
