Zanda is practice management software with AI inside.
More time for clients. More time for you.

The image shows the Zanda software interface. On the left, a cartoon bee character is next to a calendar view for 'Mon 11' through 'Thu 14'. The calendar shows appointments for various practitioners like John Smith, Tom Summers, Cole Travis, Ashley Johnson, Susan Lewis, Airana Weber, Denis Richards, James Smith, Linda Crawford, Miles Teller, Alan Barney, Lana Halfway, Alexa McGraw, and Scooter Gradley. Overlaid on the interface are three AI-powered features: 1. A 'Treatment recorded' notification with a waveform and a 43:47 duration. 2. A prompt box asking 'Please summarize the treatment plan.' 3. A 'Treatment plan summary' box stating 'Key elements include continued session attendance, implementation of...'. On the right, a 'BizzyAI SOAP Note Draft' form is shown with fields for Subjective, Objective, Assessment, and Plan, along with 'Save note' and 'Refine' buttons.
