

Conference

DAY 1: THURSDAY 22ND JUNE

START TIME	PLENARY GREAT HALL 4	M3	M4	M1 & 2	EXHIBITION STAGE
9:00 AM	OFFICIAL CONFERENCE OPENING				
	OPENING KEYNOTE: Dr Dinesh Palipana				
	KEYNOTE: Ian Griffiths TITLE: Should we consider color when prescribing foot orthoses?				
11:00 AM - 11:30 AM	MORNING TEA				
	Dr Brooke Patterson The role of health and exercise professionals implementing injury prevention programs in community sport.	Prof Neil Piller Lymphatics and Veins: Recognising and responding to dysfunctions to optimise outcomes for the tissues of the feet and lower limb.	Peter Manuel Ankle anatomy and assessment - Presented by The Australasian College of Podiatric Surgeons (ACPS)		James Ferrie Shockwave Therapy & Best Practice for Recall Success
	Laurent Frossard STRONG (Strength Training Recommendations for ONGoing) management of plantar heel pain: a modified Delphi study	A/Prof Christina Parker Identifying and managing venous disease strain	Dr Haydar Ozcan Acute foot and ankle injury assessment and treatment - Presented by The Australasian College of Podiatric Surgeons (ACPS)		
	John Osborne Cyathlon: the emergence of new adapted sports for individuals living with limb absence using bionic prostheses	Polly Lim Efficacy of non-surgical interventions for midfoot osteoarthritis: a systematic review	Andrew Buldt Journal manuscript peer review workshop - Presented by the Journal of Foot and Ankle Research Editorial team (Australia)		Bob Eckles Briggate: Break out of your routine! Try something new in your orthotic builds. &... biomechanical consequences of carbon fiber plated running shoes- how will orthoses work in this environment?
	Ryan Causby Diagnostic accuracy of the Ottawa Ankle Rule to exclude fractures in acute ankle injuries	Jayishni Maharaj The mechanical effects of foot orthoses on plantar fascia			
	Alexander Terrill 3D printed functionally graded metamaterials with continuously varying stiffness for foot orthosis manufacture.	Prue Molyneux International multispecialty Delphi on how to examine ultrasound imaging features of first metatarsophalangeal joint osteoarthritis			
1:00 PM - 2:00 PM	LUNCH				
	KEYNOTE: Martin Fox TITLE: Peripheral arterial disease made easy for all podiatrists – early detection, effective triage and enabling life-long management				
	James Woodburn Risk factor stratification for diabetic foot disease: modelling person-at-risk and socioeconomic factors				Michael Sinnot & Mairin Monteath To improve is to change: implementing effective improvements to sharps safety programs
	Michelle Kaminiski The financial burden of diabetes-related foot disease in Australia	Ian Griffiths Should we consider colour when prescribing foot orthoses?	Joseph Frenkel Top 10 Podiatric Dermatology Tips, Tricks and Tools		
	Marianne Wassef The lived experience of individuals with nail involvement in psoriatic arthritis				
	Peter Lazzarni Highlights of the new international diabetes-related foot disease guidelines				
3:30 PM - 4:00 PM	AFTERNOON TEA				
	Innovations In Footwear: Lifestyle Footlogics Munro Propet Ziera	Martin Fox Peripheral arterial disease made easy for all podiatrists – early detection, effective triage and enabling life-long management	Dr Brooke Patterson How you can implement injury prevention programs in community sport	Dean Samaras Endorsement Master class	
			Joseph Frenkel Top 10 Podiatric Dermatology Tips, Tricks and Tools		
5:00 PM	CLOSE				
5:00 PM	TRADE HALL DRINKS				

*please note that the program is subject to change due to speaker availability

Conference

DAY 2: FRIDAY 23RD JUNE

	Exercise & Musculoskeletal	Footwear	Children & Adolescent Podiatry	Podiatric Medicine & Diagnosis	Business	Workforce & Education
START TIME	PLENARY GREAT HALL 4	M3	M4	M1 & 2	EXHIBITION STAGE	
9:00AM	SESSION CHAIR: Tom Walsh					
	KEYNOTE: Prof Vivienne Chuter TITLE: Cultural capability in training and practice					
	KEYNOTE: Sarah Stewart TITLE: The patient experience of gout.					
	KEYNOTE: Max Paquette TITLE: Optimizing performance and managing injury risks in runners: A wholistic approach from a sport science and coaching perspective.					
11:00 AM - 11:30 AM	MORNING TEA					
	Antoni Caserta Use of extracorporeal shock wave therapy for children's foot, ankle, and leg concerns: a position statement	Owen Bradfield Mandatory reporting and practitioner health and wellbeing		Prue Molyneux Reliability of an ultrasound imaging acquisition procedure for examining osteoarthritis in the first metatarsophalangeal joint	Paul Graham How plantar pressure analysis can revolutionise your diagnosis.	
	Helen Banwell Measuring the impact of podiatry interventions on gross motor skills in children.	Kate Betts & Alice Robertson Complaints, claims and investigations; what to do (and not to do)		Sheree Hurn Intrinsic foot muscle morphology and hallux flexion strength in hallux valgus: a case control study		
	Malia Ho Practitioner's preference in using electrotherapy to treat lower limb conditions in children.	Saraid Martin Continuing Professional Development for prescribing podiatrists. Do they think it's accessible, relevant, and meaningful?		Lighting Session 1 3-minute presentations Benjamin Peterson Karl Landorf Jayishni Maharaj Ryan Causby Ian Rong Yi Ngui Claire Game Juliana Mazzeo Emilee Ong	Dr David Miller A Surgical perspective on an Unstable Ankle	
	Cylie Williams International differences and inaccuracies in the public advertising about calcaneal apophysitis	Caitlin Swalwell How much do multimorbidity and polypharmacy contribute to pain in people with orthopaedic foot/ankle complaints?		Lighting Session 2 3-minute presentations Ryan Causby Marianne Wassef James Ferrie Shannon Munteanu Julie Nguyen Karl Landorf Aaron Jackson Hamish Harvey Aaron Teo		
	Rolf Scharfbillig Sever's Disease and Sagittal Plane Facilitation Theory - a suggested treatment protocol	Saraid Martin "If you can't feel Country beneath your feet, something's wrong": Foot Stomp in Southern Adelaide				
1:00 PM - 2:00 PM	LUNCH					
	PLENARY MRFF & YEAR IN REVIEW Cylie Williams Kade Paterson Force-reducing minimalist footwear for adolescents with chronic knee pain: a randomised clinical trial. Dan Miles Advocacy and the Health Policy landscape Caroline Robertson Dean Samaras Angela Evans				Nissanka Goonetilleke ASICS Footwear Design and Development – An evolution in midsole geometry / technology	
					Cameron Collins The effectiveness of total nail avulsions in combination with LLLT in the treatment of onychomycosis	
3:30 PM - 4:00 PM	AFTERNOON TEA					
	Innovations In Footwear: Sporting Altra ASICS Mizuno New Balance	Sarah Stewart Effective management of gout	Dr Antoni Caserta ITW: An exploration of the lower limb characteristics, management options and treatment outcome measures.	James Charles		
			Jason Mclellan Lower limb asymmetry in children and adolescents	Prof Vivienne Chuter Developing culturally safe services: A local approach		
5:30 PM	CLOSE					
7:00 PM	BARED FOOTWEAR CONFERENCE PARTY					

*please note that the program is subject to change due to speaker availability

DAY 3: SATURDAY 24TH JUNE

	Exercise & Musculoskeletal	Footwear	Children & Adolescent Podiatry	Podiatric Medicine & Diagnosis	Business	Workforce & Education
START TIME	PLENARY GREAT HALL 4	M3	M4	M1 & 2	EXHIBITION STAGE	
10:00 AM	Jane Fiske, Amanda Seguna, Shamus Breen, Joel Friedlaender Master Class Managing risk in podiatry: Complaints, insurance cover, and digital security.	Master Class Exercise & Musculoskeletal: Optimizing performance and managing injury risks in runners: A holistic approach from a sport science and coaching perspective.	A/Prof Cylie William Communicating uncertainty in consultations about kids' chronic pain. A solutions generating workshop.	Mr Geoffrey Dowling An Introduction to ultrasounding the foot and ankle.		
11:30 AM	LUNCH					
12:30 PM	Jonathon Heath Master Class Track, Measure, Succeed: Essential Metrics for Podiatrists to Build A Healthy Practice Without The Guesswork	Master Class Exercise & Musculoskeletal: Ian Griffiths & Michael Nitschke	Dr Helen Banwell Practical skills and application of assessing balance, endurance and other gross motor skills in children	Prof Neil Piller Compression of the feet and legs: How can you be sure its right and that there is a good pressure gradient?		
2:00 PM	CLOSE					

*please note that the program is subject to change due to speaker availability
