

Let's make a zine

What is a zine?

A zine (short for magazine) is a small, handmade booklet. It can be made by folding one sheet of paper or stapling a few pages together.

Zines are about creativity and self-expression. They give you a space to share ideas, stories, and thoughts in your own style. There's no right or best way to make one, it's about making something that matters to you.

A Zine can include things like:

- drawings
- writing
- stories
- poems
- photos
- collages
- comics
- lists
- different fonts or lettering
