**FINAL PROGRAM**

# Welcome from Rural Health West

Welcome to the 2021 conference weekend!

We are extremely pleased to welcome you here on what is shaping up to be our biggest conference to date. This is the fourth year delivering the WA Rural Health Conference in partnership with WA Country Health Service through the 'Better Medical Care Initiative' and I would like to acknowledge the ongoing support from WACHS in ensuring we can continue to deliver this extremely important event.

The 2021 conference theme was planned on the back of the bushfires which ravaged Australia's east coast throughout January 2020. What was considered a timely and appropriate theme back then became even more so as the coronavirus pandemic spread throughout the world in the following months.

The effects of these events have been felt profoundly by all; none more so than those working at the frontline of health. As always, the resilience, resourcefulness and tenacity of health professionals has been evident in the many ways you have adapted and responded to the challenges.

Exceptional times call for exceptional actions, and *Lessons Learnt from Past Disasters* will be an opportunity to shine a light on how our keynote speakers have embraced and overcome significant challenges and disaster events.

For many of you, the annual conference is not just about education and upskilling; it is also an opportunity to catch up with former colleagues and peers, debrief on the events of the past year and renew the camaraderie shared by health professionals across country WA.

I hope you will avail yourself of such opportunities hosted throughout the formal conference program, the attached social events and also take advantage of the nearby activities offered by our stunning new location at the Perth Convention and Exhibition Centre.

Thank you for attending. I wish each of you a successful and fruitful conference weekend.

## **Tim Shackleton**

Chief Executive Officer  
Rural Health West

*The conference is being held on the lands of the Nyoongar people. We respectfully acknowledge these traditional owners who will be asked to welcome delegates to their country.*

# Welcome from WA Country Health Service

On behalf of the Executive and Board of WA Country Health Service I am pleased to welcome you to the 2021 WA Rural Health Conference.

As the lead agency for health service delivery in regional Western Australia, we are proud to partner with Rural Health West to deliver this important conference through the 'Better Medical Care Initiative'.

This year's theme is *Lessons Learnt from Past Disasters* and focuses on how we can learn from the impact of natural disasters and adverse health events.

The past 12 months have tested all of us – clinically and operationally – like no other in recent memory. In addition to the pandemic, our regional communities have battled devastating floods, bushfires and drought.

Each one of you will have a personal story about how you have stepped up to ensure health services continued to be provided: innovating through technology, keeping frontline workers safe, pushing the boundaries of research, or leading teams and communities with the reassurance and fearlessness needed in deeply uncertain times.

Since the commencement of WA Country Health Service's ground-breaking COVID-19 vaccination program, we've started to talk about the 'new normal' of a COVID-19 world.

That world will continue to include four hundred thousand-plus ED presentations, thousands of elective surgeries, child health immunisations, mental health programs, treatment and care of Aboriginal people on country, and the safe arrival of more than four and a half thousand new babies.

This conference provides an opportunity for all of us to talk, share and reflect on what we've learned this past year.

Together, our stories add up to robust and potentially lifesaving research, innovative healthcare solutions, the exciting possibilities of technology and even stronger partnerships across the health sector.

Thank you for making time to attend this conference. Your contribution has the potential to change lives in regional communities.

## **Jeff Moffet**

Chief Executive

WA Country Health Service

## **Registration desk**

Please visit the registration desk if you have any questions relating to the conference program, venue locations or social events. Located on the Function Floor, the registration desk will be open during the following times:

**Saturday 27 March 2021**      6.30am-5.00pm

**Sunday 28 March 2021**      7.30am-1.00pm

## **Onsite contact**

**Indah McLeod**

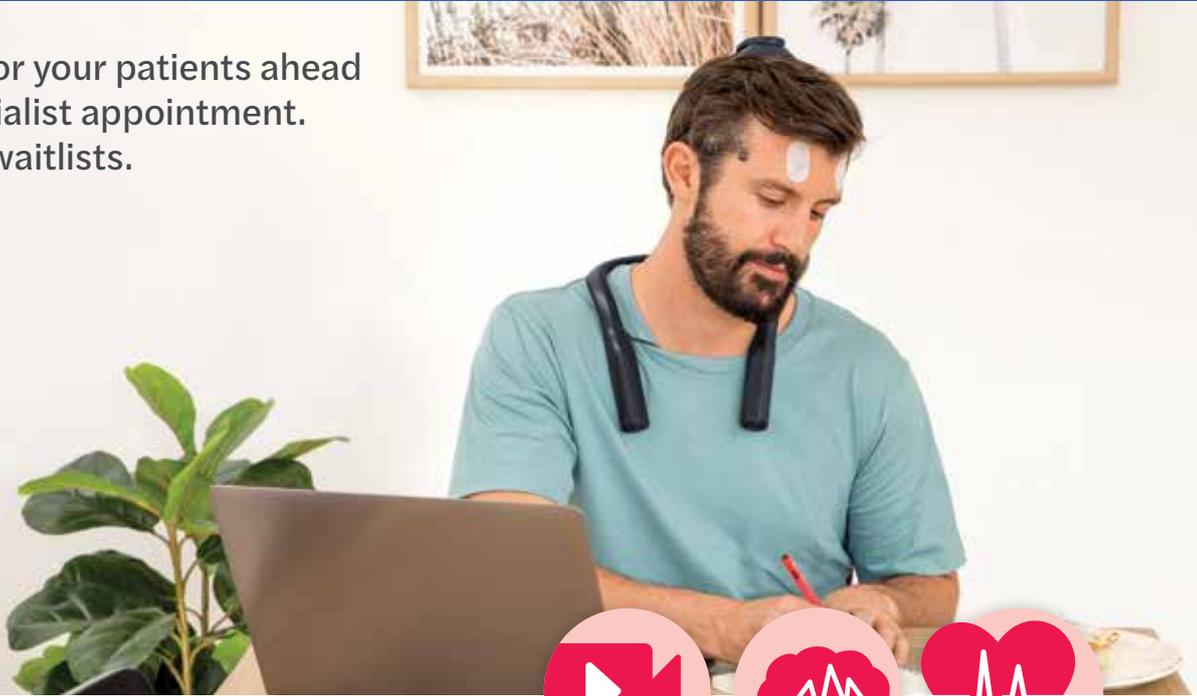

Events Coordinator

# At-home diagnostics for seizure investigation

**medicare**  
100% BULK BILLED

Get results for your patients ahead of their specialist appointment. No hospital waitlists.

#### Video

Helps to determine the specific nature of events from a clinical perspective.

#### EEG and ECG

Help to differentiate between a cardiac or neurological basis for patients' reported events.

## Home comfort replaces hospital stays

A long-term hospital stay used to be the only way to access video-EEG-ECG monitoring. Today, there's another option.

Widely accessible across Australia, the Seer Medical service offers advanced technology, an exceptional service experience, and rapid reporting.

## Who is this for?

Patients who benefit from Seer Medical's diagnostic monitoring are those who present with:

- Events with impaired awareness, unresponsive episodes or loss of consciousness
- Possible seizures occurring during sleep
- Unprovoked convulsive activity
- Previously well-controlled with AED experiencing breakthrough seizures

The Seer Medical diagnostic service is suitable for people from the age of four.

## The challenge of diagnosing events

- They happen infrequently
- Many times no one is around to observe them, or eye-witness accounts are unreliable
- The person experiencing the event may not remember what happened
- Causes can be neurological, psychological or cardiac

# Keynote speakers

## ADJUNCT PROFESSOR RUTH STEWART

MBBS (Uni Melb 1985), PhD (Flin),  
FACRRM, DRANZCOGadv

Adjunct Professor Ruth Stewart was appointed as the second National Rural Health Commissioner for Australia in July 2020. Adjunct Professor Stewart brings to the role 30 years' work as a rural generalist with advanced skills in GP obstetrics. She has been instrumental in the expansion of rural training opportunities, establishing the rural program at Deakin University and doubling rural clinical placements for the James Cook University medical school.

## COMMISSIONER DARREN KLEMM

AFSM

Fire and Emergency Services  
Commissioner

Commissioner Darren Klemm has nearly 30 years' experience in fire and emergency services. Commissioner Klemm was instrumental in the creation of the Rural Fire Division which has been decentralised and improved bushfire management. He was also involved at State and Incident Controller levels during the Waroona, O'Sullivan and Toodyay bushfire emergencies and Tropical Cyclone Olwyn and Veronica incidents.

## RABIA SIDDIQUE

Rabia Siddique is an Australian criminal and human rights lawyer, retired British Army officer, and former terrorism and war crimes prosecutor. In 2005, Ms Siddique helped negotiate the release of two British soldiers illegally detained in Iraq. Her best-selling memoir, *Equal Justice*, documents these events, the subsequent failure to publicly acknowledge the role Ms Siddique played and the sex and race discrimination case that ensued. She has undertaken human rights and community aid work in the Middle East, South America, the UK and Australia, receiving a Queen's commendation in 2006 for her work in Iraq.
