The logo

The icon within the logo speaks to the journey towards strong health. With no start or end, it captures a snapshot of the journey. The circles within the spiral represent yarning spaces - stops along the journey that improve our physical and inner strength.

The artwork

The artwork was created by Wongutha artist and designer, Kevin Wilson: "It speaks to the theme that many hands and people make up a journey towards being healthy and living a long life. While not always linear, support comes from not just one place, which I've shown through layers within my artwork. The circles within the artwork represent those groups of individuals working together to support our mob on this journey."

As a sponsor or exhibitor, you'll have a unique opportunity to connect with over 250 dedicated delegates, including general practitioners, specialists, Aboriginal health workers, and healthcare professionals from rural and remote communities. This is your chance to engage directly with those at the heart of Aboriginal health, foster meaningful collaborations, and support community-led solutions that drive lasting change.

Theme: ***Healing Ourselves, Healing Country, Healing Community***

The 2026 theme, *Healing Ourselves, Healing Country, Healing Community*, reflects the understanding that healing begins within each of us. When we care for our own wellbeing, we are stronger for our families and communities, and better able to care for Country. Grounded in Aboriginal knowledge systems and connection, the theme recognises the full circle of healing, where healthy individuals strengthen community, strong communities care for Country, and a thriving Country sustains us all.
