8.30 AM	REGISTRATION															
SESSION 1	10.00–11.30 AM															
OPENING PLENARY																
10.00–10.10 AM	Welcome to Country															
10.10–10.15 AM	Convenor's Welcome															
10.15–10.25 AM	ASA President's Welcome															
10.25–11.30 AM	Opening Plenary															
11.30 AM–12.30 PM	LUNCH															
SESSION 2	12.30–2.30 PM															
	LECTURE ROOMS					WORKSHOPS										
	210	216	217	218	209	Plenary 2	220	213	219	212	EXHIBITOR HALL					
	Gynaecology Fertility	Professional topics Balancing act: sonographer wellbeing in the clinical setting	Vascular – Advances in abdominal vascular	Musculoskeletal Head, neck, chest and abdomen ultrasound	Cardiac Pathology series: Echocardiography in advanced heart failure	SOUND STAGE GE HealthCare	Philips	Siemens Healthineers	Canon Medical	TABLE TALKS	ASA ARENA					
12.30–12.40 PM	Characterisation of fibroids and their impact on fertility <i>Dr Maya Reddy</i>	Sonographer wellbeing in Australia - perceptions of job demands and resources in clinical environments <i>Mrs Catherine Hall</i>	Abdominal vascular compression syndromes, where and how <i>Mr Ian Schroen</i> *	Introduction to facial ultrasound <i>Ms Lisa Hackett</i> *	Features of advanced heart failure on echocardiography <i>A/Prof Stuart Moir</i>	PAEDIATRIC Paediatric bowel <i>Dr Riwa Meshaka</i>	GENERAL Ultrasound guided intervention: practical workshop <i>Ms Paula King</i>	MSK Anterior abdominal hernias: a look at fascial architecture and aponeurotic passageways <i>Prof Carlo Martinoli</i>	VASCULAR AAA/EVAR <i>Mr Sam Johnson</i>	Lung ultrasound in children <i>Mr Keith VanHaltren</i>	Career advice to my younger self <i>Mrs Glenda McLean</i> <i>Mr Daniel Rae</i> <i>Ms Mikhailla Parsons</i> <i>Ms Kate Lamb</i> <i>Mrs Gail Crawford</i>					
12.40–12.50 PM										Lung ultrasound in adults <i>Ms Carolynne Cormack</i>						
12.50–1.00 PM	Mullerian duct anomalies: Diagnosis and clinical implications <i>Dr Alexandra Stanislavsky</i> ***	Building emotional resilience to foster wellbeing by utilising reflective practice in the sonography workplace <i>Mrs Alison White</i> ***	Atypical abdominal waveforms that could be a sign of cardiac disease <i>Ms Claire O'Reilly</i> *	Shear wave elastography of the short and long biceps brachii muscles in the acute stage post stroke <i>Dr Jacqueline Roots</i>	Mechanical circulatory support for the critically ill – what should we look for? <i>Dr James Anstey</i>					Sonographer educator in emergency department: a trial <i>Mr Lino Piotto</i>						
1.00–1.10 PM				Thoracic outlet syndrome <i>Mr Andrew Grant</i> ***												
1.10–1.20 PM	The role of ultrasound and saline infusion sonography in the detection of Asherman's syndrome <i>Miss Amelia Platz</i>	Introducing the GOOSE framework: Transforming early ultrasound teaching and learning with structure and strategy <i>Ms Suean Pascoe</i>	Colour Doppler verses Power Doppler – are you using the right tool for the job? <i>Mrs Carolyn Garlick</i>			BREAK										
1.20–1.30 PM	Non-ovarian torsion: When the adnexa twists <i>Ms Charlotte Harman</i>	A career framework for medical and cardiac sonographers: Positive and negative impacts <i>A/Prof Ann Quinton</i>	Using contrast enhanced ultrasound to diagnose EVAR endoleaks <i>Mr Matthew Le</i>	Anterior cutaneous nerve entrapment syndrome (ACNES) <i>Mrs Siobhan Tranter</i>												
1.30–1.40 PM	Pre-IVF pelvic ultrasound <i>Mrs Sally Barry</i>	Sonographer burnout – how to manage each day <i>Mr Rob McGregor</i>	Non-aortic abdominal aneurysms <i>Mr Heath Edwards</i> ***	Ultrasound-based diagnosis of musculoskeletal tendon pathology using artificial intelligence and deep ensemble learning <i>Mrs Lisa McGuire</i>	Therapies in heart failure <i>Dr Caitlin Cheshire</i> *	OBSTETRIC First trimester fetal heart and brain <i>A/Prof Daniel Rolnik</i> <i>Ms Joyce Chen</i>	GYNAECOLOGY Fundamentals of pelvic ultrasound <i>Ms Margaret Condon</i>	PAEDATRIC Sound check – ultrasound's role in scanning paediatric vocal cords <i>Ms Gaby D'Agostino & Miss San Tran</i> *	BREAST Advanced scanning techniques for difficult and interesting breast cases <i>Mrs Louise Worley</i> ***	The generalist's guide to POCUS: What new questions are driving innovation? <i>Mrs Myra Theisz</i>	The acute adult abdomen <i>Miss Kirstin MacLennan</i> ***					
1.40–1.50 PM				A beginner's guide to saving a life - forensic neck ultrasound <i>Mr Michael Foster-Greenwood</i>												
1.50–2.00 PM	Ultrasound imaging of endometriosis: 10 key insights in 10 minutes <i>Mrs Casey Smedley</i>	Defining professionalism for the sonography context: A qualitative case study <i>Mrs Celia Tinetti</i>	Renal transplant intraoperative and post surgical surveillance <i>Dr Animesh Singla</i>													
2.00–2.10 PM	HyFoSy <i>Mrs Prudence Ishak</i>	Strategies for clinical supervisors when dealing with difficult situations <i>Mr Peter Nguyen</i>		Crunch time diagnoses: pathology of the abdominal and chest wall <i>Mr Jerome Boyle</i> ***	Live scanning – Scanning the heart failure patient <i>Dr Caitlin Cheshire</i> <i>Mr Aaron Williams</i>											
2.10–2.20 PM		Ultrasound data governance in the era of AI <i>Mrs Caterina Watson</i>	Aortitis – an interesting case <i>Ms Lauren Dwight</i>													
2.20–2.30 PM	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session											
2.30–3.00 PM	AFTERNOON TEA															
SESSION 3	3.00–5.00 PM															
	Obstetric First trimester	Professional topics Team talk: Enhancing communication and collaboration in the workplace	General Chronic liver disease	Paediatric Patient journeys	Cardiac Improving everyday practice	SOUND STAGE GE HealthCare	Philips	Siemens Healthineers	Canon Medical	TABLE TALKS	ASA ARENA					
3.00–3.10 PM	First trimester ultrasound in multiple pregnancy <i>Prof Asma Khalil</i>	Enhancing team performance <i>Ms Evangeline Aston</i>	Fat quantification <i>Ms Marilyn Zelesco</i>	Harper's story: A rare adrenal pathology <i>Ms Margaret Condon</i> ***	Image optimisation <i>Ms Kimberley Prince</i> *	VASCULAR The challenges of mesenteric ischaemia from atherosclerosis to median arcuate syndrome <i>Mr Ian Schroen</i> ***	Sponsored session Philips When to do ElastQ vs LFQ <i>Prof Giovanna Ferraioli</i>	GYNAECOLOGY How to extend the pelvic exam when searching for endometriosis <i>Mrs Wei-Lien Yee</i>	MSK Shear wave elastography in MSK to date <i>Ms Lisa Hackett</i> *	PROFESSIONAL TOPICS WORKSHOP Peer professional support for sonographers <i>Dr Kate Russo</i> <i>A/Prof Michelle Fenech</i>	Enhancing the patient experience <i>Dr Samantha Thomas</i> <i>Mrs Ashleigh Buchholz</i> <i>Mrs Linda Young</i> <i>Mr Daniel Rae</i>					
3.10–3.20 PM																
3.20–3.30 PM	Location, location, location – navigating non-tubal ectopic pregnancies <i>Mrs Erika Cavanagh</i> ***	Asking the right questions during training <i>Mrs Myra Theisz</i> ***	HCC screening <i>Dr Bruno Di Muzio</i> *	Darcy's story: Pyloric stenosis <i>Mrs Amelia Jones</i>	Speed vs accuracy: Mastering performance <i>Mr Nikolas Jin Wang</i> *											
3.30–3.40 PM																
3.40–3.50 PM	Genomics in fetal medicine: Key concepts for sonographers <i>Ms Debbie Wye</i>	Effective team work between student and supervisor within the workplace: A neuroscience perspective <i>Ms Jane Wardle</i>	Liver elastography <i>Mrs Jane Keating</i> ***	Spina bifida case studies <i>Mr Gregory O'Connor</i>	The cardiac sonographer – a deep dive. What makes us tick? <i>Mr Chris Thomas</i>	BREAK										
3.50–4.00 PM	Significance of empathy in obstetric ultrasound <i>Mr Michael Borg</i>			Is a series of five consecutive days of ultrasound examinations necessary for optimal monitoring and evaluation of all paediatric patients following a liver transplant? <i>Miss Claire Evans</i>												
4.00–4.10 PM	Educational benefit of using 3D printed fetal models in ultrasound assessment of the placental cord insertion site <i>Ms Samantha Ward</i>	Navigating difficult conversations within the workplace <i>Ms Suean Pascoe</i>	Pancreatic lesions <i>Dr Bruno Di Muzio</i> *	Interacting and engaging with the neurodivergent patient <i>Ms Nicole Poneder</i> *		MSK Understanding the nerves of the forearm and wrist: key pathologies and ultrasound insights <i>Prof Carlo Martinoli</i> ***	OBSTETRIC Normal morphology ultrasound for beginners <i>Mrs Rowena Findlay</i>	VASCULAR Arteriovenous fistulas (AVFs) <i>Mrs Donna Oomens</i> *	GYNAECOLOGY Approaching the deep infiltrating endometriosis scan systematically <i>Mrs Rebecca Long</i>	Culturally safe communication <i>Mrs Liz Jarvis</i> <i>Miss Tiana Alley</i> ***	Enhancing sonographer-patient interactions in LGBTQIA healthcare <i>Dr Kate Russo</i>					
4.10–4.20 PM	Obstetric cobotics – an ultrasound odyssey <i>Mrs Caterina Watson</i>				Live scanning – How to perform an accurate assessment in a timely manner <i>Mr Nikolas Jin Wang</i>											
4.20–4.30 PM	Pre-eclampsia screening - where are we at? <i>A/Prof Daniel Rolnik</i>	The business of ultrasound <i>Mr Rob McGregor</i>	Sickle cell disease: What are we looking for with ultrasound? <i>Mrs Jane Keating</i>	Maya's story of developmental dysplasia of the hip <i>Ms Margaret Condon</i>												
4.30–4.40 PM		Enhancing ultrasound education: The power of checklists for skill development and consistency <i>Ms Simone Spence</i>	Redefining fatty liver disease: An update for sonography practice <i>Ms Elspeth Keys</i>													
4.40–4.50 PM		Infusing Aboriginal and Torres Strait Islander culture and perspectives into a sonography curriculum <i>Dr Afroz Nazafzadeh Abriz</i>	Same-day comparison of ultrasound-derived fat fraction and magnetic resonance imaging proton density fat fraction in fatty liver disease <i>Ms Heather Allen</i>	Q&A Session												
4.50–5.00 PM	Q&A Session	Q&A Session	Q&A Session		Q&A Session											
5.00 PM	DAY ONE CLOSE															

Information is correct at the time of publication; however, it is subject to change without notice. Please visit our conference [website](#) for the latest details and to download and print a copy of the program.

8.15 – 8.45 AM	REGISTRATION											
SESSION 4	8.45–10.15 AM											
	LECTURE ROOMS						WORKSHOPS					
	210	220	216	217	218	209	220	212	213	219	211	ASA ARENA
	Gynaecology Endometriosis	Professional topics Communication in the clinical setting: Mastering difficult conversations	Breast New themes in breast ultrasound	Obstetric Fetal cardiac	Musculoskeletal Complex shoulder injuries	Cardiac Current state of technological advances in echocardiography	Philips	GE HealthCare	Siemens Healthineers	Canon Medical	Canon Medical	ASA ARENA
8.45–8.55 AM 8.55–9.05 AM	Impact of delayed diagnosis – including the patient story <i>Dr Kate Tyson</i>	Difficult conversations and breaking unexpected news in obstetric ultrasound <i>Dr Kate Russo</i>	Multimodality breast imaging for the sonographer <i>Dr Alexandra Stanislavsky</i> ★	Understanding cyanotic cardiac anomalies <i>Mr Michael Borg</i> ★	Unusual shoulder cases <i>Mr Geoff Hong</i>	Artificial intelligence in echo <i>Dr Paul Stoodley</i> ***	OBSTETRIC Knowledge beyond the basics: A guide to second trimester fetal neurosonography <i>Ms Emily Connell</i>	GENERAL Ultrasound of the bowel <i>Ms Erin Nugent</i>	VASCULAR Varicose veins – basic to advanced <i>Ms Michelle Rodeh</i> ★	MSK Nerves of the lower limb – knee to foot <i>A/Prof Michelle Fenech</i> ***	MSK Hamstring ultrasound <i>Mr Matthew Gourley</i> ***	Broad skills vs focused expertise: A sonography career debate <i>Mr Peter Coombs</i> <i>Ms Carolynne Cormack</i> <i>Mr Chris Gilmore</i> <i>Mr Luke Kipping</i> <i>Mr Ian Schroen</i>
9.05–9.15 AM	Ultrasound of endometriosis - diagnosis and pitfalls <i>Dr Lufee Wong</i> ***	Enhancing accessibility: Evaluating the integration and demand for sign language (BSL) in ultrasound <i>Mr Saraz Khalil</i>	Exploring breast implants: A beginner's approach to ultrasound imaging <i>Ms Iwona Lipski</i>	Fetal cardiac venous anomalies <i>Mrs Kate Guskich</i> ★	Complications of FDP tendon repair & A4 pulley reconstruction <i>Mr Tuong Linh Le</i>	Strain in indeterminate diastolic function <i>Dr Rebecca Perry</i> ***						
9.15–9.25 AM		Experience teaching vascular ultrasound in Tanzania <i>Mr Daniel Rae</i>	Shear wave elastography of the breast in triple negative breast cancer <i>Mrs Natalie Clements</i>		Non-union and iatrogenic injury post internal fixation of the finger <i>Mr Tuong Linh Le</i>							
9.25–9.35 AM	Subtle signs of deep infiltrating endometriosis <i>Dr Mathew Leonardi</i>	Being mindful in the moment: Keeping the focus on the patient <i>Mrs Alison White</i>	The augmented breast <i>Mr Michael Foster-Greenwood</i> ★	Quantifying fetal heart measurements <i>Dr Srinidhi Rao</i> ★	Post op RCR standardised published protocol <i>Ms Lisa Hackett</i> ★	The effect of career duration on the cardiac structure and function of Australian jockeys: An observational cross-sectional study <i>Mrs Angela Farley</i>	BREAK					
9.35–9.45 AM						Sponsored session GE HealthCare	MSK Finger ultrasound – The extensor hood and central and lateral slips <i>Dr Jacqueline Roots</i> ***	Sponsored session GE Healthcare	GYNAECOLOGY Ultrasound in A.R.T – A fertility masterpiece <i>Ms Janessa Baddeley</i>	PAEDIATRIC Appendix <i>Mr Lino Piatto</i>	VASCULAR Temporal arteries (GCA) <i>Mr Greg Curry</i>	
9.45–9.55 AM	Adenomyosis (MUSA) <i>Mrs Catherine Robinson</i> <i>Dr Natasha Luk</i> ★	Delivering the undeliverables <i>Ms Margaret Condon</i> <i>Mrs Amelia Jones</i>	New technologies, elastography, contrast, AI and more <i>Mr Michael Foster-Greenwood</i> ***	Intra- and inter-rater reliability of fetal ultrasound abdominal circumference measurement methods in the third trimester <i>Dr Kate Russo</i>	Advanced shoulder ultrasound – the glenohumeral ligament/adhesive capsulitis <i>Ms Sumi Shrestha Taylor</i> ***	Can AI, automation and multiplane imaging be used to reduce echocardiography workload with reproducible and accurate results? <i>Ms Kylie Hollitt</i>						
9.55–10.05 AM				To image or not to image. A legal view of whether archiving of fetal heart images should be standardised at the 20-week screening scan <i>Ms Helen Payne</i>								
10.05–10.15 AM	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session						
10.15–11.00 AM	MORNING TEA (INC. 10 min AD BREAK – 10.50–11.00 AM for Virtual Viewers)											
SESSION 5	11.00 AM –12.30 PM											
	Gynaecology Uterus and endometrium	Professional topics The profession in focus	Vascular CLTI: Saving feet / saving lives	Musculoskeletal Below the belt: Ultrasound of the lower limb	General Abdominal lesions	Cardiac Improving the echosystem	Philips	GE HealthCare	Siemens Healthineers	Canon Medical	Canon Medical	ASA ARENA
11.00–11.10 AM 11.10–11.20 AM	Caesarean scar niches and uterine synechiae – what sonographers need to know <i>Dr Susanne Johnson</i>	Sonographer scope of practice and code of conduct: an update <i>Ms Elissa Campbell</i>	Arterial pathophysiology – what's important <i>Mr Nathan Gallagher</i> ★	Ultrasound of the superficial and deep peroneal nerves <i>A/Prof Michelle Fenech</i> ***	CEUS liver lesions <i>Mr Matthew Le</i>	Intergenerational communication: The importance of bridging the gap into the clinical workplace <i>Mrs Alison White</i> ★	GENERAL Appendix <i>Mrs Paula King</i> ★	OBSTETRIC A Doppler journey through the fetal cardiovascular system <i>Dr Kate Russo</i> ***	Sponsored session Siemens Healthineers	OBSETRIC First trimester fetal neurosonography <i>Ms Lisa Clarke</i>	MSK Exploring extensor and flexor systems of the wrist and hand <i>Prof Carlo Martinoli</i> ***	Is the burden of sonography too great? <i>A/Prof Ann Quinton</i> <i>Mr Rob McGregor</i> <i>Ms Jane Wardle</i> <i>Mr Ian Schroen</i>
11.20–11.30 AM	From ultrasound scan to support: Enhancing outcomes in endometrial cancer <i>Ms Sonya Sellar</i>	Advanced MSK practice – my journey <i>Mr Luke Kipping</i>	Beneath the dressing: demystifying high-risk foot management from the podiatrist's perspective <i>Dr Michelle Kaminski</i>	Hip ultrasound – time to think zebras <i>Mr Jerome Boyle</i> ***	Association between ultrasound-diagnosed hepatic steatosis and extra-hepatic cardiometabolic disorders <i>Mrs Andrea Mould</i>	Different variants of echo – where are we heading? <i>Mr Anthony Wald</i>						
11.30–11.40 AM	Endometriosis and its various disguises <i>Mrs Gillian Profaca</i>				Ultrasound measurement of perirenal adipose tissue indicates cardiovascular disease, but standardisation is needed: A systematic review <i>Ms Victoria Baumann</i>							
11.40–11.50 PM	Enhanced myometrial vascularity (EMV) vs arteriovenous malformation (AVM) <i>Dr Kedar Humnabadkar</i> ★	Working within your scope of practice <i>Ms Kate Lamb</i>	Pedal artery ultrasound <i>Ms Jill Somerset</i>	Knee <i>Mr Greg Lammers</i> ***	Gallbladder carinoma: ultrasound dilemmas <i>Mrs Jane Keating</i>	Sonography training in the future <i>Dr Paul Stoodley</i>	BREAK					
11.50–12.00 PM					Splenic lesions <i>Mrs Carla Elliot</i>		BREAST Fundamentals – scan techniques, image optimisation and lesion workup <i>Ms Jenny Parkes</i> ★	MSK Scanning the advanced shoulder <i>Ms Sumi Shrestha Taylor</i> ***	OBSTETRIC Managing fetal trunk anomalies <i>Miss Sree Kenche</i>	GENERAL Performing an ultrasound of the chest <i>Ms Carolynne Cormack</i>	PAEDIATRIC Paediatric hip – DDH <i>Mr Cain Brockley</i>	
12.00–12.10 PM 12.10–12.20 PM	The pelvic ultrasound blind spot: imaging of the cervix in a non-gravid patient <i>Dr Alexandra Stanislavsky</i>	Update to sonographer regulation <i>Dr Tony Coles</i>	Ultrasound assessment of lower limb bypass grafts: Are we looking at the whole picture? <i>Mr Daniel Rae</i>	Ouch! My foot! <i>Mr Sean Yeoh</i>	Renal cystic lesions: Ultrasound of not-so-simple cysts <i>Dr Paul Simkin</i> ★	Supervising trainee sonographers: Ensuring competency and consistency <i>Mr Tony Forshaw</i>						
12.20–12.30 PM	Patent canal of Nuck in paediatric female patients <i>Mrs Debbie Slade</i>	Development of a clinical supervision framework <i>Mrs Emma Jardine</i> ***	Correlation between ankle-brachial index and pedal acceleration time in detecting lower extremity peripheral artery disease among adult patients with diabetes mellitus in a tertiary hospital <i>Dr Danemar Kristine Calise</i>	A case study of a conservatively managed ruptured Achilles tendon – sonographic changes over a series of ultrasound scans <i>Ms Pei Qi Chong</i>		Q&A Panel Discussion <i>Dr Rebecca Perry</i>						
12.30–12.40 PM	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session						
12.40–1.45 PM	LUNCH											

Information is correct at the time of publication; however, it is subject to change without notice. Please visit our conference [website](#) for the latest details and to download and print a copy of the program.

SESSION 6	1.45–3.15 PM											
	LECTURE ROOMS						WORKSHOPS					
	210	203	216	217	218	209	220	212	213	219	211	ASA ARENA
	Obstetric Miscellaneous	Professional topics Developing the future of sonography training	Vascular Beyond the routine	Breast Breast lesions	General Head and neck	Cardiac Pathology series – Ischaemic heart disease	Philips	GE HealthCare	Siemens Healthineers	Canon Medical	Philips	ASA ARENA
1.45–1.55 PM	The third trimester ultrasound, what is the point? <i>A/Prof Ann Quinton</i> ***	Coach the coach <i>Mrs Jane Wardle</i>	Clots that keep on giving: Understanding chronic DVT changes <i>Mr Nathan Le</i>	High-risk breast lesions: What can we detect on ultrasound? <i>Mrs Jing Fang</i>	Head & neck oncology: Clinical perspectives <i>Dr Daren Gibson</i>	Stress echo and IHD <i>Mr Bryan Paget</i> ***	Gynaecology Transperineal ultrasound: gynaecological and non-gynaecological applications <i>Mrs Frauke Lever</i>	Obstetric First trimester fetal heart <i>Mrs Vanessa Pincham</i>	MSK Groin hernias <i>Mr Jerome Boyle</i> <i>Miss Taylor Mallet</i> ★	General Ultrasound of the penis <i>Mr Steven Abbott</i> ★	Paediatric Paediatric MSK <i>Ms Stephanie Maconachie</i> ★	Mitigating risks through a legal lens <i>Mr Christopher Sykes</i> <i>Ms Kerri Thomas</i> <i>Ms Marie Panuccio</i> <i>Ms Helen Payne</i>
1.55–2.05 PM		Building feedback literacy in sonographer training – teamwork between student and supervisor <i>Dr Brooke Osborne</i>	Fibromuscular dysplasia – modern approaches to ultrasound identification and documentation <i>Mr Nathan Gallagher</i>									
2.05–2.15 PM	A sonographer’s guide to vasa previa <i>Mrs Alexandra Gardiner</i>		Pelvic congestion syndrome <i>Dr Matthew Lukies</i>	Sonography of cysts that matter <i>Ms Dalena Nguyen</i> ★	Contrast enhanced ultrasound for orbital ultrasound <i>Mr Matthew Le</i>							
2.15–2.25 PM	Fetal echogenic lung lesions - Congenital Pulmonary Airway Malformation (CPAM) <i>Dr Kedar Humnabadkar</i> ★	Challenges for supporting Australian rural and regional sonographic training <i>Ms Kalnisha Appavoo-Juhasz</i>			Sonographer performed thyroid FNA: A project directed training program for credentialing sonographers as FNA practitioners - The Royal Melbourne Radiology experience <i>Ms Paula King</i>	An echocardiographic evaluation in a patient with acute chest pain <i>A/Prof Stuart Moir</i>						
2.25–2.35 PM		The GOOSE framework in action: Deliberate practice strategies for ultrasound educators <i>Ms Suean Pascoe</i>	The effect of using write-zoom for volume flow measurements in haemodialysis fistulas <i>Ms Nikki Kong</i>	Ultrasound assessment of axillary lymph nodes in breast cancer diagnosis <i>Mr Ian Schroen</i>	Salivary disorders: the role of ultrasound <i>Dr Daren Gibson</i>		BREAK					
2.35–2.45 PM	Placenta accreta spectrum disorders <i>Dr Lufee Wong</i>	Developing the right clinical environment for training sonographers <i>Dr Sandra O'Hara</i>	Abdomen ultrasound of coeliac compression syndrome and superior mesenteric artery syndrome <i>Mr Ming Tan</i>			Cardiogenic shock: echo in the critically ill <i>Dr Trent Hartshorne</i> ***	MSK Bursal neuroma complex – Morton's neuroma – forefoot <i>Mr Sean Yeoh</i>	Gynaecology Enhancing pelvic imaging with new technologies <i>Mrs Gillian Profaca</i>	Paediatric Neonatal cranial ultrasound <i>Mr Keith VanHaltren</i> ★	Sponsored session Canon Medical Ankle & foot - musculoskeletal and nerve scanning: Insights and techniques from a seasoned professional <i>Mr Stephen Bird</i>	Vascular Pedal artery ultrasound <i>Mr Greg Curry</i>	
2.45–2.55 PM			Health moderators in vascular health <i>Dr Claire Campbell</i>	BI-RADS edition 6 update <i>Ms Jenny Parkes</i> ***	The metabolic neck <i>Dr Daren Gibson</i>							
2.55–3.05 PM	Ultrasound diagnosis of fetal micrognathia and associated syndromic anomalies: A collaborative approach with MRI <i>Ms Joanna Pillai</i>	Clinical educators in imaging – a year in review <i>Mrs Ilona Lavender</i>				Live scanning – Important windows in stress echocardiography <i>A/Prof Stuart Moir</i>						
3.05–3.15 PM	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session						
3.15–3.45 PM	AFTERNOON TEA (INC. 10 min AD BREAK – 3.50–4.00 PM for Virtual Viewers)											
SESSION 7	3.45–5.15 PM											
	Obstetric Fetal neurosonography	Professional topics Important responsibilities in sonography	Musculoskeletal Rheumatoid arthritis in focus	Gynaecology Ovaries	Paediatric New frontiers in paediatric imaging	Cardiac Paediatrics – Simplifying approaches to congenital scanning	Philips	GE HealthCare	Siemens Healthineers	Canon Medical	Philips	ASA ARENA
3.45–3.55 PM	Problem-solving for the fetal CNS by combining MRI and neurosonography <i>Dr Stacey Goergen</i>	Infection prevention in ultrasound practice – Where are we at in 2025? <i>A/Prof Sue Westerway</i>	How rheumatologists use ultrasound in practice <i>Dr Tina Racunica</i> ***	PCOS <i>Dr Anju Joham</i>	Thyroid nodules in the paediatric population <i>Miss Vivian Truong</i> ★	Echo assessment of common CHDs <i>Mr David Scicluna</i> ★	MSK High-resolution ultrasound for precision imaging of the fingers <i>Prof Carlo Martinoli</i>	Gynaecology Pelvic congestion syndrome (ovarian vein reflux) <i>Dr Matthew Lukies</i>	Obstetric Third trimester obstetric ultrasound – midwife perspective <i>Miss Jemma Rawlins</i> <i>Ms Claire Poci</i>	Obstetric Assessment of placenta, cord, and cervix <i>Dr Lufee Wong</i>	General Targeted liver in chronic liver disease <i>Miss Belinda Frith</i> <i>Ms Amy Makris</i>	Enhancing clinical training and education for future sonographers <i>Ms Julie Cahill</i> <i>Dr Rebecca Perry</i> <i>Ms Suean Pascoe</i> <i>A/Prof Chris Edwards</i> <i>Mr Peter Nguyen</i>
3.55–4.05 PM					Little voices, big waves: a peek into paediatric vocal cord imaging <i>Ms Gaby D'Agostino</i> ★							
4.05–4.15 PM	Callosal dysgenesis: Beyond ACC <i>Mr Peter Coombs</i> ***	Focus on consent – gaining consent in the clinical setting <i>Mr Christopher Sykes</i>	Spot the difference: how to detect subclinical arthritis in a younger adult cohort <i>Ms Martine Chadwick</i>	Assessment of adnexal masses: An update and refresher <i>Dr Alexandra Stanislavsky</i> ★	Gynae AI <i>Ms Alison Deslandes</i> ★	The role of ultrasound in juvenile arthritis <i>Dr William Renton</i>	Pre surgical echo assessment in paediatrics with TGA/TOF <i>Miss Katherine Ortiz</i> ★	BREAK				
4.15–4.25 PM												
4.25–4.35 PM	Fetal neurosonography MDT simulation <i>Prof Asma Khalil</i>	Consent – how this works in practice <i>Ms Kerri Thomas</i> <i>Ms Marie Panuccio</i>					Vascular Carotid imaging <i>Mr Heath Edwards</i> ***	BREAST The axilla <i>Ms Amanda Chan</i> ★	MSK Elbow <i>Mr Stephen Bird</i>	General Liver elastography <i>Ms Marilyn Zelesco</i>	Obstetric Approaching the MCDA twins <i>Mrs Monica Chai</i> ★	
4.35–4.45 PM												
4.45–4.55 PM	Malformation of cortical development <i>Dr Maya Reddy</i>	Working with students – What are the supervisors' responsibilities? <i>Ms Deanne Chester</i>	Future pathways and treatment in rheumatoid arthritis <i>Dr Tina Racunica</i>	Sonography of acute pelvic pain <i>Mrs Wei-Lien Yee</i>	Novel techniques in paediatric ultrasound <i>Dr Riwa Meshaka</i>	Live scanning – Scanning the paediatric patient <i>Mr David Scicluna</i>						
4.55–5.05 PM												
5.05–5.15 PM	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session						
7.00 PM–11.45 PM	ASA GALA DINNER AWARDS EVENING

DAY THREE SUNDAY 15 JUNE 2025											
8.30–9.00 AM	REGISTRATION (INC. 10 min AD BREAK 8.50–9.00 AM)										
SESSION 8	9.00–10.30 AM										
	LECTURE ROOMS						MASTERCLASSES				
	210	203	216	217	218	209	220	212	213	219	211
	Obstetric New obstetrics themes	Professional topics Future proofing sonography	Vascular Chronic venous disease: What's the big deal?	Paediatric Heads and tummies	General Men's health	Cardiac Right approach and tool for that uncommon scan	Philips	GE HealthCare	Siemens Healthineers	Canon Medical	Capitol
9.00–9.10 AM	Should we implement multiple pregnancy growth charts? <i>Prof Asma Khalil</i>	The evolution of ultrasound in Australia through the eye of a Sonosaurus <i>A/Prof Sue Westerway</i>	Venous incompetence – the essentials <i>Mrs Tamara Kipping</i>	Nephro-urology <i>Dr Riwa Meshaka</i>	Clinical management of testicular pain <i>Dr Amaali Lokuge</i>	Post op echo assessment of TOF and TGA <i>Mr David Scicluna</i>	PAEDIATRIC MASTERCLASS Spine – tips and tricks <i>Ms Sara Kernick</i>	MSK MASTERCLASS Neuralgic amyotrophy (Parsonage Turner syndrome and brachial plexus) <i>Mr Andrew Grant</i> <i>A/Prof Scott Ferris</i>	BREAST MASTERCLASS The augmented breast <i>Mr Michael Foster-Greenwood</i>	GYNAECOLOGY MASTERCLASS Pelvic floor <i>A/Prof Clara Shek Ka Lai</i>	PROFESSIONAL TOPICS MASTERCLASS Finding key strengths in yourself and others to promote effective communication <i>Mrs Allison White</i>
9.10–9.20 AM											
9.20–9.30 AM	NIPT: Wonders and pitfalls <i>A/Prof Daniel Rolnik</i>	POCUS and its place in sonography <i>Ms Carolynne Cormack</i>	Planning for treatment ultrasound requirements <i>Mr Christopher Sykes</i>	Exploring cranial vault pathology in paediatric ultrasound <i>Mrs Gabrielle Sarroff</i>	The painful scrotum <i>Mr Stephen Bird</i>	Gestational diabetes in pregnancy – how can strain help? <i>Dr Rebecca Perry</i>					
9.30–9.40 AM											
9.40–9.50 AM	The challenges of monochorionicity <i>Dr Mark Teoh</i>	The future of sonography <i>A/Prof Chris Edwards</i>	Perforators – current management <i>Dr Peter Milne</i>	Renal anomalies in neonates and infants <i>Mrs Niamh O'Sullivan</i>	The painful penis <i>Miss Donna Napier</i>	Scanning in the ICU and the critically ill <i>Mrs Louise Smith</i>					
9.50–10.00 AM											
10.00–10.10 AM	Fetal surgery in Australia: An update <i>Dr Glenn Gardener</i>	AI in sonography and the clinical setting <i>Prof Tom Gedeon</i>	Postoperative ultrasound following endovenous ablation <i>Ms Amy Clough</i>	Gut malrotation <i>Dr Riwa Meshaka</i>	Testicular compartment syndrome <i>Ms Marilyn Zelesco</i>	Live scanning – Performing a focused cardiac ultrasound in an emergency <i>Mrs Louise Smith</i> <i>Mr Chee Lim Liew</i>					
10.10–10.20 AM											
10.20–10.30 AM	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session	Q&A Session					
10.30–11.25 AM	BRUNCH										
SESSION 9	11.30–1.00 PM										
	General Abdomen	Professional topics Sonographer pathways, engage and excel in our profession	Breast Underrepresented groups in the breast narrative	Musculoskeletal Upper limb	Obstetric Community obstetrics	Cardiac Right adjuncts for the right patient	Philips	GE HealthCare	Siemens Healthineers	Canon Medical	Capitol
