

Western Diagnostic Pathology

# Your local partner in *Helicobacter pylori* testing

Culture, Histopathology and PCR available on all  
Gastric Biopsies sent to Western Diagnostic Pathology.

## Advantages of the PCR Test

- PCR results (including clarithromycin resistance) will be available within 1-2 working days.
- Superior sensitivity.

**In development:** : Expansion of the PCR genotyping capabilities to detect Levofloxacin resistance conferred in the GyrA gene target. Due for testing in last quarter of 2023.

## How to order

Simply request '**H.pylori detection**' on your pathology request form. All tests are fully Medicare rebatable (subject to Medicare guidelines & criteria).

## Further information

For further information, please call the Specialists Liaison on **0434 859 251**.

- ✓ Excellent concordance with culture
- ✓ Rapid turnaround of results

Performance characteristics of PCR, Histology and Culture for detection

|             | PCR<br>(N=455) | Histology<br>(N=91) | Culture<br>(N=479) |
|-------------|----------------|---------------------|--------------------|
| Sensitivity | 99.60%         | 94.82%              | 80.29%             |
| Specificity | 96.98%         |                     |                    |

**Overall concordance of PCR with culture for Clarithromycin resistance was 216 / 221 (97.7%)**

One place to  
access all your  
results in real-time.  
**Medway.**

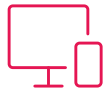

# Medway is a diagnostic results platform that works with you to make more informed decisions and promote better health outcomes.

Medway delivers results nationwide with the help of some of the most trusted healthcare brands in Australia, including: QML Pathology, Abbott Pathology, Laverty Pathology, Dorevitch Pathology, TML Pathology and Western Diagnostic Pathology.
