

**Flinders
University**

**Rural & Remote
Health NT**

Northern Territory Regional Training Hub

Strengthening specialist and generalist medical education, supervision and training capacity in the Northern Territory.

- Collaborating with key stakeholders to identify and promote flexible career pathways, increasing training opportunities within the NT.
- Providing career planning support and mentoring for medical students, doctors in training and beyond.
- Supporting clinicians in supervision and professional development.
- Promoting the unique NT environment and contextualizing medical knowledge to community context.
