

Endoscopy Without Walls

Ambu

The right scope for every patient, procedure and clinical environment, when you need it.

A complete endoscopy solution designed for rural and remote healthcare. Ambu has been pioneering medical innovation since 1937, collaborating with healthcare professionals to save lives and enhance patient care. Our single-use endoscopy, anaesthesia, and patient monitoring solutions are trusted globally. As the market leader in single-use endoscopy, Ambu introduced the world's first single-use bronchoscope, the Ambu® aScope™, in 2009. We have since expanded from pulmonology to ENT, urology, and GI endoscopy.
