

What to expect as a medical practitioner at St John of God Health Care

Our state of the art facilities, technology and history of quality health care has attracted many of Australia's leading specialists.

We work closely with a range of health professionals, including general practitioners (GPs), allied health practitioners, mental health and medical professionals and nurses to provide whole person care for our patients.

For information on working with us, call one of our hospitals or visit:

- Subiaco

Quality care

Our number one priority is to provide high quality care for our patients, and excellence in care is an integral part of our Mission.

As such we actively benchmark and share our quality, clinical risk and performance metrics as well as our patient satisfaction results, so you can rest assured that your patients are receiving the best possible care in a safe environment.

Supporting your practice growth

Joining St John of God Health Care includes the opportunity to work with our innovative and supportive business development teams to ensure that GPs and the community are aware of your expertise and interests, and the comprehensive care provided in our hospitals.
