nexus 
Your Local World Class Hospital

At Nexus, we believe every community deserves access to a world-class hospital.

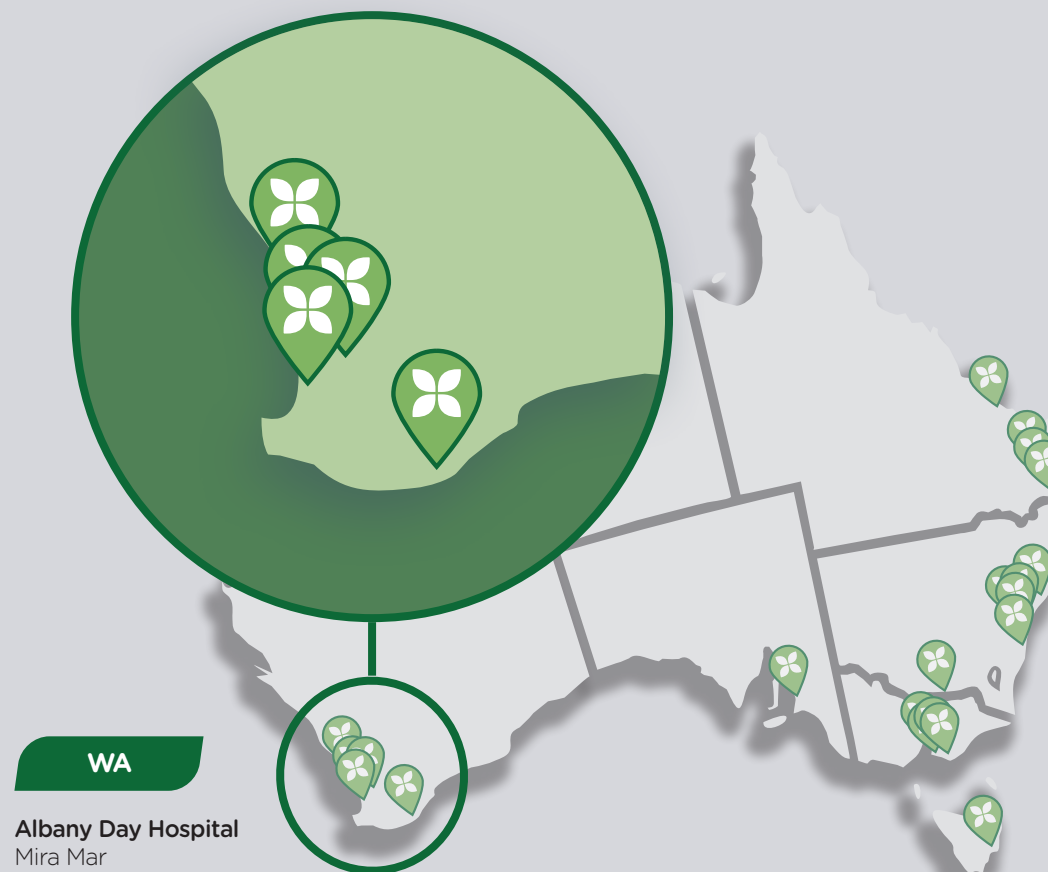

Nexus Hospitals is one of Australia's leading specialist and short-stay hospital groups, operating 21 purpose-built facilities across metropolitan and regional communities nationwide. Known for exceptional patient experiences and consistently high patient satisfaction, we are committed to delivering outstanding clinical outcomes.

In Western Australia, general surgery is one of our largest and most established specialties. Working alongside some of the country's most respected surgeons, we have built a highly specialised service supported by experienced clinical teams, advanced technology and fully integrated operating theatres.

Our surgeons benefit from responsive local management, efficient theatre access and modern surgical environments designed to support safe, efficient and high-quality care. With agreements in place with all major health funds, competitive uninsured rates and short wait times, Nexus Hospitals provides a platform for surgeons to build and grow their practice while delivering exceptional care to local communities.
