

Time	Grand Ballroom 1	Grand Ballroom 2	Canary	Oriole	Waterfront Ballroom
0800-0830					Venous Abstracts 1
0830-1000	Challenges in the treatment of Aortoiliac disease (I) Moderator: Barend Mees, <i>Netherlands</i> Wei-Guo Fu, <i>China</i> Panelist: Veera Suwanruangsri, <i>Thailand</i> Sven Braunlich, <i>Germany</i> Steven Kum, <i>Singapore</i> Junjie Ng, <i>Singapore</i> Andrew Lennox, <i>Australia</i> Darius Aw, <i>Singapore</i>	ASVS meets DFCON - introducing DFCON Moderator: Sadhana Chandrasekar, <i>Singapore</i> David Armstrong, <i>United States</i>	Access for aortic intervention and aortic conundrums Moderator: Peter Robless, <i>Singapore</i> Uei Pua, <i>Singapore</i> Stephen Cheng, <i>Hong Kong SAR</i>	Competition 1 - Best salvage for the worst complication Judges: Shannon Thomas, <i>Australia</i> Robert Shahverdyan, <i>Germany</i> Po-Jen Ko, <i>Taiwan</i> Hiroaki Haruguchi, <i>Japan</i> Boonying Siribumrungwong, <i>Thailand</i> Danny Pratama, <i>Indonesia</i>	AsVF - Venous Leg Ulcer Plenary Moderator: Naresh Govindarajan, <i>Malaysia</i> Jinsong Wang, <i>China</i> Ahmed Gaweesh, <i>Egypt</i>
	Endovascular versus open surgery in severe occlusive AIOD - Evidence Update Matthew Menard, <i>United States</i>	Introducing DFCon Sadhana Chandrasekar, <i>Singapore</i>	Percutaneous axillary and brachial access - How I do it Kiang-Hiong Tay, <i>Singapore</i>		Static, elastic or in between - Principles of compression in venous leg ulcers Mandika Wijeyaratne, <i>Sri Lanka</i>
	Open Surgical Strategies for AIOD: Essential Techniques and Pearls Robert Fitridge, <i>Australia</i>	Address David Armstrong, <i>United States</i>	Percutaneous carotid access - How I do it Lawrence Quek, <i>Singapore</i>		Investigating recurrent C6 disease - is there a standard approach? Jinsong Wang, <i>China</i>
	Remote endarterectomy for iliac disease: How to do it Frans Moll, <i>Netherlands</i>	South East Asia Perspective from DFoot International Harikrishna Nair, <i>Malaysia</i>	Large hole closure - Trouble shooting and bailout measures Uei Pua, <i>Singapore</i>		Sub-ulcer sclerotherapy in VLU Enming Yong, <i>Singapore</i>
	Conquering Aortoiliac CTOs: Advanced Crossing Algorithms and Techniques Sorracha Rookkapan, <i>Thailand</i>	Singapore in context Kavita Venkataraman, <i>Singapore</i>	Upper access in BEVAR: results in 350 patients. Is stroke a problem and do we need to abandon this approach? Eric Verhoeven, <i>Germany</i>		Managing the mixed arterio-venous leg ulcer Naresh Govindarajan, <i>Malaysia</i>
	Radiation Free CERAB Procedures Are Possible Using FORS Technology With Its 3-D Hub: How Is It Done and Technical Tips Barend Mees, <i>Netherlands</i>	Economic burden of DFU Peter Lazzarini, <i>Australia</i>	Mycotic aneurysms - current updates and experience from Malaysia Benjamin Leong, <i>Malaysia</i>		GSV ablation in a background of post thrombotic syndrome and its impact on ulcer healing and recurrence Ahmed Gaweesh, <i>Egypt</i>
	Open and Percutaneous Atherothrombectomy for Iliac CTOs - When, Why and With What Tips and Tricks? Katherine McGinagle, <i>United States</i>	Role of the IWGDF Ketan Dhatariya, <i>United Kingdom</i>	Strategies to optimise Radiation protection in 2025 Bijan Modarai, <i>United Kingdom</i>		Molecular diagnostics in VLU - is the future here yet? Kanin Pruekprasert, <i>Thailand</i>
Coffee Break (1000-1030)					
1030-1130	Challenges in the treatment of Aortoiliac disease (II) Moderator: Andrew Lennox, <i>Australia</i> Ashish Patel, <i>United States</i> Panelist: Nattawut Puangpunngam, <i>Thailand</i> John Chang, <i>Taiwan</i> Julian Wong, <i>Singapore</i> Tarun Grover, <i>India</i> Min-Qi Chen, <i>Singapore</i> Adrian Chia, <i>Singapore</i>	Multidisciplinary care; Toe & Flo Moderator: Joseph Lo, <i>Singapore</i> David Armstrong, <i>United States</i>	Endoleaks and Aortic controversies Moderator: Qiantai Hong, <i>Singapore</i> Kiang Hiong Tay, <i>Singapore</i> Lawrence Quek, <i>Singapore</i>	Minimally invasive AVF creation (I) Moderator: Christopher Delaney, <i>Australia</i> Chieh-Suai Tan, <i>Singapore</i> Panelist: Rahul Lohan, <i>Singapore</i> Darryl Lim, <i>Singapore</i>	Optimizing outcomes in superficial venous ablations Moderator: Ravul Jindal, <i>India</i> Ahmed Gaweesh, <i>Egypt</i> Shin-Chuen Cheng, <i>Singapore</i>
	Covered vs Bare stents in AIOD - What does the latest evidence say? Patrice Mwiapatayi, <i>Australia</i>	The Toe and Flow model of limb preservation: What is it and how does it work? Michael Conte, <i>United States</i>	Exploring factors in late re-intervention and outcomes for AAA patients undergoing EVAR - Insights from a 10 year University Hospital Study Khamin Chinsakchai, <i>Thailand</i>	EndoAVF is it still relevant today? Robert Shahverdyan, <i>Germany</i>	An algorithm to treat superficial venous reflux Jin-Hyun Joh, <i>South Korea</i>
	CERAB vs Kissing stents in complex AIOD - Evidence and Tips for success Barend Mees, <i>Netherlands</i>	NHG: LEAPP from STEP to DEFINITE Elaine Tan, <i>Singapore</i> Jamie Lin, <i>Singapore</i> Chelsea Law, <i>Singapore</i>	Type 2 Endoleaks - To treat or not to treat Justin Kwan, <i>Singapore</i>	Singapore EndoAVF experience Chieh-Suai Tan, <i>Singapore</i>	Tomographic 3-D ultrasound in the management of varicose veins Yiu-Che Chan, <i>Hong Kong SAR</i>
	When things go wrong in AIOD interventions Tarun Grover, <i>India</i>	GLP1 agonists will change the world: Why it's Toe, Flow and Endo! Kwang-Wei Tham, <i>Singapore</i>	Should IMA embolisation be routinely done prior to EVAR - Updates and Latest Evidence Jeffrey Chua, <i>Philippines</i>	EndoAVF maturation assessment & facilitate maturation Jackie Ho, <i>Singapore</i>	Endothermal ablation: Minimizing complications, maximizing outcomes Ahmed Gaweesh, <i>Egypt</i>
	Intravascular lithotripsy for AIOD - is it worth the hype? Ashish Patel, <i>United States</i>	Current concepts in DFU Cyaandi Dove, <i>United States</i>	Sac embolisation - Malayan technique Ahmad Rafizi Hariz, <i>Malaysia</i>	How to make the EndoAVF ready for use - Assisted maturation procedures Uei Pua, <i>Singapore</i>	MOCA : Comparing devices - They don't all scrape the same way Ravul Jindal, <i>India</i>

Time	Grand Ballroom 1	Grand Ballroom 2	Canary	Oriole	Waterfront Ballroom
1030-1130	<p>My experience in performing ChERAB <i>John Chang, Taiwan</i></p> <p>Extreme Bypasses for Limb Salvage <i>Pramook Mutirangura, Thailand</i></p>	<p>Plenary session: What are the metrics and resources to build a successful MDT? <i>David Armstrong, United States</i> <i>Michael Conte, United States</i></p>	<p>Prevention of Spinal Cord Ischaemia During Branched / Fenestrated Thoracoabdominal Endovascular Aortic Repair <i>Zhihui Dong, China</i></p> <p>Sac management in AAA in 2025 <i>Peter Robless, Singapore</i></p>	<p>How do we facilitate cannulation of EndoAVFs? <i>Suh-Chien Pang, Singapore</i></p> <p>Long Term Results of a Comparative Study of Percutaneous and Surgically Created Proximal Forearm Arteriovenous Fistulae <i>Robert Shahverdyan, Germany</i></p>	<p>Venous Glue: overstating inflammation, understating results? <i>Shin-Chuen Cheng, Singapore</i></p> <p>Open superficial surgery is not as complicated as we may think <i>Ngo-Chin Liew, Malaysia</i></p> <p>Foam Sclerotherapy - maximising outcomes and trouble shooting <i>Nalaka Gunawansa, Sri Lanka</i></p>
1130-1230	Pushing boundaries in the treatment of CFA disease	Revascularization: 1	Acute Aortic Syndromes / Aortic Trauma	Minimally invasive AVF creation (II)	Venous malformations
	<p>Moderator: <i>Yann Goueffic, France</i> <i>Pramook Mutirangura, Thailand</i></p> <p>Panelist: <i>Ahmad Rafizi Hariz, Malaysia</i> <i>Tjun-Yip Tang, Singapore</i> <i>Prakash Krishnan, United States</i> <i>Darryl Lim, Singapore</i> <i>Pravin Lingam, Singapore</i></p>	<p>Moderator: <i>Robert Fitridge, Australia</i> <i>Thodur Vasudevan, Australia</i></p>	<p>Moderator: <i>Peter Robless, Singapore</i> <i>Bijan Modarai, United Kingdom</i> <i>Raj Menon, Singapore</i></p>	<p>Moderator: <i>Anil Gopinathan, Singapore</i> <i>Lawrence Quek, Singapore</i></p> <p>Panelist: <i>Tze Tec Chong, Singapore</i> <i>Veera Suwanruangsri, Thailand</i></p>	<p>Moderator: <i>Dong ik Kim, South Korea</i> <i>Carsten Arnoldussen, Netherlands</i> <i>Benjamin Chua, Singapore</i></p>
	<p>Is surgery for CFA the gold standard? Latest Evidence and Trials <i>Patrice Mwitayayi, Australia</i></p> <p>Endovascular intervention for CFA Evidence and procedure pearls <i>Yann Goueffic, France</i></p>	<p>Role of revascularization: Using Wifi <i>Robert Fitridge, Australia</i></p> <p>Patients with severely diseased ankle and foot anatomy: Bringing our best technical and metatechnical open, endo and hybrid game to the game <i>Matthew Menard, United States</i></p>	<p>Utility of REBOA in Aortic and Vascular Trauma <i>Raj Menon, Singapore</i></p> <p>Updates in the management of IMH <i>Benjamin Leong, Malaysia</i></p>	<p>Experience with the WavelinQ endoAVF creation: A single centre experience <i>Christopher Delaney, Australia</i></p> <p>Case discussion <i>Rahul Lohan, Singapore</i></p>	<p>Clinical evaluation and managing patient expectations in vascular malformations <i>Dheepak Selvaraj, India</i></p> <p>CT/MR evaluation in venous malformations as a guide to intervention <i>Carsten Arnoldussen, Netherlands</i></p>
	<p>Atherectomy for the CFA – Does it work, with what <i>Jin-Hyun Joh, South Korea</i></p> <p>Managing the profunda during endovascular treatment of CFA disease <i>Ulf Teichgräber, Germany</i></p>	<p>Endovascular revascularization as first line approach <i>Peter Schneider, United States</i></p> <p>Do endo failures truly jeopardise subsequent open bypass <i>Tze-Woei Tan, United States</i></p>	<p>Which high risk features should we be most concerned about in Acute Aortic Syndromes? <i>Bijan Modarai, United Kingdom</i></p> <p>Management algorithm for complicated Type B aortic dissection (Best medical therapy is the standard for uncomplicated acute type B aortic dissection) <i>Yiu-Che Chan, Hong Kong SAR</i></p>	<p>Case discussion <i>Lawrence Quek, Singapore</i></p> <p>Most challenging EndoAVF I encountered <i>Christopher Delaney, Australia</i></p>	<p>Alcohol and foam sclerotherapy in venous malformations <i>Manish Raval, India</i></p> <p>Lessons learned from a personal experience of over 150 cases of KT syndrome <i>Edwin Stephens, Oman</i></p>
	<p>Stents for CFA reconstruction – Interwoven, DES, or BMS <i>George Adams, United States</i></p> <p>Is IVL a game-changer in the treatment of CFA? How to use combination therapy and what's the evidence <i>Prakash Krishnan, United States</i></p>	<p>DVA is a new way for no option CLTI patients <i>Katherine McGinigle, United States</i></p> <p>Plenary: Guidelines for revasc <i>Michael Conte, United States</i></p>	<p>Takayasu's arteritis – Open option <i>Shivanesan Pitchai, Thailand</i></p>		<p>Radiofrequency ablation in KT syndrome <i>Nuttawut Sermasthanasawadi, Thailand</i></p> <p>Complex Venous malformations – Tailored hybrid treatment strategies <i>Benjamin Chua, Singapore</i></p> <p>Surgical management of complex venous malformations <i>Dong-Ik Kim, South Korea</i></p>
1230-1330	Boston Scientific Lunch Symposium		Medtronic Core Symposium	BD Core Symposium	Inari Core Symposium
1330-1430	Improving outcomes in femoropopliteal disease (I)	Revascularisation: 2	Ascending and Arch aneurysms (I)	Maximising the success maturation of dialysis access	Management of extra-truncal varicose veins
	<p>Moderator: <i>Masahiko Fujihara, Japan</i> <i>Roberto Ferraresi, Italy</i></p> <p>Panelist: <i>Tatsuya Nakama, Japan</i> <i>Jeffrey Chua, Philippines</i> <i>Matthew Menard, United States</i> <i>Steven Kum, Singapore</i> <i>Hao Yun Yap, Singapore</i> <i>Amit Srivastava, United States</i></p>	<p>Moderator: <i>Michael Conte, United States</i> <i>Werner Lang, Germany</i></p>	<p>Moderator: <i>Worawong Siisatkorn, Thailand</i> <i>Peter Robless, Singapore</i> <i>Victor Chao, Singapore</i></p>	<p>Moderator: <i>Sun Cheol Park, South Korea</i> <i>Kittipan Rerkasem, Thailand</i></p> <p>Panelist: <i>Benjamin Leong, Malaysia</i> <i>Yue Jianing, China</i></p>	<p>Moderator: <i>Shoaib Padaria, India</i> <i>Tobias Hirsch, Germany</i> <i>Danny Pratama, Indonesia</i></p>
	<p>From Walking to Stenting: A Guideline-Based Approach to Claudicants <i>Barend Mees, Netherlands</i></p> <p>Bypass vs EVT for FP disease – What is the latest Evidence? <i>Steven Kum, Singapore</i></p> <p>FP Bypass in 2025 – What's new, what's old and good, and how to make it work. Experience from several decades of bypasses <i>Yves Alimi, France</i></p>	<p>Open bypass surgery: lost art or lost opportunities? <i>Michael Conte, United States</i></p> <p>Open bypass surgery in the presence of foot infection <i>Mandika Wijeyaratne, Sri Lanka</i></p> <p>Distal bypass Tips and tricks: <i>Werner Lang, Germany</i></p>	<p>Management of Aortic Arch Aneurysms with Customized Endografts <i>Glenn Tan, Singapore</i></p> <p>Local results of Frozen Elephant Trunk <i>Vitaly Sorokin, Singapore</i></p>	<p>Case discussion <i>Li Zhang, Singapore</i></p> <p>AV access maturation success: How I do it <i>Yuanqing Kan, China</i></p>	<p>Management of the Anterior accessory saphenous veins – 2 year results of the SYNCHRONUS trial <i>Tobias Hirsch, Germany</i></p> <p>Principles of Saphenous sparing surgery – introducing CHIVA <i>Sriram Narayanan, Singapore</i></p> <p>CHIVA outcomes in a large Asian dataset <i>Le Thanh Phong, Vietnam</i></p>

Time	Grand Ballroom 1	Grand Ballroom 2	Canary	Oriole	Waterfront Ballroom
1330-1430	Tips and tricks in crossing complex FP CTOs <i>Sorracha Rookkapan, Thailand</i>	Debate: Who should not get Endo? Are bridges burned and what does GLASS have to say <i>Matthew Menard, United States</i>	Arch fenestrations - results from a tertiary hospital in Singapore <i>Victor Chao, Singapore</i>		Lasers in perforator ablation - Evidence and experience <i>Shoaib Padaria, India</i>
	The use of IVUS in FP revascularization <i>Masahiko Fujihara, Japan</i>	Debate: How I wrestle with this in my daily practice <i>Katherine McGinagle, United States</i>	Insights in using different aortic arch branched endografts Differences: Advantages, Challenges and lessons learned <i>Stephen Cheng, Hong Kong SAR</i>	Use of supra in juxtaaortostomosis stenosis - Asian experience <i>Lester Chong, Singapore</i>	Endovenous management of tributary varicose veins <i>Danny Pratama, Indonesia</i>
	Diagnozing, assessing and managing dissections in FP disease <i>Yoshimitsu Soga, Japan</i>	Debate: What is Next Trial or cluster of trials, to further clarify this question <i>Michael Conte, United States</i>	Wrapping of the ascending aorta - Current evidence and outcomes <i>Chun-Che Shih, Taiwan</i>	Value of nitinolol external support on AVF maturation - Asian experience <i>Enming Yong, Singapore</i>	Endovenous management of recurrent varicose veins <i>Tomohiro Ogawa, Japan</i>
1430-1530	Improving outcomes in femoropopliteal disease (II) (NUHS/NTFGH LIVE) Boston Scientific Live Case	Treating the whole person around the hole	Ascending and Arch aneurysms (II)	Salvage of thrombosed dialysis access	AsVF PeVD Plenary 1: Pelvic Venous Disorders - Evaluation and Diagnosis
	Moderator: <i>Steven Kum, Singapore</i> <i>Prakash Krishnan, United States</i> Panelist: <i>Edward Choke, Singapore</i> <i>Sven Braunlich, Germany</i> <i>Jack Chng, Singapore</i> <i>Lester Chong, Singapore</i> <i>Peter Schneider, United States</i> <i>Osamu Iida, Japan</i> Live Operator: <i>Rajesh Babu Dhamaraj, Singapore</i>	Moderator: <i>Ketan Dhatariya, United Kingdom</i> <i>Laura Shin, United States</i>	Moderator: <i>Stephen Cheng, Hong Kong SAR</i> <i>Glenn Tan, Singapore</i> <i>Vitaly Sorokin, Singapore</i>	Moderator: <i>Malcolm Mak, Singapore</i> <i>Ahmad Rafizi Hariz, Malaysia</i> Panelist: <i>Sunil Rajendran, India</i> <i>Boonying Siribumrungwong, Thailand</i>	Moderator: <i>Cees Wittens, Netherlands</i> <i>Carsten Arnoldussen, Netherlands</i> <i>Wuttichai Saengprakai, Thailand</i>
	Balloon Based Vessel preparation in FP disease <i>Peter Schneider, United States</i>	Podiatric surgical techniques in DF reconstruction <i>Laura Shin, United States</i>	Non A Non B Aortic dissection - Endo or open, how and when to treat <i>Jacky Ho, Hong Kong SAR</i>	Case discussion <i>Keerati Hongsakul, Thailand</i>	AQUOS - an evaluation algorithm in PeVD <i>Sriram Narayanan, Singapore</i>
	IVL in FP disease - Evidence and Practice <i>Prakash Krishnan, United States</i>	Getting a handle on foot infection <i>Cyaandi Dove, United States</i>	Customized Fenestrated Single-Branched Stent Graft for Aortic Arch Aneurysm Repair <i>Wei Wang, China</i>		An angiographic understanding of the SVP classification <i>Marald Wikkeling, Netherlands</i>
	Drug-coated balloons in FP disease - latest evidence including Japanese experience with POPCORN/PROSPECT MONSTER registry <i>Osamu Iida, Japan</i>	Charcot reconstruction and role in limb salvage <i>Daniel Seng, Singapore</i>	Hybrid Repair of Aortic Arch <i>Shivanesan Pitchai, Thailand</i>	Clinical and US assessment of thrombosed HD access to facilitate planning of salvage <i>Chung-Cheen Chai, Singapore</i>	Ultrasound assessment in Pelvic Venous disorders <i>Aleksandra Jaworucka, Poland</i>
	Paclitaxel or Sirolimus for FP interventions - What is the latest evidence? <i>George Adams, United States</i>	Complex foot reconstruction <i>Joon-Pio Hong, South Korea</i>	Why and when I prefer the Cook platform for arch repair <i>Eric Verhoeven, Germany</i>	Vascular access centre for access salvage - Ambulatory centre <i>Po-Jen Ko, Taiwan</i>	Cross sectional imaging in PeVD - CTV or MRV <i>Carsten Arnoldussen, Netherlands</i>
	DES or DCB and Spot stent - How do we decide? <i>Yann Goueffic, France</i>	Guidelines for peri-operative care of patients with DFU <i>Ketan Dhatariya, United Kingdom</i>	Aortic arch surgery in acute Type A aortic dissection - Strategic treatment and outcomes / Role of debranching arch surgery in endovascular era <i>Worawong Slisatkorn, Thailand</i>	Selecting the best strategy in thrombosed AV access - open or endovascular? <i>Danny Pratama, Indonesia</i>	Coils, glue and foam sandwiches - choosing embolic agent combinations <i>Marald Wikkeling, Netherlands</i>
			Early to Mid-term outcomes of open Aortic Arch Repair <i>Orwa Falah, United Kingdom</i>	Midterm outcomes of surgical repair for AVF failure <i>Duc-Tin Le, Vietnam</i>	Evaluating an NIVL with PeVD - to stent or not to stent <i>Wuttichai Saengprakai, Thailand</i>
Coffee Break (1530-1600)					
1600-1700	Improving outcomes in femoropopliteal disease (III) Scrub in with the experts (SKH LIVE) AngioDynamics Live Case	Reporting, Audit, Outcomes, Future	Aorta - New technologies / Research	Overcome challenging conditions in Dialysis Access	AsVF-ECoP Plenary 1 : Open surgical approaches to deep venous intervention
	Moderator: <i>Eddie Choke, Singapore</i> <i>Fabrizio Fanelli, Italy</i> Panelist: <i>Uei Pua, Singapore</i> <i>Sarritphat Orrapin, Thailand</i> <i>George Adams, United States</i> <i>Andrew Lennox, Australia</i> <i>Jang-Yong Kim, South Korea</i> <i>Nick Ng, Singapore</i> Live Operator: <i>Kalpana Vijaykumar, Singapore</i>	Moderator: <i>Sadhana Chandrasekar, Singapore</i> <i>David Armstrong, United States</i>	Moderator: <i>Glenn Tan, Singapore</i> <i>Eric Verhoeven, Germany</i> <i>Derek Ho, Singapore</i>	Moderator: <i>Chung-Cheen Chai, Singapore</i> <i>Ngoh-Chin Liew, Malaysia</i> Panelist: <i>Yufei Wang, China</i> <i>Duc-Tin Le, Vietnam</i>	Moderator: <i>Alun Davies, United Kingdom</i> <i>Shenming Wang, China</i>
	Orbital atherectomy in FP disease <i>George Adams, United States</i>	TLR means Total Limb Results: Why vascular surgeons need to look beyond the angio <i>Robert Fitridge, Australia</i>	Nectero: Applications, patient selection and Initial results <i>Stephen Cheng, Hong Kong SAR</i>	New LDL-apheresis therapy during hemodialysis for poor option CLTI patients <i>Tatsuya Nakama, Japan</i>	Open venous thrombectomy and it's role in modern venous surgery
	Rotational atherectomy in FP disease - De novo and ISR <i>Jang Yong Kim, South Korea</i>	Cost effectiveness analysis: Why is limb salvage worth the effort <i>Joseph Lo, Singapore</i>	Advanced imaging - CT Angiosuite in treating complex aortic pathology <i>Peter Robless, Singapore</i>	Strategies for cephalic arch stenosis <i>Billy Karundeng, Indonesia</i>	Surgery for Femoral and popliteal venous entrapment syndromes <i>Alun Davies, United Kingdom</i>

Time	Grand Ballroom 1	Grand Ballroom 2	Canary	Pelican	Oriole	Waterfront Ballroom
1600-1700	<p>Directional atherectomy in FP disease – De novo and ISR <i>Fabrizio Fanelli, Italy</i></p> <p>24-month outcomes of heparin bonded Viabahn with drug-coated balloons in femoropopliteal occlusions <i>Yang Lin, China</i></p> <p>New Generation Laser Atherectomy for Fem Pop lesions – Why and How <i>Amit Srivastava, United States</i></p>	<p>Time to treatment affects outcomes: Results from Melbourne <i>Thodur Vasudevan, Australia</i></p> <p>The elephant in the room: Equity vs Equality <i>Tze-Woei Tan, United States</i></p> <p>Lessons learned from UK NDFA <i>Ketan Dhatariya, United Kingdom</i></p> <p>The future is bright or is it? <i>David Armstrong, United States</i></p>	<p>Advanced imaging – CT Angiosuite in treating complex aortic pathology <i>Peter Robless, Singapore</i></p> <p>Thoracoflo – Selection and current applications <i>Orwa Falah, United Kingdom</i></p> <p>How close are we to routine use of FORS in management of aortic aneurysm? <i>Barend Mees, Netherlands</i></p> <p>Role of retrograde branches in branches/fenestrated EVAR <i>Bijan Modarai, United Kingdom</i></p> <p>Advantages and Limitations of Inner branches in BEVAR <i>Eric Verhoeven, Germany</i></p>		<p>Covered stent for cephalic arch stenosis – Indonesian experiences <i>Akhmadu Muradi, Indonesia</i></p> <p>Hybrid surgery for dialysis access in the era of endovascular innovation <i>Benjamin Leong, Malaysia</i></p> <p>Native vein AVF creation when usual locations are exhausted <i>Zhengya Yu, China</i></p> <p>Swine based experimental results of “vessel belt” designed for the treatment of high output cardiac failure in HD patients <i>Sang- Su Lee, South Korea</i></p>	<p>Venous Thoracic outlet syndrome – a unique Asian experience from Pakistan <i>Omer Ehsaan, Pakistan</i></p> <p>Rib resection and stenting/surgical repair in Venous TOS – evidence and outcomes <i>Cees Wittens, Netherlands</i></p> <p>Renal Cell Ca and IVC Tumor thrombus management <i>Edwin Stephen, Oman</i></p> <p>The association of popliteal venous aneurysms and iliac vein compression – significance in deep venous intervention <i>Ahmed Gaweesh, Egypt</i></p> <p>Stable or unstable – when do we abandon an endovascular approach in PE and call in the cardiac surgeon <i>Harinder Bedi, India</i></p>
1700-1800			<p>Aorta – Novel techniques (I)</p> <p>Moderator: <i>Andrew Choong, Singapore</i> <i>Derek Ho, Singapore</i> <i>Thodur Vasudevan, Australia</i> <i>Guzuo Xiong, China</i> <i>Wu Xuejun, China</i></p>	<p>Improving outcomes in femoropopliteal disease (IV)</p> <p>Moderator: <i>Hany Zayed, United Kingdom</i> <i>Tze-Tec Chong, Singapore</i></p> <p>Panelist: <i>Shannon Thomas, Australia</i> <i>Yves Alimi, France</i> <i>Sven Braunlich, Germany</i> <i>Shin-Chuen Cheng, Singapore</i> <i>Wuttichai Saengprangkai, Thailand</i> <i>Sanjay Nalachandran, Singapore</i></p>	<p>New Endovascular strategies for HD access maintenance</p> <p>Moderator: <i>Benjamin Leong, Malaysia</i> <i>Enming Yong, Singapore</i></p> <p>Panelist: <i>Billy Karundeng, Indonesia</i> <i>Sunil Rajendran, India</i></p>	<p>AsVF – Innovations in Venous intervention</p> <p>Moderator: <i>Lowell Kabnick, United States</i> <i>Nuttawut Sermasthanasawadi, Thailand</i></p>

1800-1830	Opening Ceremony					
1900	Offsite Faculty Dinner (By invitation only)					

ADDITIONAL EVENTS

Time	Bluebird	
0830-1000	ASVS meets VASCO KNIGHT	<p>Moderator: Tze Tec Chong, Singapore Chang Shu, China</p> <p>Panelist: Junmin Bao, China Chen Zhong, China</p>
	The aortic arch endoluminal reconstruction: New device and clinical practice	Chang Shu, China
	Current Situation and Challenges of Vascular Surgery in China, Zheng Yuehong, Peking Union Medical College Hospital	Yuehong Zheng, China
	3D-Printed Guided Total Endovascular Repair (F/B-EVAR) of Thoracoabdominal Aortic Disease: Follow-Up Results, Complications, and Prevention	Zhao Liu, China
	Physician Modified Mixed/Inner Branch Endovascular Repair for TAAA/CXAAA	Mian Wang, China
	Extracorporeal Fenestration Reconstruction Of The Triple-Branch With Bovine Aortic Arch in Aortic Dissection	Zhaohui Hua, China
	Outcomes of thoracic endovascular aortic repair with physician-manufactured partial micropore stent grafts for aortic arch pathologies	Fenghe Li, China
	Application of Endo Lasso Technique in Managing Tortuous Neck During EVAR for Abdominal Aortic Aneurysm	Zhang Hui, China
Coffee Break (1000-1030)		
1030-1130	ASVS meets VASCO KNIGHT	<p>Moderator: Tze Tec Chong, Singapore Chang Shu, China</p> <p>Panelist: Junmin Bao, China Chen Zhong, China</p>
	The management for endoleak after EVAR	Chang Shu, China
	Innovative hybrid surgery for aortic diseases	Jia Hu, China
	Application of Artificial Intelligence in Medical Imaging	Chao Yang, China
	Comparison of drug-coated balloon angioplasty versus common balloon angioplasty below-the-ankle artery in the mid-term efficacy	Miao Yang, China
	The importance of guide wire and support catheter in the process of lower extremity arterial recanalization	Chengzhi Li, China
	Individualized surgical strategies for treating infectious AAAs: Experience from Fudan Zhongshan Hospital	Jia-Ning Yue, China
1130-1300	ASVS meets Russia and Vietnam	<p>Moderator: Benjamin Chua, Singapore Huu-Uoc Nguyen, Vietnam Gavrilenko A.V., Russia Svetlikov A.V., Russia</p>
	Modern conception in Abdominal aortic aneurysm treatment	Svetlikov A.V., Russia
	The role of robotic's surgery in the treatment of Patients with Superior Mesenteric Artery Syndrome (Wilkie Syndrome)	Vinogradov R A, Russia
	Hemodynamic surgery of varicose veins in a public health care facility	Zolotukhin I.A, Russia
	Effects of long-term therapy with bioflavonoids in patients with chronic venous disease	Suchkov I.A, Russia
	Optimal method of lower extremities revascularization through DFA with absence of a distal arterial bed	Gavrilenko Alexander V, Russia
	Endovascular intervention for infrarenal aortic aneurysm with unfavorable aneurysm neck	Lam Van Nut, Vietnam
	Early outcome evaluation of endovascular intervention in the treatment of chronic below-the-knee arterial occlusion	Pham Thanh Hung, Vietnam
	Hybrid procedure for thoracic aortic diseases: a decade of experiences in a single center	Duong Ngoc Thang, Vietnam
	Treatment of anterior accessory saphenous vein	Le Nhat Tien, Vietnam

Time	Grand Ballroom 1	Grand Ballroom 2	Canary and Oriole	Pelican	Waterfront Ballroom
0730-0800	Cordis Breakfast Symposium				BD Symposium
0800-0900	What do the guidelines say about aortic management in 2025? Moderator: Peter Robless, <i>Singapore</i> Weiguo Fu, <i>China</i> , Eric Verhoeven, <i>Germany</i>	Innovations and quality improvement in dialysis access care Moderator: Po-Jen Ko, <i>Taiwan</i> Joseph Lo, <i>Singapore</i> Panelist: Fu Qining, <i>China</i> Luke Tay, <i>Singapore</i>	Advanced techniques for complex vascular interventions Moderator: Junjie Ng, <i>Singapore</i> Roberto Ferraresi, <i>Italy</i> Panelist: Takuya Haraguchi, <i>Japan</i> Shaun Lee, <i>Singapore</i> Pravin Lingam, <i>Singapore</i> Osamu Iida, <i>Japan</i> Kalpana Vijaykumar, <i>Singapore</i> Suthas Horsirimamont, <i>Thailand</i>	Medical Therapy for PAD: What Works, What's New, and What's Next Moderator: Prakash Krishnan, <i>United States</i> Jiasheng Tay, <i>Singapore</i> Panelist: Ashish Patel, <i>United States</i> Edward Choke, <i>Singapore</i> Shaun Chan, <i>Singapore</i> Peter Chang, <i>Singapore</i> Skyi Pang, <i>Hong Kong SAR</i> Benjamin Leong, <i>Malaysia</i>	AsVF VTE plenary 1 : Prevalence, risk and prophylaxis Moderator: Elaine Alajar, <i>Philippines</i> Alejandro Gonzalez, <i>Mexico</i> Tomohiro Ogawa, <i>Japan</i> Tjun-Yip Tang, <i>Singapore</i>
	Management of Aortic Aneurysms in 2025 - What do the guidelines recommend? <i>Bijan Modarai, United Kingdom</i> Should we treat 5 cm or smaller AAA in Asian patients? <i>Boonprasit Kritpracha, Thailand</i> Updated guidelines in traumatic aortic injury <i>Victor Chao, Singapore</i> Management of Type B Acute Aortic Dissection in 2025 - What do the guidelines recommend? <i>Eric Verhoeven, Germany</i> Management of Aortic Arch Aneurysm in Asian patients <i>Stephen Cheng, Hong Kong SAR</i> Role of open repair in pararenal and suprarenal aneurysms in the endovascular era <i>Gabriele Maritati, Italy</i>	Next generation EndoAVF <i>Robert Shahverdyan, Germany</i> Cost effectiveness of AVF maturation tracking <i>Lingyan Meng, Singapore</i> Development of a novel arteriovenous graft for human use <i>Deling Kong, China</i> New AVG to change the landscape <i>Frans Moll, Netherlands</i> Application of intravascular manometry in central venous disease <i>Mingxi Lu, China</i> Robotic tomographic ultrasound and artificial intelligence for managing haemodialysis arteriovenous fistulae <i>Shannon Thomas, Australia</i>	IVUS-guided wiring: How I do it <i>Yoshimitsu Soga, Japan</i> The retrograde/inner pierce technique for extreme calcification <i>Suthas Horsirimamont, Thailand</i> Pushing the limits with BTA recanalization <i>Osamu Iida, Japan</i> Rules of engagement in the treatment of BTK/BTA disease <i>Junjie Ng, Singapore</i> Common sense treatment of BTK vessels - how to do it on a budget <i>Roberto Ferrarasi, Italy</i> A novel "fracking" technique to treating CFA disease <i>Takuya Haraguchi, Japan</i>	Medical Therapy for PAD: New Evidence and Guideline Recommendations <i>Prakash Krishnan, United States</i> Evidence and Evolution - NOACs in Contemporary PAD Management <i>Jiasheng Tay, Singapore</i> Modern Approaches to Antiplatelet Therapy and Resistance Monitoring <i>Peter Chang, Singapore</i> Beyond Chronological Age: Frailty Evaluation for High-Risk Vascular Procedures <i>Judith Partridge, United Kingdom</i> Right Treatment for the Right Patient: Precision Medicine in Vascular disease <i>Ashish Patel, United States</i> Translational research in diabetic PAD <i>Clement Lau, Singapore</i>	VTE - Indian registry data <i>Ravul Jindal, India</i> Thrombosis and microthrombosis in Long COVID <i>Alejandro Gonzalez, Mexico</i> The evidence for thrombophilia screening in Asia <i>Tomohiro Ogawa, Japan</i> Hospital-acquired VTE - The Hong Kong SAR Study <i>Yiu-Che Chan, Hong Kong SAR</i> Investigating the breathless patient with a limb DVT <i>Elaine Alajar, Philippines</i> Thrombus age assessment by MRV and its impact on interventional outcomes in VTE <i>Carsten Arnoldussen, Netherlands</i> VTE in pregnancy - approaches and options <i>Tjun-Yip Tang, Singapore</i>
0900-1000	Abdominal Aortic and iliac aneurysms (I) Moderator: Glenn Tan, <i>Singapore</i> Bijan Modarai, <i>United Kingdom</i> Jang Yong Kim, <i>South Korea</i>	Key issues in dialysis access and solutions Moderator: Jackie Ho, <i>Singapore</i> Wong Weng Kin, <i>Singapore</i> Panelist: Lu Mingxi, <i>China</i> Kittipan Rerkasem, <i>Thailand</i>	No Option CLTI and Venous Arterialization (I) Moderator: Steven Kum, <i>Singapore</i> Roberto Ferraresi, <i>Italy</i> Panelist: Peter Schneider, <i>United States</i> Pramook Mutirangura, <i>Thailand</i> Hany Zayed, <i>United Kingdom</i> Lew Pei Shi, <i>Singapore</i> Yong Enming, <i>Singapore</i> Fabrizio Fanelli, <i>Italy</i>		AsVF-ECOP Plenary 2: Technical considerations in chronic ilio-femoral occlusion disease Moderator: Cees Wittens, <i>Netherlands</i> Nuttawut Sermasthanasawadi, <i>Thailand</i> Houman Jalaie, <i>Germany</i>
	Management of internal iliac artery aneurysms <i>Skyi Pang, Hong Kong SAR</i> Impact of aortic neck length and angulation for outcomes in AAA with severe neck angulation <i>Khamin Chinsakchai, Thailand</i> Treating diverse abdominal anatomies - current technology assessment <i>Boonprasit Kritpracha, Thailand</i> ESAR - Current evidence and local Asian experience <i>Qiantai Hong, Singapore</i> ANCHOR 4 year data - Short neck cohort <i>Vikram Puttuswamy, Australia</i>	Singapore dialysis landscape - is it sustainable? <i>Jason Choo, Singapore</i> New technology for HD access - are they leading to better outcomes of HD access service? <i>Robert Shahverdyan, Germany</i> Building a multi-disciplinary Dialysis Access unit strong in service, research and education <i>Zhao Yu, China</i> Hemodialysis vascular access in the elderly—getting it right <i>Kotaro Suemitsu, Japan</i> Reducing Patient barriers to Timely Dialysis Access creation: A QI Project <i>Malcolm Mak, Singapore</i>	Surgical DVA - Tricks from a decade of cases <i>Pramook Mutirangura, Thailand</i> What is No Option CLTI - Does it exist? <i>Peter Schneider, United States</i> DVA Done Right: Mastering Case Selection for Optimal Outcomes <i>Roberto Ferrarasi, Italy</i> Tips and tricks of performing endovascular DVA <i>Steven Kum, Singapore</i> Outcomes of DVA - with Off the shelf and on label devices <i>Uei Pua, Singapore</i>		The Link Between Morphology and Iliac Veins and Outcomes: Does Roundness Matter? <i>Lowell Kabnick, United States</i> Use of re-entry devices in venous interventions <i>Kevin Chung-Ho Hsu, Taiwan</i> Endovascular approaches to the femoral venous inflow <i>Houman Jalaie, Germany</i> Hybrid approach to the femoral venous inflow <i>Robbie George, India</i> Stenting the ilio-caval confluence - considerations and technique <i>Enming Yong, Singapore</i>

Time	Grand Ballroom 1	Grand Ballroom 2	Canary and Oriole	Pelican	Waterfront Ballroom
0900-1000	Endoanchors - Tips and tricks Lawrence Quek, Singapore	Healthcare strategy for ESKD tsunami in Malaysia Ngoh-Chin Liew, Malaysia	Post procedural wound management after Surgical and pDVA Hany Zayed, United Kingdom		Stenting below the inguinal ligament - is success determined by the type of stent or type of patient? Suat Doganci, Turkey Technical approaches to contra-lateral stent jailing Houman Jalaie, Germany
Coffee Break (1000-1030)					
1030-1130	Abdominal Aortic and iliac aneurysms (II)	Overcoming Central Vein obstruction 1	No Option CLTI and Venous Arterialization (II)	Visceral Artery Topics	AsVF-American Venous Forum Plenary: Controversies in superficial venous disease
	Moderator: Qian-Tai Hong, Singapore Glenn Tan, Singapore Boonprasit Kritpracha, Thailand	Moderator: Farah Irani, Singapore Chia-Hsun Lin, Taiwan Panelist: Danny Pratama, Indonesia Sunil Rajendran, India	Moderator: Pramook Mutirangura, Thailand Hany Zayed, United Kingdom Panelist: Darryl Lim, Singapore Ramon Varcoe, Australia Malcolm Mak, Singapore Steven Kum, Singapore	Moderator: Jimmy Kyaw, Singapore Julian Wong, Singapore Panelist: Harishankar Nair, United Kingdom Pravin Lingam, Singapore Chuo-Ren Leong, Singapore Sanjay Nalachandran, Singapore	Moderator: Alun Davies, United Kingdom Kursat Bozkurt, Turkey Alejandro Gonzalez, Mexico Lowell Kabnick, United States
	The ten most important lessons from 30 years of vascular surgery Eric Verhoeven, Germany	Advanced techniques for endovascular treatment of central vein occlusion Keerati Hongsakul, Thailand	Post procedure Surveillance and Reintervention for pDVA Steven Kum, Singapore	Open Revascularization for Visceral Occlusive Disease - An Update Matthew Menard, United States	Compression therapy after superficial ablation - for whom, how much and how long? Wuttichai Saengprakai, Thailand
	ENCHANT 2 year data (ChEVAR - Is it still relevant in 2025?) Khamin Chinsakchai, Thailand	Percutaneous bypass in central venous CTO with double snare technique Veera Suwanruangsri, Thailand	Is there a role for distal DVA in limb salvage? Darryl Lim, Singapore	Endovascular Intervention for Visceral Occlusive disease - How, Tricks and Pitfalls Kiang-Hiong Tay, Singapore	Adverse events after cyanoacrylate glue ablation in an large Japanese cohort Michihisa Umetsu, Japan
	Open repair remains an option in AAA repair - Evidence and Asian outcomes Muhammad Syafiq Idris, Malaysia	Outside in access for central vein occlusion Suthas Horsiramanont, Thailand	Open superficial vein arterialization - why and how I do it Hany Zayed, United Kingdom	Visceral Artery aneurysms - An Interventional Approach Fabrizio Fanelli, Italy	Is Compression Necessary Post Thermal Ablation of Truncal Veins? Lowell Kabnick, United States
	Updates in Ruptured AAA Benyakorn Thoetphum, Thailand	Inside-out Technique for central venous catheter insertion in central vein resistant CTO Surakiat Bokerd, Thailand	Managing complications during endovascular DVA Steven Kum, Singapore	Popliteal artery aneurysms - open versus endovascular approach Harishankar Nair, United Kingdom	Superficial ablation in the presence of deep venous reflux - advisable or not? Kursat Bozkurt, Turkey
	How suitable is conventional EVAR for ruptured AAA in Asia? Yiu-Che Chan, Hong Kong SAR	Management of CVC induced Cavoatrial junction occlusion with covered stent Yaxue Shi, China	New techniques and strategies for an optimal outcome in major lower limb amputations Cyaandi Dove, United States	Renal Artery Stenting - How I do it Uei Pua, Singapore	Considerations for superficial ablation in an iliac vein stented patient Suat Doganci, Turkey
	Shape Memory Polymer for endoleak management and prevention Manar Kashram, New Zealand		Beyond Revascularization: Exploring Emerging and Adjunctive Therapies for No-Option CLTI Malcolm Mak, Singapore	Renal Denervation for Uncontrolled Hypertension - An Update Prakash Krishnan, United States	Should reintervention, recurrence or closure rate be the best outcome measure for endovenous ablation trials Alun Davies, United Kingdom The VEIN-STEP study - Effectiveness of conservative treatments in chronic venous disease Alejandro Gonzales, Mexico
1130-1230	Juxtarenal / Pararenal Aneurysms	Overcoming Central Vein Obstruction 2	Revascularization for CLTI and BTK Interventions - SVESS meets DFCon (I)	Others (education, simulation, global health)	AsVF Plenary on Aesthetic Phlebology
	Moderator: Stephen Cheng, Hong Kong SAR Peter Robless, Singapore Khamin Chinsakchai, Thailand	Moderator: Jimmy Kyaw, Singapore Lester Chong, Singapore Panelist: Yu Zhengya, China Akhmadu Muradi, Indonesia	Moderator: Sadhana Chandrasekar, Singapore David Armstrong, United States Panelist: Michael Conte, United States Steven Kum, Singapore Joseph Lo, Singapore Ramon Varcoe, Australia Tze-Woei Tan, Singapore Andrew Choong, Singapore	Moderator: Dexter Chan, Singapore Ahmad Rafizi Hariz, Malaysia Panelist: Sariphat Orrapin, Thailand Siew-Ping Chng, Singapore Dedy Pratama, Indonesia Lowell Leow, Singapore Charlie Yu, Singapore Andrew Choong, Singapore	Moderator: Tjun-Yip Tang, Singapore Aleksandra Jaworucka, Poland Ravul Jindal, India
	Early experience with novel fenestrated endograft Glenn Tan, Singapore	Case discussion Chia-Hsun Lin, Taiwan	Insights from BEST CLI and BASIL 2/3 - Where are we in 2025? Osamu Iida, Japan	Use of mixed or augmented reality for training and intraoperative guidance - is this the future? Lowell Leow, Singapore	Cryo Laser and Cryosclerotherapy CLaCS - Experience from Asia's pioneering unit Ashish Dhadas, India
	Off the shelf device experience for juxtarenal/pararenal aneurysms Rajesh Babu, Singapore	Central vein stenosis. To stent or not to stent, which stent and how? Chia-Hsun Lin, Taiwan	DFCon Debate - Distal Bypass in CLTI is my preferred approach and why Michael Conte, United States	Managing PAD in low-resource settings Dedy Pratama, Indonesia	Laser options in aesthetic phlebology Tjun-Yip Tang, Singapore
	Tips and tricks for open retroperitoneal exposure of the aorta and its branches Kamphol Laohapensang, Thailand	BMS for left brachiocephalic vein obstruction Yaxue Shi, China	DFCon Debate - EVT 1st approach works better Peter Schneider, United States	PAD in women - under recognized differences and management strategies Siew-Ping Chng, Singapore	Cosmetic and safe management of facial and hand veins Aleksandra Jaworucka, Poland
	Initial Experience with Inner-branch Endografts - How do they compare to Fenestrated & Branched Endografts Yew-Pung Leong, Malaysia	Case discussion John Chang Chien Hwa, Taiwan	TLR means Total Limb Results: Why vascular surgeons need to look beyond the angiogram Tze-Woei Tan, United States	My best tips for reducing radiation risks, 2025 Charlie Yu, Singapore	Practical considerations in aesthetic microsclerotherapy - a science and an art Ravul Jindal, India
	Bridging stent grafts: all rounder versus dedicated solution Eric Verhoeven, Germany	Concept of undersize stenting for central vein obstruction John Chang Chien Hwa, Taiwan	Advanced Techniques for BTK Bypass - A Masterclass Nobuyoshi Azuma, Japan	Enhancing resident engagement and interest in vascular surgery Sariphat Orrapin, Thailand	Preventing and dealing with post-sclerotherapy telangiectatic matting Tobias Hirsch, Germany

Time	Grand Ballroom 1	Grand Ballroom 2	Canary and Oriole	Pelican	Waterfront Ballroom
1130-1230	Local experience with iBEVAR <i>Tze-Tec Chong, Singapore</i>		Choice of conduits for BTK bypasses – What's new <i>Frans Moll, Netherlands</i>	AI in Vascular Surgery: Rise of the Machine <i>Andrew Choong, Singapore</i>	Post sclerotherapy hyperpigmentation options <i>Matthew Yeo, Singapore</i>
1230-1300	(SGH LIVE) DK Medtech Live Case	Boston Scientific Core Symposium	Shockwave Core Symposium	Bentley Core Symposium	
1300-1330	Live Operator: Ankur Patel, Singapore				
1330-1430	TAAAs	Nursing care for dialysis access	Revascularization for CLTI and BTK Interventions – SVESS meets DFCon (II)	Emerging technologies	AsVF PeVD Plenary 2 : Zonal management of Pelvic Venous Disorders
	Moderator: Glenn Tan, <i>Singapore</i> Yew Pung Leong, <i>Malaysia</i> Peter Robless, <i>Singapore</i>	Moderator: Christopher Leo, <i>Singapore</i> Lillian Lou, <i>Singapore</i> Panelist: Jason Choo, <i>Singapore</i> Suh-Chien Pang, <i>Singapore</i> Chunyan Wu, <i>China</i>	Moderator: Joseph Lo, <i>Singapore</i> Matthew Menard, <i>United States</i> Panelist: Junjie Ng, <i>Singapore</i> Tatsuya Nakama, <i>Japan</i> Nattawhut, <i>Thailand</i> Skyi Pang, <i>Hong Kong SAR</i> Mashahiko Fujihara, <i>Japan</i> Kevin Chung-Ho Hsu, <i>Taiwan</i>	Moderator: Peter Schenider, <i>United States</i> Steven Kum, <i>Singapore</i> Panelist: Luke Tay, <i>Singapore</i> Frans Moll, <i>Netherlands</i> Derek Ho, <i>Singapore</i> Sujit Singh, <i>Singapore</i> Yiu-Che Chan, <i>Hong Kong SAR</i> Jaroen Cheewinmethasari, <i>Thailand</i>	Moderator: Cees Wittens, <i>Netherlands</i> Marald Wikkeling, <i>Netherlands</i> Aleksandra Jaworucka, <i>Poland</i>
	Bridging stents: the BeFlared as the next revolution in FEVAR <i>Eric Verhoeven, Germany</i>	Use of plastic cannula in AVFs is it time for change? <i>Ru-Yu Tan, Singapore</i>	Crossing strategies for complex BTK lesions <i>Fabrizio Fanneli, Italy</i>	Rheocarna – a New adjunct for CLTI , Experience from Japan <i>Yohimitsu Soga, Japan</i>	Diagnostic and Treatment strategies in Pelvic Venous Disorders <i>Benjamin Chua, Singapore</i>
