CRITICAL ISSUES IN ENDOVASCULAR THERAPY

DAY 1 5 SEPTEMBER 2026

0800-0900 CLTI from an Asian Perspective Chair: · Peter Schneider, United States · Sven Braunlich, Germany Panellists: · Roberto Ferraresi, Italy · Wuttichai Saengprakai, Thailand · Andrew Choong, Singapore · Kevin Hsu, Taiwan From Late Limb Loss to Early Limb Salvage: Fixing the System <i>Joseph Lo, Singapore</i> The relationship between Singapore Housing Index and readmission outcomes among patients with diabetic foot ulcer <i>Wen Yao Peng, Singapore</i> Bypass vs. Endovascular in Asia — Do Western Trials Apply? <i>Enming Yong, Singapore</i> From population to patient - personalizing care in PAD and CLTI <i>Ashish Patel, United Kingdom</i> Optimizing Best Medical Therapy in Asian CLTI <i>Liew Huiling, Singapore</i> What Should the Asian CLTI Algorithm Be? <i>Kalpana Vijaykumar, Singapore</i> CLTI Outcomes in Southeast Asia: Real-World Registry Data and Lessons for the Region <i>Saritphat Orrapin, Thailand</i>	1000 Poster Presentation (I) E-poster, Grand Ballroom Foyer Judges: · Ashish Patel, United Kingdom · Kalpana Vijaykumar, Singapore A Case of Lerihe Syndrome with a Massive Protrusion Caused by a VBx <i>Kenji Suzuki, Japan</i> Delayed Endovascular Intervention for Chronic DVT Secondary to May-Thurner Syndrome: Is It Too Late? <i>Syazwan Arif Saprudin, Malaysia</i> Successful Multistep Limb Salvage of CLTI with Extensive Tissue Loss and Osteomyelitis: A Case Report <i>Sarrath Sutthipon, Thailand</i> Expediated Management Protocol for Critical Limb Threatening Ischemia (CLTI) with Tissue Loss <i>Wan Suen Cheung, Hong Kong SAR</i>
0900-1000 The DCB Controversy Chair: · Ashish Patel, United Kingdom · Jimmy Kyaw, Singapore Panellists: · Adrian Chia, Singapore · Cheng Shin Chuen, Singapore · Suci Indriani, Indonesia · Vikram Vijayan, Singapore DCB in CLTI: Does Patency Translate to Limb Salvage? <i>Edward Choke, Malaysia</i> Should We Still Use Paclitaxel for PAD in 2026? <i>Peter Schneider, United States</i> Is This the Dawn of Sirolimus in PAD Intervention? <i>George Adams, United States</i> Enhancing DCB Efficacy with Vessel Preparation: Fact or Fiction? <i>Karthigesu Aiman, Malaysia</i> When Not to Use DCB: The Forgotten Discussion <i>Lawrence Garcia, United States</i> Real-World Asian Registry Data on DCB Outcomes <i>Tatsuya Nakama, Japan</i>	1010-1110 AIOD (I) Chair: · Sven Braunlich, Germany · Steven Kum, Singapore Panellists: · Jeffrey Chua, Philippines · Veera Suwanruangsri, Thailand · Teo Qitian, Singapore · Jimmy Kyaw, Singapore CERAB vs. Kissing Stents for Bifurcation Disease in Aortoiliac Occlusive Disease <i>Patrice Mwipatayi, Australia</i> Balloon Expandable Covered Stents for AIOD in an Asian Population <i>Mao Ting, Taiwan</i> Endovascular Treatment of CFA: An Update <i>Yann Goueffic, France</i> Radial Approach in AIOD and FP Disease <i>Takuya Haraguchi, Japan</i> Crossing Strategies in Complex AIOD <i>Bryan Yan, Hong Kong SAR</i> The Role of IVUS in AIOD: Essential or Overkill? <i>Saritphat Orrapin, Thailand</i>
1010 - 1010 Coffee Break	

CRITICAL ISSUES IN ENDOVASCULAR THERAPY

DAY 1 5 SEPTEMBER 2026

1110-1210	Live Case 1 <i>Supported by Boston Scientific (NUH)</i>	Boston Scientific
-----------	---	--------------------------

Operator: · Junjie Ng, Singapore · Jackie Ho, Singapore

Chair: · Steven Kum, Singapore · Yann Goueffic, France

Panellists: · Lawrence Garcia, United States
· Enming Yong, Singapore
· Masahiko Fujihara, Japan
· Karthigesu Aimanan, Malaysia

Case introduction

Junjie Ng, Singapore · Jackie Ho, Singapore

Plaque Modification in Calcified FP Lesions:
The Role of Atherectomy in Optimising Drug
Delivery Outcomes *Takuya Haraguchi, Japan*

Optimising Outcomes with Drug-Coated Balloons
in the FP Segment: Selection, Technique, and the
Evidence *Tatsuya Nakama, Japan*

Drug-Eluting Stents for Long-Segment and Complex
FP Disease: Long-Term Patency Data and Patient
Selection *Yann Goueffic, France*

1210-1310	Boston Scientific Lunch Symposium	Boston Scientific
-----------	--	--------------------------

Chair: · Steven Kum, Singapore

Panellists: · Suci Indriani, Indonesia · Tatsuya Nakama, Japan
· Saritphat Orrapin, Thailand

Vessel Preparation – Hype or Clinical Necessity?
Tatsuya Nakama, Japan

Drug-Coated Balloon or Drug-Eluting Stent for the
SFA? Help Me Decide *Yann Goueffic, France*

The Paclitaxel Controversy: Current Evidence and
Clinical Perspectives *Peter Schneider, United States*

Jetstream Atherectomy: Tips, Tricks and Avoiding
Pitfalls *Takuya Haraguchi, Japan*

Emerging Technologies from Boston Scientific for
Tomorrow's Unmet Clinical Needs
Steven Kum, Singapore

1310-1410	AIOD (II)
-----------	------------------

Chair: · Patrice Mwipatayi, Australia
· Darius Aw, Singapore

Panellists: · Adrian Chia, Singapore
· Michael Arvind, Malaysia
· Arada Kamsoontorn, Thailand
· Jeffrey Chua, Philippines

The Role of Balloon Expandable Covered Stents in
Aortoiliac Occlusive Disease
Masahiko Fujihara, Japan

The Role of IVL in AIOD: Adjunctive Tool or Primary
Strategy? *Lawrence Garcia, United States*

Dealing with Complications in AIOD Cases
Sven Braunlich, Germany

Managing In-Stent Restenosis in Aortoiliac
Occlusive Disease *Dexter Chan, Singapore*

IVL for TAVR: Tips and Tricks for the Endovascular
Team *Patrice Mwipatayi, Australia*

Long-Term Patency and Re-intervention Rates
After Complex AIOD Intervention: Lessons from
International Registries *Skyi Pang, Hong Kong SAR*

Rethinking Treatment of AIOD with Heparin Bonded
Self-Expanding Covered Stents *Lei Li, China*

1410-1500	Debate (I)
-----------	-------------------

Chair: · Ramon Varcoe, Australia
· Hong Qiantai, Singapore

"Routine IVUS Should Be Mandatory in All Complex
Endovascular Interventions"

For: Mark Portou, United States
Against: Roberto Ferrarasi, Italy

"We Should Always Strive to Leave Nothing Behind
in FP Interventions"

For: Lawrence Garcia, United States
Against: Yann Goueffic, France

1500-1505	SVESS Travel Fellowship Presentation
1505 - 1515	Coffee Break

CRITICAL ISSUES IN ENDOVASCULAR THERAPY

DAY 1 5 SEPTEMBER 2026

1505-1525 Poster Presentation (II) E-poster, Grand Ballroom Foyer	1615-1715 FP (II) – Balloons, Stents & ISR
Judges: · Cheng Shin Chuen, Singapore · Enming Yong, Singapore Wire-Preserving Retrieval of Sheath-Trapped Embolic Material <i>Tetuya Kobayashi, Japan</i> One Wrong Stent Lifetime of Suffering: Recurrent Aorto-femoral Graft Thrombosis After Common Femoral Artery Stenting <i>Amy Khor, Malaysia</i> Endovascular Rescue of Aorto-Below-the-Knee Acute Limb Ischemia Through an Occluded Femorofemoral Bypass <i>Akiko Tanaka, Japan</i> Double-Wire Technique: A Valuable Endovascular Bail-out Option for Complex BTK CTOs <i>Siong Teng Saw, Singapore</i>	Chair: · Takuya Haraguchi, Japan · Pablo Del Canto Peruyera, Spain Panellists: · Hong Qiantai, Singapore · Sven Bräunlich, Germany · Wuttichai Saengprakai, Thailand · Dexter Chan, Singapore Strategies to Cross Long Segment FP CTOs <i>Darius Aw, Singapore</i> Specialty Balloons for the FP Segment <i>Peter Schneider, United States</i> Endovascular Management of Complex SFA Lesions: Where Do Covered Self-Expanding Stents Fit? <i>Ashish Patel, United Kingdom</i> Drug-Eluting Stents for Complex FP Lesions: An Evidence Update <i>Steven Kum, Singapore</i> Optimizing FP Outcomes with IVL <i>Bryan Yan, Hong Kong SAR</i> Endovascular Bypass: Are We There Yet? <i>Yves Alimi, France</i>
1515-1615 FP (I) – Lesion Prep & Atherectomy	
Chair: · George Adams, United States · Junjie Ng, Singapore Panellists: · Malcolm Mak, Singapore · Luke Tay, Singapore · Joel Soon, Singapore · Saritphat Orrapin, Thailand IVUS in the FP Segment: Understanding Plaque Morphology to Guide Therapy <i>Masahiko Fujihara, Japan</i> When does IVUS Matter? A Systematic Analysis of Decision-Changing Moments <i>Ashish Patel, United Kingdom</i> FP Lesion Prep: Outcomes of a Delphi Consensus <i>Sven Braunlich, Germany</i> Lesion Modification with Atherectomy in FP Disease: Latest Evidence <i>Lawrence Garcia, United States</i> Rotational Atherectomy for FP Disease: Insights from Japan <i>Tatsuya Nakama, Japan</i> Laser Atherectomy for the FP Segment: The Force Awakens? <i>Kalpana Vijaykumar, Singapore</i> The role of directional atherectomy in complex femoropopliteal lesions <i>Kevin Hsu, Taiwan</i>	

1730 | END OF DAY 1

CRITICAL ISSUES IN ENDOVASCULAR THERAPY

DAY 2 6 SEPTEMBER 2026

0720-0800	Best Case Competition (I) <i>Supported by ObusNeich</i> 
MC:	Junjie Ng, Singapore
Judges:	- Ashish Patel, United Kingdom - Steven Kum, Singapore - Glenn Tan, Singapore
Introduction <i>Junjie Ng, Singapore</i> Sequential bail-out techniques for balloon-uncrossable, severely calcified anterior tibial artery chronic total occlusion in CLTI <i>James Tung, Singapore</i> Endovascular Rescue of an Iliac Stent-Graft Misdeployment Using a Modified 0.035-Inch Guidewire <i>Takahiro Tokuda, Japan</i> Keeping the Bypass Alive: Endovascular Salvage of Recurrent PTFE Graft Thrombosis <i>Muhammad Aizat Tamlikha Ismail, Malaysia</i> Whatever It Takes <i>Prajwala S Prakash, Singapore</i> A Novel IVUS-Guided Antegrade Arteriovenous Fistula Creation Technique for Transcatheter Arterialization of Deep Veins <i>Shinsuke Mori, Japan</i>	
0800-0900	BTK (I)
Chair:	Jackie Ho, Singapore · Junjie Ng, Singapore
Panellists:	- Vikram Vijayan, Singapore - Kanoklada Srikuea, Thailand - Zoe Tan, Singapore · Derek Ho, Singapore
Angiosome-Directed Revascularization - Is It Always Necessary? <i>Roberto Ferraresi, Italy</i> Why Are BTK Patency Rates So Poor? Addressing the Elephant in the Room <i>Peter Schneider, United States</i> Does IVUS Make a Difference When Treating BTK Disease? <i>Takuya Haraguchi, Japan</i> Is IVL the Game Changer in BTK Interventions? <i>Enming Yong, Singapore</i> The Role of Specialty and Scoring Balloons in BTK Disease <i>Junjie Ng, Singapore</i> Optimizing Tibial Angioplasty with Non-Compliant Balloons <i>Bryan Yan, Hong Kong SAR</i>	

0900-1000	No-option CLTI and Venous Arterialization
Chair:	- Cheng Shin Chuen, Singapore - Enming Yong, Singapore
Panellists:	- Joel Soon, Singapore · Jackie Ho, Singapore - Karthigesu Aimanan, Malaysia - Nattawut Puangpunngam, Thailand
Where Do We Stand in TADV in 2026? <i>Peter Schneider, United States</i> Optimizing TADV Outcomes: Patient Selection and Technical Pearls <i>Steven Kum, Singapore</i> Focalizing Flow After Initial TADV: When and How? <i>Roberto Ferraresi, Italy</i> A Practical Guide to Wound Management in TADV Patients <i>Derek Ho, Singapore</i> Novel Surgical Approaches to No-option CLTI <i>Joseph Lo, Singapore</i> Apheresis for No-Option and Poor-Option CLTI: Is It Ready for Prime Time? <i>Yusuke Yoshimura, Japan</i>	
1000 - 1010 Coffee Break	
1000-1020	Poster Presentation (III) E-poster, Grand Ballroom Foyer
Judges:	- Malcolm Mak, Singapore - Vikram Vijayan, Singapore
Hybrid Transradial and Stent-Puncture Strategy for Calcified Distal SFA CTO <i>Riho Suzuki, Japan</i> Coil Embolization of a Peroneal Artery Arteriovenous Fistula During Revascularization for Chronic Limb-Threatening Ischemia <i>Manhosh Ravi, Singapore</i> 73 years old CLTI patient performed bilaterall trans-endarterectomy revascularization <i>Krit Wangkeeratikarn, Thailand</i>	

CRITICAL ISSUES IN ENDOVASCULAR THERAPY

DAY 2 6 SEPTEMBER 2026

1010-1110	Live Case 2 Supported by Angion Medical (SKH)	 ANGEION MEDICAL
-----------	---	--

Operator: · Kalpana Vijaykumar, Singapore
· Darius Aw, Singapore

Chair: · Ashish Patel, United Kingdom
· Steven Kum, Singapore

Panellists: · Enming Yong, Singapore · Derek Ho, Singapore
· Lew Peishi, Singapore
· Sherzod Iskhakov, Uzbekistan

Case introduction

Kalpana Vijaykumar, Singapore
Darius Aw, Singapore

The SIRONA Trial: What 3 Years of Data Tells Us
Ulf Teichgraber, Germany

Improving Below-The-Knee CLTI Outcomes with the Spur Retrievable Scaffold System
Pablo Del Canto Peruyera, Spain

The Role of Laser Atherectomy in Complex PAD Lesions
Shin Chuen Cheng, Singapore

1110-1200	Debate (II)
-----------	--------------------

Chair: · Lawrence Garcia, United States
· Andrew Choong, Singapore

"Inframalleolar Intervention Should Be Standard of Care in CLTI"

For: George Adams, United States
Against: Roberto Ferraresi, Italy

"Multi-Vessel BTK Revascularization Is Superior to Single-Vessel"

For: Lawrence Quek, Singapore
Against: Steven Kum, Singapore

1200-1300	Abbott Lunch Symposium	 Abbott
-----------	-------------------------------	---

Chair: · Steven Kum, Singapore · Ramon Varcoe, Australia

Welcome *Steven Kum, Singapore*

Complex CLTI Case from Japan
Tatsuya Nakama, Japan

Complex CLTI Case from Hong Kong
Skyi Pang, Hong Kong SAR

Complex CLTI Case from Germany
Sven Braunlich, Germany

Complex CLTI Case from Singapore
Junjie Ng, Singapore

1300-1400	BTA
-----------	------------

Chair: · Ramon Varcoe, Australia · Steven Kum, Singapore

Panellists: · Derek Ho, Singapore
· Nattawut Puangpunngam, Thailand
· Roshan Bootun, Singapore
· Suci Indriani, Indonesia

Getting the Basics Right: How I Perform BTA Intervention
Lawrence Quek, Singapore

Is There a Role for Drug Therapy in BTA Disease?
George Adams, United States

Advanced Techniques in BTA Intervention
Junjie Ng, Singapore

Lesion Modification in BTA Disease: Do the Risks Outweigh the Benefits?

Peter Schneider, United States

Complications in BTK and BTA: Prevention and Bailout Strategies
Takuya Haraguchi, Japan

Pedal Loop Reconstruction: Indications, Technique and Outcomes
Darius Aw, Singapore

1400-1410 | Coffee Break

1400-1420	Poster Presentation (IV) E-poster, Grand Ballroom Foyer
-----------	---

Chair: · Andrew Choong, Singapore · Darius Aw, Singapore

Staged Endovascular Revascularization for Extensive Iliac-to-BTK Chronic Total Occlusion in a Frail Patient
Naho Ito, Japan

From Hemorrhage to Hand Ischemia: Managing a Cascade of Catastrophic Complications During Iliac CTO Revascularization
Yuta Tajiri, Japan

Hybrid recanalization of chronic ilio caval occlusion across irretrievable IVC filter; A case report
Muhammad Aizat Tamlikha Ismail, Malaysia

Flossing to Fracturing – Subintimal Lithotripsy for Recoil Stenosis Modification Prior to Interwoven Stent Implantation
Jing Wen Ong, Singapore

CRITICAL ISSUES IN ENDOVASCULAR THERAPY

DAY 2 6 SEPTEMBER 2026

1410-1510	BTK (II)
Chair:	· Roberto Ferraresi, Italy · Junjie Ng, Singapore
Panellists:	· Pravin Lingam, Singapore · Shaun Chan, Singapore · Karthigesu Aimanan, Malaysia · Sariphat Orrapin, Thailand
	Advanced Crossing Strategies in Complex BTK Disease <i>Shaun Lee, Singapore</i> Is There a Role for Atherectomy Devices in BTK Disease? <i>Kalpana Vijaykumar, Singapore</i> Sirolimus for BTK Disease: Does It Improve CLTI Outcomes? <i>George Adams, United States</i> DES for BTK Disease: Why, When and How <i>Darius Aw, Singapore</i> Bioresorbable Scaffolds in BTK Disease: An Evidence Update <i>Ramon Varcoe, Australia</i> A Practical Guide to Selecting and Implanting BRS in BTK Disease <i>Steven Kum, Singapore</i>
1510-1550	How I Do It – Step by Step
Chair:	· Cheng Shin Chuen, Singapore · Skyi Pang, Hong Kong SAR
	Complex AIOD Intervention <i>Arada Kamsoontorn, Thailand</i> Rotational thrombectomy for management of long-segment SFA in-stent thrombosis <i>Jasmine Chua, Singapore</i> Complex BTK/BTA Intervention <i>Lester Chong, Singapore</i> Percutaneous Deep venous Arterialization <i>Shaun Lee, Singapore</i> Endovascular management of acute limb ischaemia with intelligent aspiration <i>Yann Goueffic, France</i>

1550-1630	Best Case Competition (II) Supported by OrbusNeich
Judges:	· Steven Kum, Singapore · Peter Robless, Singapore · Sadhana Chandrasekar, Singapore
	Antegrade PTA puncture, pedal arch crossing and rendezvous technique for recurrent ATA lesion <i>Louis Wai, Singapore</i> Retrograde Direct Puncture Using a Manually Bent Needle for a Heavily Calcified CFA Anastomotic Occlusion <i>Yuta Azumi, Japan</i> Hybrid Endovascular and Open Salvage of a Thrombosed Femoral-Tibial Composite Bypass Graft <i>Tharageswari Subramanian, Singapore</i> Controlled JETSTREAM Debulking With WINGMAN Route Creation and Tourniquet-Assisted Wire Bias and Flow Control <i>Yuji Ohno, Japan</i> Extravascular Plaque Modulation for Limb Salvage in Non-Crossable Calcified Tibial Disease <i>Syazwan Arif Saprudin, Malaysia</i>

1630 Prize Presentation
