

DAY 1

THURSDAY 1 AUGUST 2024

ROOM A

ROOM B

ROOM C

ROOM D

ROOM E

7.00am

Registration Open

8.30am - 9.30am

AEROLASE - POWERED BY BEAUTY TECHNOLOGY

Discover Aerolase lasers LIVE addressing Acne, Skin Rejuvenation, Vascular, Pigmented lesions and Full-field ablation with just one hand piece

Portable Aerolase lasers Neo Elite Nd:YAG 650 microseconds and Era Elite Er:YAG 300 microseconds technology safe for all skin types with zero consumables, no numbing required and no downtime (Neo).

Presented by Dr. Stephany Mulcahy, founder of DNTL Code in Broome and Dr. Cosima Karlbarger, founder of Dr. Cosima Medspa both renowned experts in restorative aesthetic medicine.

8.00am - 12.15pm

CADAVER WORKSHOP

(Ticket holders only, please arrive by 7.45am)

8.30am - 9.30am

REJURAN ESSENTIAL

REJURAN® is the newest, revolutionary Bio-Regenerator injectable in Australia, approved by the TGA and CE-certified in over 20 countries. Its cutting-edge DNA optimising technology produces natural and long-lasting results to reverse the signs of ageing and damaged skin

Rejuran ESSENTIAL workshop session will delve into Rejuran DOT technology and Polynucleotides, featuring a live demonstration of the injection technique.

We are thrilled to have three distinguished speakers for this session. Dr. Hosung Choi from Korea will present the cutting-edge Rejuran DOT technology. Joining him are local experts Dr. Eric Song and Dr. Jake Sloane. Dr. Eric will share fascinating client case studies on repair and regeneration, while Dr. Jake Sloane will provide a live demonstration of Rejuran injection.

Dr. Hosung Choi
Unlocking the Secrets of DOT-PN, a Powerful Regenerative Biostimulator for Dermal Enhancement

Dr. Eric Song
Recover Repair and Regenerate

Dr. Jake Sloane
Injection Techniques & Live Demo

9.45am - 10.45am

CRYOMED AESTHETICS

Mastering the Art of Regeneration with FILLED

Join internationally renowned Dr. Hassan Galadari for an insightful workshop revealing his global regeneration protocol, including lip techniques with ART Filler® and NCTF® Boost. 155 HA.

9.45am - 11.45am

PROFILO

PROFILO® WORKSHOP

Learn from leading industry experts Dr. Cara McDonald and Dr. Kirshni Appanna. This workshop offers practical tips to using ProfiLo treating acne scars, and achieving ultimate long-term results for Australian skin. Furthermore, you will hear a dermatologist's approach on assessing skin quality and how to improve skin integrity with market leading product - ProfiLo®.

9.45am - 10.45am

REJURAN ADVANCED

This session focuses on Rejuran applications, case studies, and advanced protocols, and includes a Live Q&A

Our expert speakers, who have thriving private practices, will present on Rejuran. World-renowned Professor Rungsima from Thailand, Dr. Hosung Choi from Korea, and local expert Dr. Gavin Chan will lead an in-depth discussion. They will share extensive customer case studies, explore multi-modal approaches, and outline advanced protocols.

Each speaker will offer insights to elevate Rejuran treatment to its highest level of efficacy. The session will conclude with a live Q&A, where these experts will answer your questions.

Professor Rungsima
Clinical Studies on Rejuran Range: How to Maximize the Efficacy

Dr. Hosung Choi
Clinical Application of DOT-PN: What's new and what's hot?

Dr. Gavin Chan
Improving the Rejuran experience

BTL

Discover Aerolase lasers LIVE addressing Acne, Skin Rejuvenation, Vascular, Pigmented lesions and Full-field ablation with just one hand piece

Portable Aerolase lasers Neo Elite Nd:YAG 650 microseconds and Era Elite Er:YAG 300 microseconds technology safe for all skin types with zero consumables, no numbing required and no downtime (Neo).

Presented by Dr. Stephany Mulcahy, founder of DNTL Code in Broome and Dr. Cosima Karlbarger, founder of Dr. Cosima Medspa both renowned experts in restorative aesthetic medicine.

11.00am - 12.00pm

SOLTA MEDICAL

Success on a Brilliant Foundation

Building foundational skin programs to deliver high return on time for all clients, all year round.

Brought to you by Solta and Deb Farnworth-Wood

11.00am - 12.00pm

SKINCEUTICALS

Demystifying the science of skincare for patients - better consultations for better business and patient outcomes

In this interactive session, Dr. Tania Romano (Head of Medical and Education) and Jennifer Chuah (Head of Commercial and Field) will highlight how you can use the science of skincare to boost business and drive sales in your clinic. You will learn about current trends in the Australian aesthetics market, how to complete a thorough patient-centric consultation, and how to simplify key scientific skincare facts to further engage your patient. There will also be a Q&A component and all attendees will receive a SkinCeuticals gift bag.

ZO SKIN HEALTH

Not all skincare is the same

Innovative approaches to skin restoration with ZO Skin Health by Dr. Catherine Law, Victorian Cosmetic Institute - followed by Teenage Acne - The Importance of using the correct skincare by Dr. Aman Bhinder - Clinic Auriq

12.00pm - 1.15pm

LUNCH

Level 3

12.15pm - 1.15pm

EVOLUS

Lunch served in room
Beauty is changing. Are You?

We invite you to evolve with us, as we question the status quo. Rui Avelar MD, Evolus CMO and Head of R&D speaks on Evolus, and Dr David Eccleston (UK), Dr Kristine Romine (USA) and Dr Cara McDonald (Australia) talk on their clinical experiences. If you're not evolving, you're standing still.

12.00pm - 1.15pm

1.15pm - 3.15pm

HUGEL

Assessment is key: A step-by-step guide for choosing the right product from the Hugel portfolio for male and female patients

Join Plastic Surgeon and Hugel International Key Opinion Leader, Dr. Konstantin Frank as he shares his expert insights on patient assessment and product selection. Dr. Frank will explore the Coma HA portfolio, discussing anatomical considerations, facial indications and product selection while explaining the reasons behind his choices. Not to be missed!

ALLERGAN AESTHETICS AN ABBVIE COMPANY

Innovate with the True Originals: Artistic expertise in Botox & Juvéderm Volux

How well do we know the most well-known brand. Exchange knowledge with Nurse Emily Schultz and Dr Vandana Chatrath to explore the aesthetic artistry with BOTOX® and JUVEDERM® VOLUX®. They might even have something extra special to share with you. Join us for Discovery Day and BE A TRUE ORIGINAL!

Emily Schultz RN, Certified Aesthetic Nurse Specialist & Clinical Consultant, Canada

Dr Vandana Chatrath, Dermatologist, New Delhi, India

3.30pm - 5.30pm

TEOXANE

The Glow Effect: Current Beauty Trends - Embracing the Longevity of Lip and Skin Aesthetics with Exclusive TEOXANE

Presenters Dr. Nabila Azib, Dr. Raymond Wu and Dr. Nik Davies.

GALDERMA

Galderma National Symposium; featuring NEXT by Galderma and live demonstrations led by 6 global and local aesthetic experts

Introducing NEXT by Galderma, a forward looking global research project presenting the movements and trends that may impact the future demand for aesthetic treatments. Then learn the latest injection techniques from leading Aesthetic experts with live injection demonstrations showing the Galderma Aesthetic Injectable portfolio.

5 Live Demonstrations | Dynamic Discussions | Interactive Insights | Transformative Takeaways

Please note sessions are subject to change.

DAY 2

FRIDAY 2 AUGUST 2024

7.30am Registration and Exhibition Open

8.15am Auditorium Door Opens

8.30am Auditorium Door Shuts

The Botulinum Toxin Treatment: The Forgotten Art and Challenges

To refine and optimise the results of Botulinum toxin treatment by focussing on the art of assessment and better understanding of functional and surface muscular anatomy on live subjects. This sessions will focus on the upper third of the face and all muscles affecting the smile. The behaviour of different Botulinum Toxin will be discussed

Optimise Upper Third of the Face with Botulinum Toxin

Steven Liew

- What to avoid?
- Anatomy of the Upper third
- Surface Anatomy Live model
- How I assess patient for treatment of the Frown line and forehead
- Live assessment and Marking
- Summary of Glabella Complex assessment: How I do it

Real Life Cases Panel Discussions: Why I treat it this way
