

26th ASIA-PACIFIC PROSTATE CANCER CONFERENCE

APCC26

Melbourne Convention & Exhibition Centre, Australia | AUGUST 13-15

Together In Discovery & Care

MOVING FOR THE BODY AND MIND

THURSDAY
13 August, 2026
1330 - 1730

This workshop will explore the wide-ranging benefits of movement and exercise for people living with prostate cancer, with a strong focus on practical application in clinical care.

Participants will learn from national experts in exercise oncology, covering targeted exercise interventions for patients undergoing hormone therapy, the role of cardiovascular exercise in improving physical and treatment-related outcomes, and pelvic floor exercises tailored to specific continence concerns.

The workshop will also highlight the impact of movement on mental health and nervous system regulation, including restorative practices such as Yoga and Qi Gong.

This highly practical session will equip nurses and allied health professionals with evidence-based knowledge and confidence to integrate exercise and movement strategies into patient education, support, and care pathways.

SPEAKERS

Prof Prue Cormie
Matthew Flinders Professor of Exercise Oncology, Flinders University

Ms Dale Ischia
Accredited Exercise Physiologist, Moving Beyond Cancer

WHO SHOULD ATTEND?

Exercise Physiologists, Pelvic Floor Physiotherapists, Psychologists, Nurses, Allied Health. *please wear comfortable clothing this session will involve movement.
