TECHNOLOGICAL ADVANCES IN RADIATION ONCOLOGY: AN INNOVATIVE WORKSHOP

THURSDAY
13 August, 2026
1330 – 1730

Advances in technology have transformed radiation therapy, leading to improved oncological outcomes and a reduction in treatment-related side effects.

In this practical and clinically focused workshop, leading experts will guide participants through the full patient journey from treatment planning and delivery to side effect prevention, assessment, and management.

The session will also explore the role of radiotherapy as treatment for localised prostate cancer, in salvage settings and in the management of advanced prostate cancer, highlighting how multidisciplinary care supports optimal patient outcomes.

Participants will leave with a clear understanding of current, evidence-based best practice, enhanced confidence in supporting patients and their families, and practical insights they can apply directly in clinical practice.

WORKSHOP CHAIRS

Dr Jane Crowe, General Practitioner,
Australian Prostate Centre

Mr Russell Briggs, Registered Nurse,
Prostate Cancer Foundation of Australia
(PCFA)

WHO SHOULD ATTEND?

This workshop is designed for nurses and allied health professionals involved in the care of people undergoing radiation therapy for prostate cancer.

1330-1345	Welcome & Program Overview
1345-1430	Targeted Precision: Modern radiation therapy for localised prostate cancer Dr Paul Conway, Radiation Oncologist, Icon Cancer Centre
1430-1500	Ready, Set, Radiate: Preparing the prostate cancer patient for radiation therapy Ms Louise Saliba, Practice Development Nurse, GenesisCare
1500 - 1530	Afternoon Tea
1530-1550	Behind the Beam: The radiation therapist's role in prostate cancer care Ms Denita James-Hillier, Practice Development Radiation Therapist, GenesisCare
1550-1630	Strategic Targeting: Radiation therapy in the advanced setting Dr Cristian Udovicich, Radiation Oncologist, GenesisCare
1630-1650	More Than Treatment: CNC support for men beyond prostate cancer radiation Ms Catherine White, Prostate Cancer CNC, GenesisCare
1650-1710	When Treatment Ends: Managing the side effects of prostate radiation Dr Fairleigh Reeves, Urologist, The Royal Melbourne Hospital
1710-1730	Providing care for prostate cancer patients: the British experience Ms Debbie Victor, Uro-Oncology CNS, Royal Cornwall Hospitals NHS Trust, London
1730	Conclude
