Corner Disc with Welded Tube

Aluminium sandwich plate design with high quality AISI 316
Tube also sold separately
Product code: CD-090-Tubebolt-1020

Code	Ømm	Material	Suits Wire	Tube I.D
CD-090	90	Aluminium	Up to 6mm	12mm

Corner Disc with Tube AISI 316

- ✓ High-Density polyethylene Inside discs to stop cables from grabbing
- ✓ Adjustable angle on tube bolt to allow for tensioning from different angles
- ✓ Longer length tube to help protect threads when tensioning
- ✓ Tube also sold separately
Product code: CD-150PR-Tubebolt-1020

Code	Ømm	Tube I.D
CD-150PR	150	21.3 mm

Variable Termination Discs AISI 316

150mm diameter variable termination discs are a sandwich plate design that adjusts to almost any required angle of the fabric corner.

The 12mm ID tube allows for tension adjustment of each individual side with 12mm threaded terminals. To clamp the two discs use a M10 hex head screws and hex nuts or nylock hex nuts.

(For vinyl shade corners)
Price includes 2 discs.

Code	Ømm	Tube I.D
CD-VTD	150	12mm

TOGGLE BOLTS

Toggle Bolt Head AISI 316

Threaded Rod Page 11 Threadlocking Compound Page 5

Use toggle bolt heads in conjunction with stainless threaded rod and a thread locking compound to make your own toggle bolt at any length up to 1 metre.

The wide jaw is designed to fit over thicker corner discs and anchor points.

Welding service available on request.

S234-14	14.0mm	316	34	74
S234-16	16.0mm	316	37.5	83

All sizes available from stock to suit wire or rope up to 45mm.
 "S" type thimbles are a smaller size and are well suited to wire balustrade.

Croc Swage Sleeves - Ferrules (Nickel Plated Copper)

- ✓ Heat treated for softer finish and stronger hold.
- ✓ Improved plating process to minimise flaking.
- ✓ Exceeds breaking strain of wire with no slippage.

Code	Suits Wire	Brand	D	L	A	H

PRORIG WIRE ROPE

ProRig stainless steel wire rope is produced by a single Korean manufacturer with stringent quality control procedures and more than 30 years experience in manufacturing wire rope products. Because ProRig wire rope comes from a single manufacturer you can be assured you are getting a consistently high quality product and none of the problems associated with budget wires. Miami Stainless has confidently supplied this wire rope in Australia now for over 20 years.

316

- ProRig Wire is the highest quality Korean made wire rope.
- Prices shown per metre are for lengths of wire cut from the roll.
- Roll prices work out cheaper per metre.
- 7x7 strand is semi-flexible wire that can be hand swaged.
- 7x19 strand is very flexible wire that can be hand swaged.
- 1x19 is the least flexible wire and will fatigue if bent around tight corners.
- 1x19 should be swaged with a hydraulic press.

ProRig saddles are 304 grade stainless, Econ & S322-05S are 316 grade stainless. S322-05S suits 5mm & 6mm bottlescrews. The smaller eye saddle has a neater appearance than standard saddles, as the eye is hidden behind the jaw of the bottlescrew or fork terminal. Measurements are taken from ProRig products, Econ products may vary slightly. Please specify ProRig or Econ range when ordering.

**6mm Econ Screw Eyes: H = 5, D1 = 12

*Pull out strengths are based on the maximum pull out loads achieved by using MGP 10

structural pine. They are intended as a guide only and a safety factor should be applied to these readings depending on the situation of use.

Much greater results can be achieved using hardwoods: for example Kwila will hold around 80-90% more tension.

PRO RIG

ORIGINAL DESIGN

Registered Design No. 12142/2010

- ✔ Extremely quick and easy to install in concrete.
- ✔ Simply core drill a 50mm hole, fill with grout and insert the plug.
- ✔ No need to cut and chisel any awkward shapes in the concrete surface.
- ✔ Attractive and stylish mirror polish finish.
- ✔ Sits flush with surface once installed to eliminate trip hazards when not in use.
- ✔ A quality 316 marine grade ProRig® product.
- ✔ Tested to 900kg's without deformation.

INSTALLATION TOOLS

Diamond Core Drill

Diamond core power drills are perfect for installing ProRig Original Design café blind anchor housings with a 50mm diamond core drill bit.

Code	Description	Max Hole Ø
PT-3505	1500W - 2100/950rpm	80mm

Diamond Core Drill Bit

Diamond core drill bits are specifically designed to core drill 50mm holes to suit ProRig Original Design café blind anchor housings.

Code	Description	Core Drill Length
DCD-50	50mm bit to suit PT-3505	450mm

RAFTER BRACKETS

New RB-30A

- Over 5 times stronger than other rafter brackets
- Made with high strength steel
- Only 2.5mm of deflection at the tile height when loaded to 1200kg
- Lower cost than other Rafter Bracket Assemblies
- Special Design Large Oversized Washers Included to spread the load over a larger area
- 2 through holes allow for fitting of Eye Bolts in 4 directions
- Shade sail can be connected at any angle

WIRE STRETCHING BED

Did you know that Miami Stainless has its own stretching bed in Burleigh Heads?

Our **20 metres, 80 tonnes stretching bed** is specially designed for the pre-installation stretching of wire and non-destructive testing of wire ropes, synthetic ropes, chains and shackles.

Need a long cable? We can handle any length.

We can apply load to 20 metres in one section however the unique design allows for stretching up to any length of cable as the cable can be tested in sections by passing it through the hydraulic cable grips and testing each subsequent section.

Need a large diameter cable tested?

Our machine will stretching up to 32mm diameter wire rope.

TERMS & CONDITIONS

COPYRIGHT MIAMI STAINLESS 2026. All images contained in this catalogue are the copyright of Miami Stainless and are not to be copied without permission.

Price Match Guarantee: The guarantee applies only to items that Miami Stainless has in stock. The items must be identical and Miami Stainless must be able to verify the competitors offer being made. The Price Match Guarantee request must be made at the time of purchase, and does not include quotes from online or sole traders. The item quantity for the Price Match Guarantee must be the same as that on the offer.

Specifications: Whilst every effort has been made to ensure all product specifications are accurate, customers must get confirmation of these before placing an order if they are important to the purchase. Miami Stainless will not be held responsible for any deviation in product specifications contained within this catalogue.

Quality: The stainless steel hardware you purchase from Miami Stainless branded as ProRig or Blue Wave comes from suppliers of only the highest quality products. Although these higher quality products are more expensive for us to buy, the end user will be more than satisfied with its long-term dependability. Not all 316 grade stainless steel is the same quality. We regularly test samples from other suppliers and find that dependable, trusted quality is hard to come by. Cheap stainless can end up being very expensive if it fails in an installation and you are required to replace all of your original work. As an installer of stainless products, you want a product that will not let you down. Miami Stainless is pleased to offer you dependable, trusted quality products from the ProRig and Blue Wave ranges at a reasonable price.

We also offer products from the ECON range. Whilst being a durable, usable product that satisfies the buyer needing to purchase based on a price point, the same high level of quality, usability and long-term satisfaction as the ProRig and Blue Wave ranges should not be expected.

Payment: Payment is required before we can dispatch your order. We accept Visa and MasterCard. You can also transfer the amount into our account via EFT - please provide a bank-generated remittance as confirmation of transfer.

Bank Details: WESTPAC - BSB: 034 238 - ACCOUNT: 174 217
ABN: 62 101 809 796

WHAT OUR CUSTOMERS SAY ABOUT US:

Miami Stainless has over many years given me top class service. They always have the stock I need and is despatched promptly. The staff are very helpful and know their products well.

Neil Harding

I stumbled into this organisation while looking for steel brackets for my roof. First of all they were much cheaper but secondly I'm blown away I've received my item within 24 hours of placing my order. I'm in WA and they're based in QLD! You all rock! I'll be going back for any of my steel needs
