

WHY CW PRODUCTS IS AUSTRALIA'S LEADING SUPPLIER OF ROLLER SHUTTERS AND HOME AUTOMATION PRODUCTS

If you're in the Roller Shutter or Home Automation business, you really should consider CW Products for the supply of your roller shutters, roller shutter accessories and home automation products!

CW Products is one of Australia's leading manufacturers and wholesale suppliers of high quality roller shutter products, as well as supplying high quality automation and control solutions for most window furnishing applications.

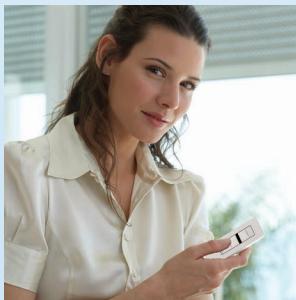

With state-of-the-art manufacturing facilities and processes, coupled with over 40 years industry experience, we take pride in supplying the Australian market with the highest quality and widest range of roller shutter products.

CW Products also supplies some of the world's best automation products and solutions for roller shutters, awnings, blind and home cinema projection screens.

We have been working with world leaders in tubular motorisation, SIMU France for over 40 years and are the exclusive Australian distributors. We also offer our latest Maxim Motor range and accessories. A high quality, value for money product range delivering affordability that allows you to be competitive in the marketplace.

At CW Products we back our high quality product range with exceptional service, industry-best technical support, as well as always ensuring readily available supply of product.

With CW Products as your supplier, your Roller Shutter and Home Automation business will start rolling in!

INNOVATIVE ROLLER SHUTTER SOLUTIONS

Our ongoing and extensive research and development ensures that CW Products leads the way in providing the Roller Shutter and Home Automation markets with highly innovative, cutting-edge solutions.

AUSTRALIA'S LEADING SUPPLIER OF HIGH QUALITY ROLLER SHUTTERS AND HOME AUTOMATION PRODUCTS!

03/26 80-200-101

A HISTORY OF EXCELLENCE SPANNING OVER 40 YEARS

CW Products was established in 1984 by Dr Ibrahim Elassaad, a specialist solar engineer. His vision was to offer the best and most unique motorisation and roller shutter solutions for the Australian market. Over the years, his continued focus, ongoing research & development, and application of modern technology, has grown the company from a small family business to one of Australia's leading manufacturers and wholesalers of roller shutters and automation products.

Today, CW Products has distribution branches around Australia, with its head office and state-of-the-art manufacturing plant and warehouse in Murray Bridge, South Australia.

STATE-OF-THE-ART MANUFACTURING PROCESSES AND FACILITIES

Over the years, CW Products has invested considerable resources in developing their state-of-the-art, 9000m², Murray Bridge national manufacturing plant and warehouse/distribution centre. The plant offers the latest high-capacity European precision roll forming, assembly and wrapping machinery, coupled with the latest computer information systems.

CW Products has been able to combine high quality standards with technological innovation and deliver high service guarantees. With this commitment to continuous improvement you are assured of always receiving Australia's best quality products with accuracy and speed. Now that's great value!

AUSTRALIA'S HIGHEST QUALITY ROLLER SHUTTER PRODUCTS GUARANTEED!

At CW Products, we take pride in manufacturing the highest quality roller shutter products as we only source the highest quality components, aluminium coils and extrusions from world leading suppliers. All our roller shutters are taken through our state-of-the-art, three-stage paint process ensuring a superb finish that withstands the harsh Australian climate.

All CW Products roller shutters have a 5 Year Roller Shutter Guarantee that covers the shutter profile, paint finish & construction. And a 5 Year Guarantee on motors, 2 Years on hardware and accessories, 1 Year on solar panels, batteries, controllers & all electronics.

MADE-TO-MEASURE ROLLER SHUTTERS OR WHOLESALE LENGTHS

Whether you're a manufacturer, installer or retailer, CW Products offers Australia's largest range of roller shutter profiles and accessories, including wholesale lengths or made-to-measure, precision cut roller shutters.

We offer quick turn around for both the wholesale and made-to-measure markets. Irrespective of the size of your operation, CW Products has the right solution for your business. Whether you need fast turn around wholesale, full length orders, or you prefer someone to take the hassle out of costly stock holdings and manufacturing, CW Products can supply you with high quality roller shutters on time and at a great price!

COMMITTED TO SERVICE, QUALITY, VALUE AND INNOVATION!

CW Products was built on a culture of outstanding service levels, high product quality and ongoing innovation, and has hence become the supplier of choice for many Roller Shutter and Home Automation businesses around Australia.

Added to this is our continued after sales support, with our helpful and professionally trained team, which provides excellent service and value to anyone that does business with CW Products.

CW PRODUCTS ALSO OFFERS WORLD BEST AUTOMATION SOLUTIONS

CW Products also supplies the most advanced motorisation solutions with SIMU automation products for roller shutters, awnings, blinds and home cinema projection screens.

Founded in France in 1952, SIMU is the inventor of the tubular motor and SIMU Hz radio technology, making it a world leader in automation. With over 8 million motors in constant use worldwide, and a reputation for technological innovation, high quality and reliability, SIMU motors are backed by a 5 Year Guarantee!

When you work with CW Products and the SIMU range of high performance tubular motors and control systems, you'll come to understand why SIMU really is the professional's choice!
