About us

At Blind Expert, we provide specialized tools that simplify how you do quoting, costing and product tech for blinds, curtains, and shutters. Our solutions are Excel based, making the tech familiar to all! In many cases, tools are pre-configured with the parameters for commonly used wholesalers and suppliers, improving overall efficiency immediately.

Reduce Errors

Seamlessly integrate into your existing workflow to minimize manual calculations and reduce the risk of errors.

Enhance Accuracy

Use our costing and pricing tools to ensure processes like grid price production and quoting are consistently accurate and reliable.

Boost Productivity

Streamline quoting, pricing, and order management processes to enhance overall productivity and workflow efficiency. Save time, save waste.

Improve Efficiency

Provide customizable tools that adapt to your business needs, making your operations smoother and more effective.

Subscription model

Subscription plans offer pay-to-use access to our comprehensive suite of Excel-based tools, specifically designed to meet the unique needs of the blind, curtain, and shutter industry. These tools include quoting systems, bill of materials costing, price grid creation, customizable sales order forms, and a variety of technical calculators and analyzers.

Subscription plans let businesses choose the access level that best fits their needs. You can download our tools from www.blind.expert and use them as long as your subscription is active.
