

NSW WIOA Water Industry Operations Conference 2024 Exhibitor Presentations

Speaker Information | Introduction Sheet

Name: John Weaver

Position / Title: Pre-Contracts Manager

Employer: Interflow

Presentation Title: Is your Tender Specification ‘specific, certain and enforceable’?

Description of Presentation:

This presentation will explore how tender specifications that are ‘specific, certain and enforceable’ unlock value for asset owners and their communities.

The specification is one of the most critical documents within a tender. When done right, it provides contractors with a deep understanding of what is required and allows them to develop a solution that meets a client’s needs.

We’ll explore best practice for design specifications as well as the ‘big picture’, including community, safety and environmental considerations.
