

## WCVD10 Poster Number Allocation

Location: Exhibit Hall C (Level 2)

Set-up: Saturday, July 27, 09:30 – 13:40

Take-down: Monday, July 29, Before 16:30

Poster Board	First Name	Last Name	Paper Title
30	Michelle	Aleo	Anti-inflammatory effects of oclacitinib are comparable to prednisolone in a model of house dust mite-challenged laboratory Beagle dogs.
37	Leticia Talita	Baretta	Peripheral vestibular syndrome in a dog following the use of a long-lasting otic medication containing florfenicol, terbinafine hydrochloride, and mometasone furoate
25	Renata	Bastos	Comparison between the Uni-test®PC multiple tip device and the DuoTip-test®III double tip device in skin prick tests in dogs with atopic dermatitis
32	Emmanuel	Bensignor	Oclacitinib is less effective than ciclosporine for the control of otitis and/or pododermatitis associated with atopic dermatitis in dogs.
8	Emmanuel	Bensignor	Efficacy of 3% chlorhexidine wipes on skin dysbiosis in atopic dogs: a multicentric prospective open field study
54	Emmanuel	Bensignor	A spot-on product with antiseborrheic properties as a useful adjunctive treatment for granulomatous sebaceous adenitis in dogs: a comparative controlled study
46	Alexis	Berrocal	Eighteen dogs with nasal eosinophilic folliculitis and furunculosis (clinical and pathological findings).
22	Fernanda	Borek	IL-33 immunoreactivity in different clinical aspects of canine atopic dermatitis
58	Cristiane	Botelho	Effectiveness of afoxolaner on furuncular myiasis in two dogs naturally infested with Dermatobia hominis (Diptera: Cuterebridae)
62	Cristiane	Botelho	B-cell lymphoma in the tympanic bulla and renal involvement in a feline with peripheral vestibular syndrome
26	Luke	Boyden	Global changes in pet owner sentiment towards canine pruritus treatments: a retrospective Twitter/X based study spanning two 5-year periods between 2009 – 2022
38	Nicole	Brogden	Usability and physicochemical properties of commercial products for canine otitis externa
60	Juan David	Carbonell	Facing the Reality: Gastrophilus inermis and the tenacity of skin lesions despite ivermectin and deltamethrin treatments
59	Juan David	Carbonell	Culicoides spp. identification on a horse farm with insect bite hypersensitivity
15	Flávia	Carvalho	Feline Phaeohyphomycosis by Penicillium spp. in the city of Vassouras, Rio de Janeiro, Brazil: case report
23	Yuan	Chang	The prevalence of serum allergen-specific IgE detected with western blotting method in canine atopic dermatitis in south-eastern China
24	Maria	Christian	Study on the storage stability of allergen-specific IgE against house dust and storage mites in serum of dogs with a focus on warm climate and exposure to sunlight
40	Noëlle	Cochet-Faivre	Feline suppurative otitis: a descriptive retrospective study
69	Diego	Dacak	Cutaneous myxosarcoma in a guinea pig (Cava porcellus).
61	Diego	Dacak	Tungiasis in african pygmy hedgehogs (Aleuterix albiventris).
1	Alison	Diesel	Cutaneous salmonellosis in an immunosuppressed dog.
6	Sarah	Ehling	An ex vivo model of canine deep pyoderma with Methicillin-resistant Staphylococcus pseudintermedius
31	Tássia	Ferreira	Evaluation of oclacitinib and prednisolone combined therapy for the control of atopic dermatitis in dogs
33	Ranieri	Gaertner	Accuracy of different concentrations of bovine, pork, chicken and soybean protein extracts for atopy patch test in dogs.
14	Marina	Garcia	Critically Appraised Topic on canine leishmaniasis: does treatment with antimonials and allopurinol have the same clinical and clinicopathological efficacy as treatment with miltefosine and allopurinol after one month of treatment?
43	Brenda	Rodrigues	Non-surgical management of cholesteatoma in a one-year-old Maine coon cat and CT follow-up
3	Vanessa	Gmyterco	Identification of Staphylococcus spp species by mass spectrometry (MALDI-TOF-MS) and in vitro sensitivity profile of isolates obtained from superficial pyoderma in dogs
16	Keylla	Hörbe Steffen Dos Santos	Atypical fungal infection caused by Rhodotulra sp. in a cat
27	Junko	Ike	Ciclosporin-induced psoriasisiform-lichenoid dermatosis in four dogs:reduction of ciclosporin and systemic antibiotic therapy are key to treatment
44	Akihiro	Imai	Use of a diode laser to treat ceruminous gland adenomas and to do a myringotomy for otitis media in a cat
17	Ichiro	Imanishi	Potential co-sensitization and cross-reactivity of pork allergens in dogs with adverse food reactions.
36	Pierre	Jasmin	Comparison of the efficacy of a gentamicin, miconazole and hydrocortisone aceponate formulation and a florfenicol, terbinafine and mometasone furoate formulation in the treatment of canine otitis externa with a focus on onset of action
72	Pierre	Jasmin	Repeatability and inter-instrument agreement of clinically feasible skin color measurements in dogs
56	Minjeong	Kang	Hypercalcemic crisis associated with the resolution of calcinosis cutis in a dog
57	Yeong-hun	Kang	Efficacy of an oral zinc supplement along with an essential oil spot-on in Pomeranian dogs with hair cycle arrest (alopecia X): an open label pilot study
21	KEI	KASAI	Suppression of IgE production and allergic reactions in vivo induced by caninized anti-IgE antibody CRE-DR-B
4	Min-Sun	Kim	Evaluation of the penicillin binding protein 2a latex agglutination test as an alternative rapid method for detecting methicillin resistance in Staphylococcus pseudintermedius
9	Min-Sun	Kim	Chlorhexidine digluconate and antimicrobial susceptibility in pathogenic and nonpathogenic Staphylococcus spp. isolated from canine skin in Korea
55	Mélanie	Legain	Management of sebaceous adenitis with olive oil applications: a retrospective study of twenty-two dogs
73	Mélanie	Legain	Speed and amplitude of diffusion assessment of a spot-on based on natural ingredients in a dog model of tape stripping
34	Isabelle	Lesponne	Adequacy of a new hydrolyzed protein-based diet designed for growing puppies with AFR: a case series
52	Carmen	Lorente-Méndez	Congenital non-epidermolytic ichthyosis in two littermate, Yorkshire-mixed dogs
11	Carmen	Lorente-Méndez	Safety and efficacy of bacterial autogenous vaccines in chronic, recurrent or antibiotic-resistant pyodermas
41	Carmen	Lorente-Méndez	Prevalence of chronic or recurrent infectious otitis externa and breed risk
70	Alberto	Martin Cordero	Resolution of an auricular adenocarcinoma with a combination of polypectomy snare traction and cryoablation
64	Mariana	Mascarenhas	Vestibular syndrome associated with subcutaneous hemangiosarcoma in a cat
7	Whitney	McCooy	Assessment of a novel technique to create a homogeneous bacterial suspension from clinical samples of canine pyoderma for comparative diagnostic laboratory evaluation
29	Erin	McDonald	Oclacitinib treatment reduces activation and pro-inflammatory cytokine production in canine T-cells
13	Callie	Miller	Mycobacterium avium infection in a domestic shorthair cat following hyaluronic acid dermal filler injection
63	Keita	Mori	Canine cutaneous epitheliotropic lymphoma treated with oclacitinib in 10 dogs: a retrospective case series
5	Andréa	Nuñez	Susceptibility of strains of coagulase negative Staphylococcus from the external ear in healthy cats
20	songju	Oh	Indoor mycotoxin exposure on atopic dermatitis in companion dogs
75	Chiharu	Ohira	Improvement of inflammatory and cutaneous barrier function by dermal exposure to Cold Atmospheric-Pressure Plasma in atopic dermatitis symptoms.
19	Acácio	Pacheco	In vitro susceptibility profile of ozonized copaiba oil against Malassezia pachydermatis isolates from dogs
65	Alessandra	Pereira	Dermoscopy features of cutaneous vascular tumors in dogs- case series
67	Ricardo	Perondi Mendes	Cutaneous lymphangiectasia in dog: a case report
45	Jason	Pieper	Prevalence of canine cutaneous autoimmune and immune-mediated diseases at a tertiary hospital in the Midwestern United States
50	Nadine	Müller	Feline plasma cell pododermatitis and nasal swelling due to lymphoplasmacytic dermatitis: A case report
71	Nicoló	Radaeli Atanasio	Atypical transmission of sporotrichosis in two patients after ovariohysterectomy in Southern Brazil
35	Markus	Rose	Efficacy of gentamicin and posaconazole against European isolates (2017-2020) of Staphylococcus pseudintermedius and Malassezia pachydermatis from dogs with otitis externa
2	Wayne	Rosenkrantz	Retrospective Analysis of the Prevalence of the Different Mycoplasma Species in the Canine Cutaneous Microbiome Between Healthy and Diseased Populations
66	Fabia	Scarampella	Dermoscopic features of infundibular keratinizing acanthomas and epidermoid cysts in dogs
53	Sergi	Segarra	A case report on the effects of a sphingomyelin-rich lipid extract collar in a dog with sebaceous adenitis unresponsive to ciclosporin and shampoo therapy
10	Clarissa	Souza	Efficacy of chloramphenicol based on previous higher susceptible breakpoint for the treatment of canine pyoderma
49	Clarissa	Souza	Further experience with the use of polysulfated glycosaminoglycan as a steroid-sparing therapy for pemphigus foliaceus in dogs
39	Clarissa	Souza	Conformational changes predisposing ear disease in Highlander cats
48	Haley	Starr	Microarray gene expression analysis of lesional skin in canine pemphigus foliaceus
28	Dalit	Talmi Frank	A comprehensive omics approach reveals the mechanism of action of Oclacitinib Maleate in the IMQ-induced dermatitis model
68	Chaiyot	Tanrattana	A Clinical case report on the use of Taheebo (IPET-S) as an alternative medicine for the treatment of feline cutaneous mast cell tumor
51	Ane	Urkiola Enparan	Vitiligo in a banded mongoose: a case report
47	Ane	Urkiola Enparan	Canine hematochezia: clinical and histopathological description of a case
12	Analís Gabriela Villarreal Laguna	Villarreal Laguna	A case of canine leproid granuloma in Panama City, Panamá
18	Analís Gabriela Villarreal Laguna	Villarreal Laguna	First recent reports of sporotrichosis in Panama city, Panama
74	Ji-Seon	Yoon	Variations of biophysical parameters of the skin with age, gender, and breeds in dogs

# WCVD10 Poster Boards Location

Exhibit Hall C (Level 2)

Set-up: Saturday, July 27, 09:30 – 13:40

Take-down: Monday, July 29, Before 16:30
