KNOWLEDGE BROKERING FUTURES with Catherine Ball

DEMAND for Knowledge Brokering
will go

Society demands to be empowered
by research...

but we need institutional
and individual BRAND
PERSONAS

Build business capability

OWN your VALUE in business GOVERNANCE

find you, SPONSORS who will fight for
you, who are different from
MENTORS who guide you

UP and UP

Networking is WORK

Building faith Credibility
and TRUST in SCIENCE

anticipate
unintended
CONSEQUENCES
of decisions

WHAT'S IMPORTANT to the people
who are important TO YOU?

them

CLIMBING DECISION TREES

with Tony Worby on Whadjuk Noongar Country

Building strategic relationships FIRST
like getting to know your neighbours

(before you ask them
to take your bins in)

FOR THE JACKS OF ALL TRADE

with Kate Fox

Being able to speak 'STEM' is a
VALUABLE SKILL

Linking the **CORE**
of technological advancements

to the **PERIPHERY**
end users collaborators
experts in **OTHER FIELDS**

Remote **MEDICAL CARE DEVICES**
need to be developed with
a pathway to **AVIATION**
... knowledge brokering is
that pathway

PANEL DISCUSSION

Working with people who have different world views:

1. Find their **MOTIVATIONS** and **VALUES**

2. Build **TRUST**

3. Find a strategy to get them on board with your project using **WHAT YOU KNOW ABOUT THEM**

There's power in **SIMPLICITY** to speak without jargon
ADVOCATE for **RESEARCH** with

Passion enthusiasm honesty
integrity

Sometimes even your best efforts won't stop **POLITICIZATION** of **SCIENCE**
