

Varun Mehta

Amazon Web Services

Varun Mehta, a Certified Fraud Examiner (CFE), brings over 20 years of expertise in Fraud and Security Intelligence. He has partnered with major governments, public safety teams, financial institutions, and commercial entities worldwide, spanning North America, Europe, Asia-Pacific, and the Middle East. His extensive background includes working in EMEA and emerging markets and leading fraud, waste, and abuse initiatives in Asia-Pacific's government sector.

Varun's experience covers cybersecurity, intelligence, law enforcement, customs, tax agencies, border security, healthcare, audit, and integrity in government operations. His core strength lies in applying analytics ethically to detect and investigate inconsistencies in government and commercial sectors.

Currently, Varun is with AWS's public sector industry team, supporting the APJ region's citizen experience and data strategies. His work focuses on public finance, revenue, and government agency modernization, addressing complex issues in state and federal functions.
