GARY KAZANTSEV

Head of Quant Technology Strategy
Office of the CTO
Bloomberg L.P.

Gary Kazantsev is the Head of Quant Technology Strategy in the Office of the CTO at Bloomberg, where he leads initiatives at the intersection of quantitative technology, machine learning, and finance. He is also an adjunct professor at Columbia University, a member of the Bank of England AI Consortium, and the FSMB AI Secretariat.

With over 25 years of experience in technology and academia, Mr. Kazantsev has held advisory roles with FinTech and machine learning startups and has been part of Bloomberg since 2007. Prior to his current role, he created and led Bloomberg's Machine Learning Engineering group, spearheading projects in computational linguistics, sentiment analysis, market impact indicators, and predictive modeling. He is active in the global data science community, serving on program committees and advisory boards, and co-organizes the annual Machine Learning in Finance conference at Columbia University.

Gary earned degrees with distinction in physics, mathematics, and computer science from Boston University.
