

SPEAKER PROFILE

Hee Mun Park

.....
Senior Research Fellow
KICT

Hee Mun Park is a Senior Research Fellow at the Korea Institute of Civil Engineering and Building Technology (KICT). He specializes in advanced pavement design, pavement performance evaluation, and infrastructure asset management. Dr. Park has extensive experience in research and international cooperation projects related to road engineering and pavement technology. His work focuses on improving the durability, safety, and sustainability of transportation infrastructure through advanced design and analysis methods.
