How Do We Think of Civil Society?

The term “civil society organization” refers generically to organizations

not based in government, and
not created to earn profit

ADB defines CSOs as nonprofit organizations independent from the government, which operate around common interests. They vary in size, interests, and function, and include nongovernment organizations (NGOs), youth groups, community-based organizations, independent academic and research institutes, professional associations, foundations, faith-based organizations, people’s organizations, and labor unions. CSOs represent interests of their members or others.

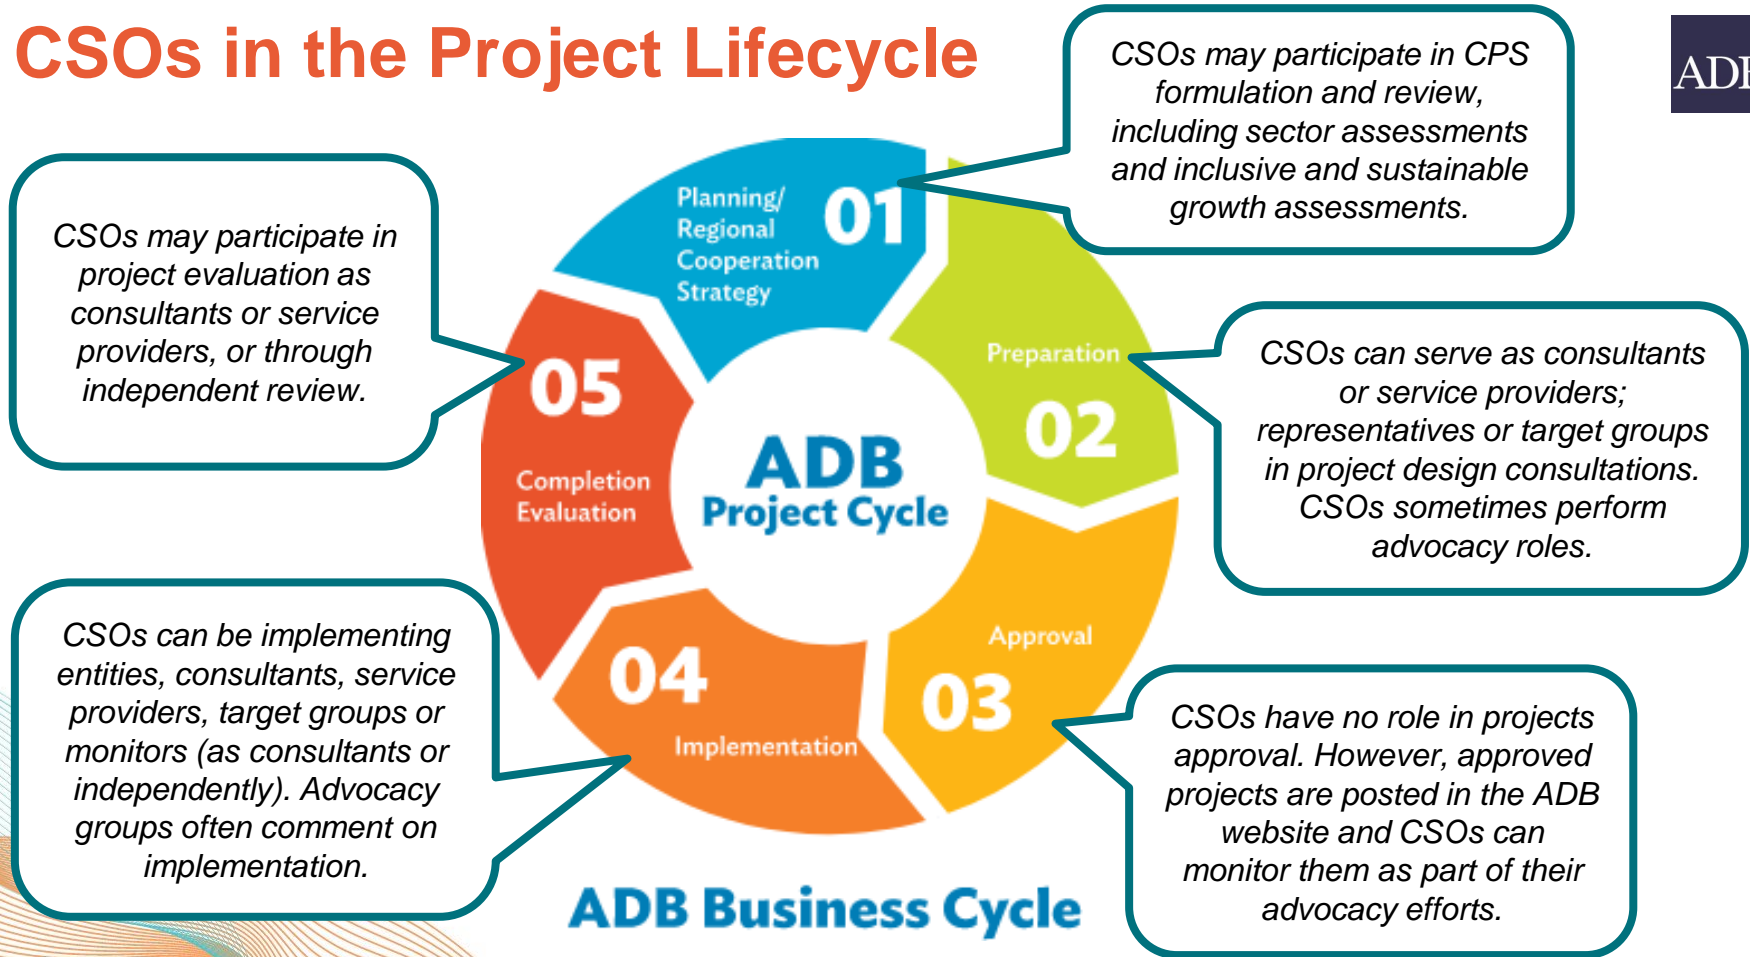

How Do We Engage with Civil Society?

- 1 Consultations and Advisory
- 2 Project Components (CSOs contracted as service providers)
- 3 CSO-Specific Funds [RARE]
- 4 Events and Partnerships

CSOs in the Project Lifecycle

Now Let's Talk Business

**ADB does not provide grants or
accept unsolicited proposals**

**CSOs are treated as contractors and ADB
strictly follows best practices in
procurement**

What Does This Mean?

CSO: You are a Consultant to ADB!

ADB not a donor to be “pitched” to

CSOs not expected to co-finance projects

CSOs compete against the private sector

CSOs can compete on price

International vs National Eligibility

International Firms

- ❖ Legally incorporated in an ADB member
- ❖ CSOs that are not incorporated must provide proof that they are duly established and legally capacitated to enter into binding and enforceable contracts with ADB
- ❖ Firms are considered international if they are based outside the country where the project is being conducted.
- ❖ INGOs can apply for international postings if HQ or an office outside the country joins the bid

National Firms

- ❖ Legally incorporated in the country where the project is occurring
- ❖ INGO local offices can apply for national positions if it is the local office applying

International Individuals

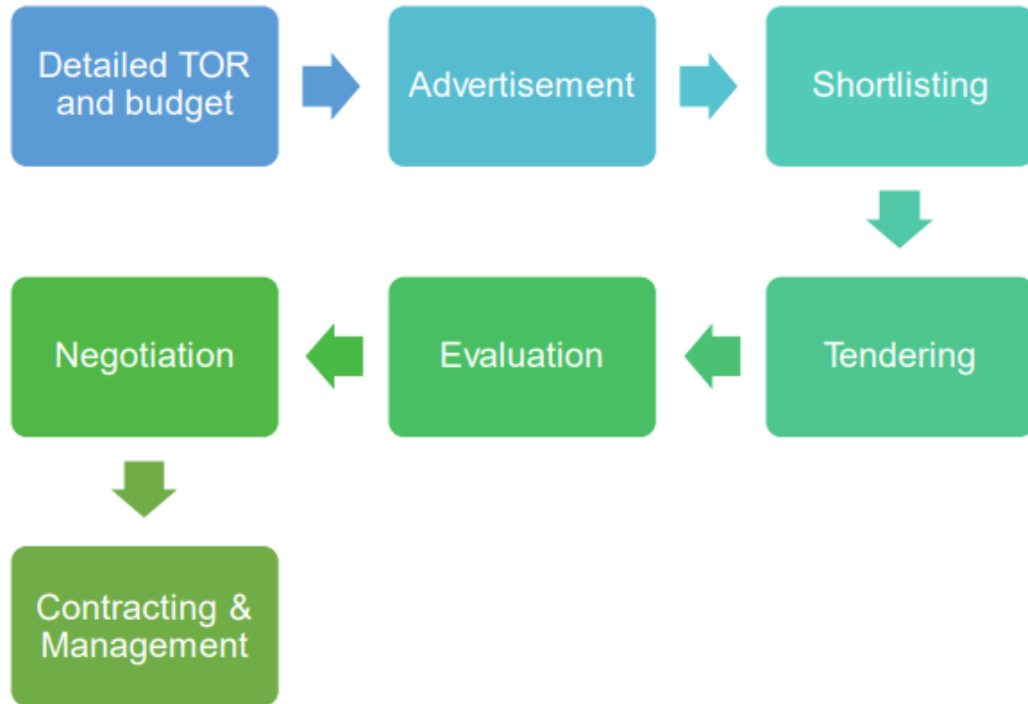

- ❖ Minimum Bachelor's degree
- ❖ Minimum three years of international professional experience
- ❖ At least one international assignment in a similar geographic area

National Individuals

- ❖ Citizen of the country or legally resides and is eligible to work in the country where the project is occurring.
- ❖ Minimum Bachelor's degree
- ❖ Minimum three years of work experience
- ❖ Nationals of the country can also apply for international positions if they have the requisite experience.

Budgets for International Contracts are Oftentimes Greater

Competitive Recruitment Process

Direct Contracting

Direct Contracting is a Non-Competitive contracting method where there is **NO ADVERTISEMENT** and individuals are directly selected

- ❖ Small assignments (generally < \$100k) or
- ❖ When only one consultant is available or qualified or has exceptional experience.
- ❖ A useful “stepping-stone” to larger contracts

How to Be Considered for Direct Contracting Opportunities?

- ❖ Get “on the radar” – know your ADB counterparts – attend events
- ❖ CSO Anchors are focal points for CSOs in each ADB field office, and a list of CSO Anchors and contact details can be found on the NGOC website.

Let's Talk About CMS (ADB's Consultant Management System)

Tips for CSOs

Remember not to treat an ADB contract as funding for your organization. Instead play the role of the service provider that ADB requires.

- ❖ Maximize the information, education, and communication resources of the ADB website. Be educated on our institutional requirements.
- ❖ Collect relevant business intelligence – NETWORK! If possible, reach out to ADB HQ in Manila and the Resident Missions and meet the staff working there.
- ❖ Regularly monitor the website and CMS for new opportunities that might be a good fit for your organization.
- ❖ Register for alerts for new postings
- ❖ Consider individual consultant contract opportunities
- ❖ Express interest!
- ❖ Ensure that your organizations comes across as highly professional and easy to work with. Attention to detail matters.

Tips for CSOs - to Win!

- ❖ English is ADB's working language. Ensure your organization has a staff member who can put together documentation in English.
- ❖ Understand the country, project, and client requirements
- ❖ Study the bidding documents and understand the selection method and evaluation criteria. Know the contract!
- ❖ Prepare a responsive and strong technical proposal
- ❖ CSOs can cover all costs and overheads from ADB contracts. Prepare budget proposals that break down and cover all indirect costs
- ❖ Engage a dedicated administrator with strong finance skills to manage your ADB contract and include the administrator in your proposal
- ❖ Keep good records and be prepared to provide clear statements of consulting inputs
- ❖ Focus on Performance and Reputation for successful work. ADB "rates" consultants upon completion of contracts and this is logged in the system for staff to reference for future contracts

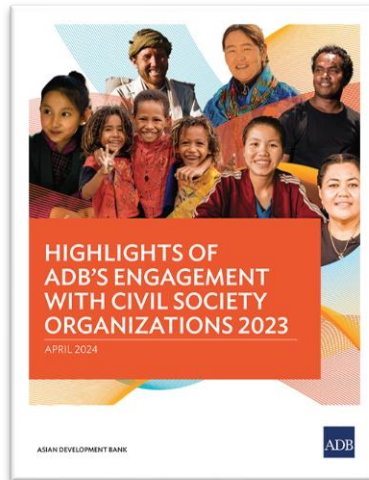

WHAT DOES NGO DO?

- 1** Provides institution-wide support to ADB engagement with civil society organizations
- 2** Supports ADB responses to civil society advocacy and policy and project concerns
- 3** Participates in OneADB project teams and provides training on civil society engagement
- 4** Monitors and provides knowledge on civil society engagement in ADB operations and in DMCs
- 5** Organizes key events involving civil society organizations—most notably at the ADB Annual Meeting

The prequalification of contractors are undertaken for most large, ADB financed civil works contracts, turnkey contracts and contracts for the supply of expensive and technically complex equipment. ADB reviews and approves the prequalification process conducted by the Borrower's executing agency and publishes lists of prequalified contractors for contracts with estimated value of \$10,000,000 and above.

Consultants to Register in CMS (cms.adb.org)

Welcome to the Asian Development Bank's Consultant Management System

Consultant Management System (CMS) is an integrated web-based system that supports the ADB's consulting services recruitment, from advertising the opportunity to awarding consulting contracts. This portal will enable users to work with the different facilities available in CMS.

Consultants create and update their profile, search opportunities, send Expressions of Interest (EOIs), respond to Non-Committal Inquiries (NCIs), and prepare and submit proposals. Login to the system by typing in your registered email address and password.

Since CSRN is now integrated in CMS, consultants are encouraged to complete their full registration to help facilitate EOI submission by tagging project and consulting experiences entered in their profile.

[Click here to know who can register as consultants in CMS.](#)

By using this service, you are accepting the [CMS Terms and Conditions](#).

ADB Project Team Members can access all CMS functions like creating a selection, advertising opportunities, sending Non-Committal Inquiries (NCIs), distributing Request for Proposals (RFPs), sending Notice to Proceed (NTPs), and approving requests, even while working outside of the ADB network. Login to the system by typing in your ADB Self-Service Username and Password.

Executing Agencies (EAs) can access Consulting Services Recruitment Notice (CSRN) to post consulting opportunities for ADB-financed projects. Login to the system by typing in your registered Username and Password.

To obtain an EA account, email your ADB Project Officer and copy csrn@adb.org with the following details:

1. Email address of the agency representative
2. Full name of the agency representative
3. Name and address of the agency
4. Duration of the recruitment for the project

Consulting Services Recruitment Notice (CSRN)

The Consulting Services Recruitment Notice provides detailed information on the consulting services required for ADB-financed or administered projects. The CSRN includes the terms of reference and is posted on ADB's website for at least one month for firms for EA-administered projects, 15 days for firms for ADB-administered projects or 7 days for individual consultants before shortlisting.

This will provide consultants sufficient time to prepare EOIs that are more specific and focused on the project's requirements.
