

Fecal Sludge and Septage Management and Hybrid CORE Fecal Sludge Treatment Plant Technology

About Dd Builders

DD Builders is an emerging name in the Faecal Sludge and Septage Management (FSSM) field. After 14 years of research and development by DD Builders, we developed a breakthrough technology in FSSM: the Hybrid CORE Fecal Sludge Treatment Plant.

Our Solutions

The Hybrid CORE Fecal Sludge Treatment Plant is a patented and nationally-awarded technology that requires little land area and only a single operator. It is highly efficient compared to other technologies out there.

Our other services revolve around fecal and septage management.

Interactive Session

27 October, 2:00–2:30 p.m.
 (GMT +8, Manila time)
