

# 2023 ASIAN REGIONAL FORUM ON INVESTMENT MANAGEMENT OF FOREIGN EXCHANGE RESERVES

Bali, Indonesia, 25 - 27 October 2023

## **Asya Surmalyan**

Leading Specialist

Investment and Settlement Systems Management and Development Division

Financial Markets Department

National Bank of Georgia

**Asya Surmalyan** is entrusted with overseeing the management of static data for critical systems such as Wallstreet Suite, Omnifi, and GSSS (Georgian Securities Settlement Systems). Her responsibilities encompass various facets of ensuring the robust operation of these essential systems, including liaising with critical system suppliers, conducting system monitoring, actively engaging in system updates and upgrades, and conducting financial data analysis to facilitate informed decision-making within the department.

With a professional tenure of 5 years at the National Bank of Georgia, her first and enduring employer, Ms. Surmalyan has seamlessly integrated herself into the System Development Division. She has harnessed invaluable insights and knowledge from her accomplished colleagues, diligently merging her past per present role.

In 2021, Ms. Surmalyan attained her Master of Business Administration with top honors from Georgian American University. Her academic journey included an array of courses, such as Derivatives Markets, Business Modeling, Financial Mathematics, and Statistics.
