About the Webinar

ADB and its DMCs face a challenging task of creating and maintaining efficient urban transport systems that must address problems of severe congestion, deteriorating air quality, and commuting safety risks for the vulnerable population. As we work towards a sustainable recovery from the COVID-19 pandemic, there is an opportunity to rethink approaches to urban transit systems and public spaces to create urban communities that are green, competitive, inclusive, and resilient.

This webinar highlights the most compelling opportunities and critical challenges in urban mobility and transit-oriented development. It provides an opportunity to exchange views on how to replicate and expand support in the context of the Delhi-Meerut Regional Rapid Transit System Investment Project.

Speakers

Opening Remarks

Shixin Chen

Vice President
Operations 1

Closing Remarks

Kenichi Yokoyama

Director General
South Asia Department

Panelist

Vinay Kumar Singh

Managing Director
National Capital Region
Transport Corporation

Panelist
