

Mr. Jan Smid heads the UNHCR Inspector General MENA office, leading the Digital Data Hub in digital forensics and data optimization to enhance IGO operations. He is advancing digital solutions across the complaint and investigation process, utilizing AI and other tools for efficiency.

Starting in 2005 in the Inspector General field, Jan has audited and investigated public programs, joining the UN in 2015 as an investigator at WFP and later as a Business Intelligence Analyst at UNHCR. His global experience includes conducting proactive analyses, using big data to generate key findings for emergency response and risk management.

Jan is a CPA, CFE, GIAC Certified Forensic Examiner, and a graduate of the US DHS FLETC CITP. He holds a master's in public administration and bachelor's degrees in accounting, environmental management, and French. Fluent in English, French, and Czech, he brings a wealth of expertise to UNHCR.
