DR. PRITI SINHA
Treasury Specialist
Asian Development Bank

Dr. Sinha is currently in the Quantitative Analytics Unit (QAU) at Treasury Department (TD) of Asian Development Bank (ADB), responsible for pricing and risk analytics of TD and market data for ADB. Priti joined ADB in July 2021. Prior to joining ADB, Priti was heading the Quant Analytics team at NatWest-Markets in UK, responsible for the pricing engine at the heart of NatWest-Markets trading & Risk systems in the UK.

Dr. Sinha has over 15 years of experience at RBS and NatWest in UK, she has extensive Derivatives modelling and implementation experience covering exotics rates, and Hybrids (IR/FX) products and is especially passionate about extending these concepts, coupled with Machine Learning in quantitative finance to Treasury operations.

Dr. Sinha has a PhD in Mathematics & Computer Science from the Indian Institute of Technology (IIT), New Delhi.
