Session 5C: Digital Social Protection – Whole-of-Government Approach for Social Protection Systems

Moderator:

Anita Mittal
Lead, Digital Convergence Initiative
Deutsche Gesellschaft für Internationale Zusammenarbeit
(GIZ)

Anita Mittal leads the Digital Convergence Initiative which strives to build global consensus for interoperable and integrated social protection information systems. She has extensive experience in design and implementation of identification systems for World Bank and e-Governance projects in India. She was involved in publication of several open standards and interoperability framework while leading the National e-egovernance standards project for the government of India. She is a certified project management professional with a bachelor and master's degrees in Computer Science and Engineering.

Panelists:

Naveed Akbar
Director General, Benazir Income Support Programme (BISP)/Program Director Integrated Social Protection Development Program
Pakistan

Naveed Akbar is Director General for the National Socio-Economic Registry (NSER) and Conditional Cash Transfer (CCT) Programs at BISP. He has spearheaded Pakistan's first digital socio-economic census covering over 35 million households of the country and established the NSER. He has designed and implemented successful health- and nutrition- and

education-focused CCTs across Pakistan. Naveed has also designed and implemented several targeted subsidies and shock-response initiatives for poor and ultra-poor segments of the country, including noteworthy emergency cash assistance during COVID-19 and response to recent monsoon floods in Pakistan.

Mr. Naveed holds a M.Sc Economics & Finance with a distinction

Kiran Anandampillai
CEO and Founder, iDrishti (private sector – India) and Advisor (Technology) at National Health Authority

Kiran Anandampillai is Advisor (Technology) with the National Health Authority (NHA). He is a volunteer supporting NHA to create digital public goods under India's two large digital health initiatives - The Ayushman Bharat Digital Mission and Ayushman Bharat PMJAY (Health Insurance Scheme for lower economic segments). Kiran is a telecom engineer by training and was a founding member of OnMobile, where he led product development and helped build it into a listed public company. His volunteering efforts include working with UIDAI on Aadhaar, iSPIRT foundation on Health Stack and several committees with various ministries. He dedicates his time to driving impact in healthcare. He is the founder and CEO of iDrishti, which delivers high quality eyecare from a district capital to the village level. iDrishti currently manages 12 eye hospitals across Karnataka, India
