RESILIENT INFRASTRUCTURE

ADB

SEASON 3, SESSION 1 – THURSDAY, 15 July at 1100 – 1230 PHT (Manila time)

Nature-based Solutions for Resilient Infrastructure

Speaker:

Saroj Yakami

Country Manager
MetaMeta Nepal

Saroj Yakami has worked over the past 10 years in water resource management covering water resources, agriculture, irrigation, and water harvesting. He has been involved as Country Manager in Nepal working on (i) water security, climate change and community resilience; (ii) road water management and resilience; (iii) inclusion of people with disability in agriculture water management. He has been actively engaged in development of the guidelines for *Protecting and Developing Springs in local road development in hill and mountain areas of Nepal*.
