SPEAKER PROFILE

Yidan Luo

Transport Specialist
Asian Development Bank

Yidan Luo is a Transport Specialist in the Transport Sector Group at ADB, working in the South Asia and Southeast Asia team. She is actively engaged in the preparation and implementation of sovereign transport projects across the regions. Her work contributes to improving regional connectivity, strengthening resilience to climate and disaster risks, and advancing sustainable and inclusive transport systems.

Ms. Luo has over 13 years of experience in infrastructure development and joined ADB as a Young Professional in 2020. Since joining ADB, she has worked across a diverse portfolio of transport investments, collaborating closely with government counterparts, and development partners on project development, technical due diligence, and implementation. She holds a bachelor's degree from Tsinghua University, PRC, and a master's degree in civil and environmental engineering (transportation) from Northwestern University, United States.
