SPEAKER PROFILE

Brendan Coleman

Low Carbon Solutions Specialist
Asian Development Bank

Brendan Coleman is a Low Carbon Solutions Specialist in the Asian Development Bank's Climate Change and Sustainable Development Department, where he supports the design and implementation of climate mitigation projects as well as technical assistance. He led projects under ADB's NDC Advance Technical Assistance Platform, supporting ADB members operationalize their national climate targets, define NDC-aligned investments and mobilize climate finance.

Brendan brings over 10 years of international experience in climate policy and investment. Prior to ADB, he worked with the OECD, IFC, the African Development Bank, and the Global Green Growth Institute, leading policy analysis, investment program design, and technical assistance to support low carbon transition. He holds an MSc in Economics and Policy of Energy and the Environment from University College London.
