

SPEAKER PROFILE

Xavier Pascual

.....
***Global Director Consulting
& New Technologies
Sener Mobility***

Xavier Pascual is a MSc Civil, holding a Master's degree in Port Engineering and Management and an Executive MBA. He has more than twenty five (25) years of experience as a specialist engineer in Infrastructure Consulting and Design, with a strong emphasis on digital and sustainable solutions. Throughout his professional career, he has participated in several international studies and/or projects in more than 20 countries across the five continents. He began his professional career at TECNOCEAN, an engineering firm specialized in maritime numerical modeling, and later joined SENER, where he has held various leadership positions (Ports Senior Project Director, Civil Engineering Head, Global Director Ports & Water). Since 2023, he has been the Global Director of Consulting and New Technologies. In this department, he leads the implementation of innovative solutions in the infrastructure sector, including Digital Twins and Artificial Intelligence applications that improve operations and maintenance in transport infrastructures.
