

SPEAKER PROFILE

Harold Hurel

.....
***Independent Consultant
Asian Development Bank***

Harold supports the definition of global transport strategies, policies and master plans, whether at a multimodal level (Sustainable Urban Mobility Plans – SUMPs) or at sectoral level for different modes (railways, metros, buses, etc.). In parallel, he manages complex multidisciplinary railway and urban transit projects at opportunity and feasibility level such as light rail transit (LRT), metro and bus rapid transit (BRT).

Harold provides investment decision support by combining demand appraisal, cost benefit analysis, key transport functions, alignment constraints, infrastructure design principles and operation requirements. He has worked with international financial institutions like the World Bank, the Asian Development Bank and the Agence française de développement in Europe, Africa, the Middle East and Asia.
