SPEAKER PROFILE

Frank van Steenbergen

Technical Director
MetaMeta

Frank van Steenbergen is technical director of MetaMeta (www.metameta.nl), an award-winning group, that specializes in scalable global solutions in climate resilience, including green infrastructure, water management and local climate management. Dr, van Steenbergen has worked in more than 20 countries in supporting new approaches, implementation programs, research and in capacity building. He has worked on Green Roads for the last ten years and made major contribution to the ADB Toolkit for Green Roads. He assessed the scope for Green Roads in Tajikistan for ADB and World Bank.
