

Marcelo Donolo

The World Bank Group

Marcelo Donolo is a Manager in the Prevention, Risk & Knowledge Management unit in the Integrity Vice Presidency (INT), the World Bank's anti-corruption unit. In his +27-year career in the Bank, Marcelo has led the development of digital solutions for Procurement, Risk Management, and other operational functions. Over the last 15 years, he has been implementing new operating models for business units to address and adjust to technological change while promoting a culture of innovation and collaboration. Marcelo has been leading INT's digital transformation strategy since 2019 to leverage advanced cloud systems and develop customized AI solutions to help identify integrity risks and fight corruption.
