

**SEASON 2, SESSION 3 – WEDNESDAY, 28 April at 1400 – 1530 PHT (Manila time)**  
**Building Resilience of the Power System in the Low Carbon Transition**

**Speakers:**

**Maythiwan Kiatgrajai**

Senior RE Planning and Policy Specialist  
Abt Associates/ USAID Clean Power Asia

**Maythiwan Kiatgrajai** joined USAID Clean Power Asia in 2018. Her work includes supporting the Laos government in designing the first competitive energy procurement, developing guidelines for conducting feasibility studies for RE projects and assessing the power sector vulnerabilities and the resilience action plan. Maythiwan also works with Thailand's Office of Energy Regulatory Commission and U.S. experts on developing BESS technical standards in Thailand.

Prior to joining Abt, Maythiwan was with Thailand's Energy Policy and Planning Office (EPPO) for 5 years. She served as a Senior Policy and Plan Analyst and was involved in various tasks, including the ex-post evaluation of RE and EE projects sponsored by the ENCON fund and participating in various electricity policy and plan making processes.

Maythiwan holds a Master of International Public Affairs in energy and environmental policy from University of Wisconsin-Madison, USA and an M.Sc. in Biotechnology from Kasetsart University, Thailand.
