Session 3.1

Deep dive panellists

Applying climate risk information in coastal contexts

- What is your vision of climate resilient development for coastal economies?
- What are the most significant climate risks faced by the 2050s by coastal economies?
- How is climate risk information/ capacity development supporting climate resilient development in coastal areas?

Session 3.1

Group discussion

Priorities for practical action on climate risk information

- What practical steps can be taken to **integrate climate risk information** within adaptation investment planning?
- How can CAIP strengthen the tools, partnerships, technical support, indicators, or institutional arrangements that **enable** climate resilient development?
- What specific actions are needed to address **multi-hazards** in the coastal zone?
