

9.3 Billion Cross-Border E-Commerce Orders...and Growing*

Who can possibly process these SAFE-ly?

Silta AI is a good start!

Stanley Boots, Co-
Founder Silta AI
5 March 2025

* McKinsey 2020 data found at:
<https://www.mckinsey.com/industries/logistics/our-insights/signed-sealed-and-delivered-unpacking-the-cross-border-parcel-markets-promise>

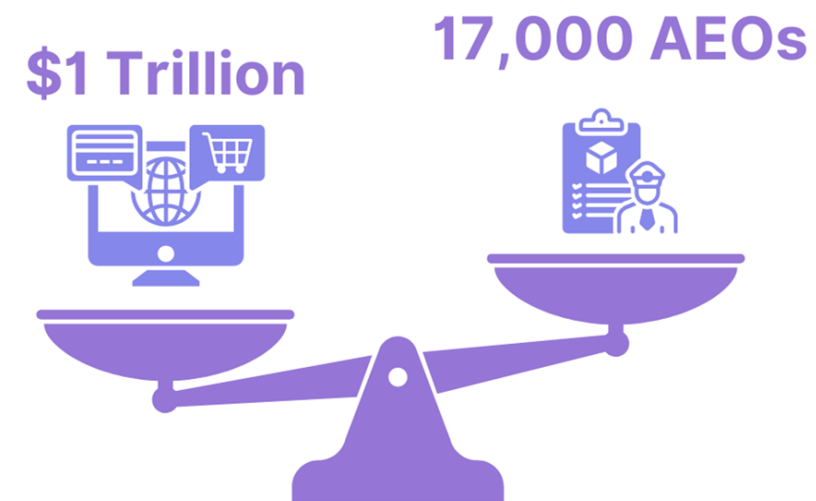

THE PROBLEM

Cross-border E-commerce is expected to reach \$1 trillion in value by 2030

AEO's are one solution but...

The INFORMATION processing needs far exceed current human capacity

"Even conservative estimates project that cross-border e-commerce in goods—the fulfilment and parcel dispatch of an order taking place in a country different from the customer's final delivery destination—will expand to around \$1 trillion in merchandise value by 2030..."*

- Accreditation process is **long and complex**
- **SMEs struggle** to participate
- Manual evaluations lead to **bias, error and inconsistency**

* McKinsey 2020: <https://www.mckinsey.com/industries/logistics/our-insights/signed-sealed-and-delivered-unpacking-the-cross-border-parcel-markets-promise>

AI is our SOLUTION?

**AI is going to
save the
day, right?**

Short answer: **Yes...but how?**

THE SOLUTION

Silta AI Turns Document and Compliance Chaos into Instant Clarity

AI-powered due diligence, risk assessment, and compliance review that:

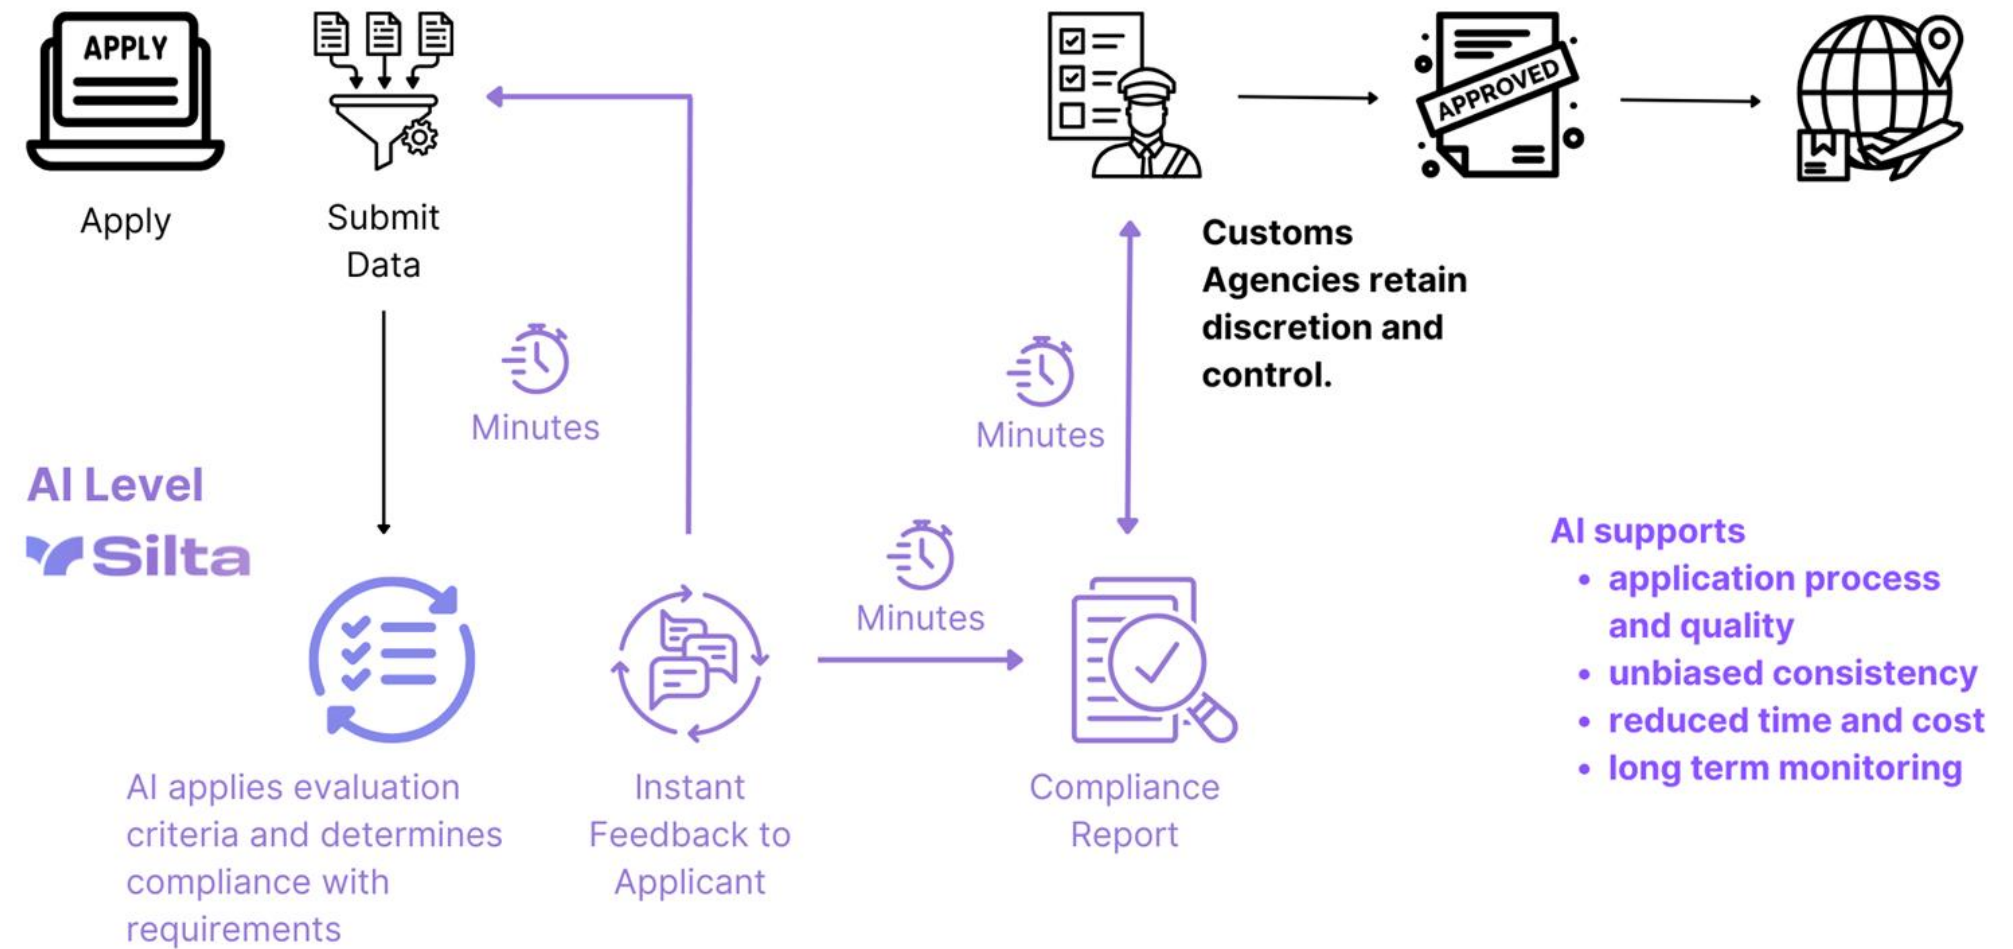

- Analyzes **unlimited documents** instantly.
- Benchmarks data against thousands of **real-world precedents**.
- Pinpoints **compliance, risks and red flags**, in minutes.
- Ensures enterprise-grade **security & confidentiality**.
- Eliminates manual review and **reduces costs**.
- Delivers **customized, relevant reports** and analyses.
- Makes **cogent recommendations** and supports **seamless work flows**.
- Automates the **monitoring of long-term transactions**.
- **Reduces human error and bias** for greater consistency across transactions.

What traditionally took months, now takes minutes.

HOW IT WORKS

AI is best suited to assess mountains of documentation against assessment criteria and generate an unbiased report

AEO Applicant Level

DEMONSTRATION

You may already know the current AI tools.

We've built a platform that is designed to do the heavy lifting of document processing across multiple sectors and industries.

Trade facilitation is a natural fit for AI.
