SPEAKER PROFILE

Jackie Spiteri

Managing Director
SESG

Jackie Spiteri is the Managing Director of SESG, with over a decade of experience delivering sustainability and ESG outcomes across the infrastructure and ports sectors. She has held senior roles at the Port of Newcastle, where she led ESG strategy development, sustainability financing program, GRESB reporting, and decarbonisation initiatives, including setting a Net Zero 2040 target.

Jackie has deep expertise in working with port authorities and maritime stakeholders to embed sustainability into governance, operations, and investment decision-making. Her experience spans materiality assessments, climate risk scenario analysis, sustainable procurement (ISO 20400), Green Marine verification, and the development of sustainability strategies and disclosures aligned to emerging standards such as AASB S2.

She is currently leading regional initiatives including the development of a Green Port Toolkit for Southeast Asia in partnership with the Asian Development Bank, supporting the acceleration of green investment and practical implementation across the ports sector. Jackie is known for her pragmatic, commercially focused approach and strong stakeholder engagement capability.
