INFORMATION EXCHANGE

ABOUT US:

The Reggio Emilia Australia Information Exchange (REAIE) is a not-for-profit membership organisation.

REAIE is an invited member of the Reggio Children International Network. REAIE draws on the educational project of Reggio Emilia as the ongoing catalyst for thinking, research, and advocacy in Australian educational settings. We aim to promote a greater understanding of both the complexity and importance of listening in creating relationships both within and between groups of children, educators, families, and the community.

REAIE promotes a strong and positive image of children as citizens and active participants in democratic communities through the promotion of the critical role of research, observation, documentation, and interpretation of children's processes of action and thought.

We advocate for social justice and democracy in education, giving priority to active constructive and creative learning by children. REAIE works to sustain and strengthen our relationship with Reggio Children, and we continue to be their national reference organisation in Australia through the promotion of dialogue, professional learning, and research of the educational project of Reggio Emilia.

PURPOSE STATEMENT:

Reimagining children's education for a just society.

OUR VALUES:

When making decisions and advocating for the work of the organisation REAIE employees and Board pledge to:

- Honour Children.
- Act with Respect and Integrity.
- Be Democratic and Ethical.
- Support Learning, Teaching and Research.

We believe that these values reflect the purpose and mission of the organisation and will support our decision-making processes.

ABOUT OUR MEMBERS AND COMMUNITY:

REAIE members consist of students, practitioners, academics and educators in preschools, primary, secondary, and tertiary organisations, graphic and performance artists, policymakers, and architects. Our members live in all states and territories of Australia and beyond, including New Zealand and the Asia Pacific region. Our workshops, conferences and events have attracted over 10,000 participants in the past decade alone.

ABOUT THE CONFERENCE

Reggio Emilia Australia Information Exchange (REAIE) is pleased to share with you the title of the 2027 REAIE Biennial Conference *Landscapes of Hope: Children as Citizens*

The 2027 REAIE Conference will be held from 1st to the 3rd of July 2027 at the Gold Coast Convention and Exhibition Centre in Broadbeach/ Yugambeh region, Queensland.

The 2027 REAIE Conference upholds a bold premise: children as active citizens, from birth, holders of rights, culture, values, and boundless potential. In a world impacted by inequality and crisis, our shared future will be guided by how we listen to and participate alongside children in shaping more just and democratic possibilities.

This is not only a pedagogical agenda, but a deeply ethical and political one. Landscapes of Hope invites educators, researchers, and communities to come together to consider how pedagogical approaches, deeply influenced by the values of Reggio Emilia, have the potential to create contexts that honour participation as a right and difference as a welcome catalyst for growth and transformation. This is a view that upholds the collective as a place for the co-construction of meaning, where children's perspectives are heard, their identities affirmed, and their rights are upheld with integrity

Journeying back over six decades to the inception of the Reggio Emilia municipal pre-schools and infant-toddler centres, we encounter a landscape of profound change experienced by children, their families and community.

In response, Malaguzzi articulated the imperative for “a pedagogy of collective desire” (Moss, 2012, p. 124). Especially resonant in today's complex times, Malaguzzi's imperative offers a contemporary and courageous call to action that holds the inter-dependent relationships between children, educators, families, and communities at its heart.

REAIE extends a warm invitation to join us as we engage with our colleagues from Reggio Emilia, exploring the myriad ways in which the dynamic Reggio Emilia Approach® continues to unveil fresh vistas for children, childhood, and education.

This Conference delves into the nexus of theory and practice, charting a course towards an educational ethos grounded in hope, optimism, and children as citizen culture-makers, sustained by the enduring principles of collaboration, participation, and democracy.

This Conference, planned in close collaboration with Reggio Children, will be a rich and invigorating experience as we welcome colleagues from Reggio Emilia as our Conference Keynote Speakers, supported by a collection of presentations from the Australian research community. This Conference promises to offer wonderful networking opportunities with colleagues, organisations, and businesses across the sector.
